Salesforce Salesforce-Slack-Administrator Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Security: This domain targets Salesforce Security specialists in identifying Slack product security features that meet organizational needs. Candidates will describe how Slack addresses security governance, risk management, and compliance while recommending features that protect sensitive data.
Topic 2	<ul style="list-style-type: none"> • App Administration: This section evaluates the skills of Slack Administrators in managing applications within Slack. Candidates will summarize the value of interoperability for both decision-makers and end-users while learning to use Workflow Builder for automating tasks.
Topic 3	<ul style="list-style-type: none"> • User Lifecycle Management: This area focuses on managing user accounts throughout their lifecycle in Slack. Candidates will implement authentication options based on organizational requirements and recommend processes for new account creation.
Topic 4	<ul style="list-style-type: none"> • Enabling Slack Success: This section focuses on the skills of Admins to develop a vision for Slack within their organization. Candidates will use analytics dashboards to track usage and make recommendations based on data insights, such as channel archival or promoting best practices.
Topic 5	<ul style="list-style-type: none"> • Fundamentals: This section of the exam measures the skills of Salesforce Administrators and covers the key privileges and responsibilities associated with each Slack user role. Candidates will identify unique features of Slack's paid plans and understand the common responsibilities shared by Admins and Owners. Additionally, this section emphasizes the importance of workspace and organization-level settings and dashboards, focusing on how they contribute to effective Slack management.

Salesforce Certified Slack Administrator Sample Questions (Q173-Q178):

NEW QUESTION # 173

Which of the following would most make your company a good candidate to use Slack's Enterprise Key Management (EKM)?

- A. You use Azure for all of your key management.
- **B. Your company's employees primarily use unsecured mobile devices to access Slack.**
- C. Your company frequently shares personally identifiable information (PII).
- D. Your company is in the public sector.

Answer: B

NEW QUESTION # 174

Chandler, who works for Truck Inc, is in charge of developing a new certification program for Truck Inc's drivers. Chandler will be working with a small team of 4 employees, and details of the program must be kept private from the drivers. They are currently using a group direct message to plan the certification program, but some people on the team will be going on vacation soon, and new members will be replacing them.

What should Chandler do next?

- A. Create a public channel for co-ordination, but continue using group DMs, and DMs for content that needs to stay private.
- B. Convert the group DM to a private channel, and then invite the new members.
- **C. Continue using the group DM, and invite the new members to it.**
- D. Start a new group DM with only the new members of the team.

Answer: C

NEW QUESTION # 175

Your team is planning to upgrade from the Pro plan to the Business+ plan.

The implementation team is drafting a vision for Slack to match the new season of working in Slack inspired by the upgrade.

As an admin, you're most concerned with how this statement can support end users.

What is the strongest benefit a vision statement provides for end users?

- **A. A user will understand the purpose of using Slack for their work in a new shared way.**
- B. A user will learn several Slack channels they should join.
- C. A user will be able to describe their permissions compared to admin permissions.
- D. A user will know about newly released features.

Answer: A

Explanation:

Slack's guidance on change management recommends:

"A vision statement defines the purpose of Slack in the organization's broader workflow. It helps end users align on why Slack is being used and how it supports their day-to-day work." It focuses on strategic understanding, not tactical elements like channel lists (B), permissions (C), or feature updates (D).

(Reference: Slack Administration Study Guide - Change Management and Slack Adoption Planning)

-

NEW QUESTION # 176

You're an Org Admin for your company's Slack Enterprise Grid org. Your organization uses an identity provider (IdP) with SCIM

provisioning. Today is the last day of employment for a manager at your company who is a Workspace Admin. What is the best strategy to ensure the account is no longer active after this Workspace Admin's departure? (Select the best answer.)

- A. Manually delete the departing Workspace Admin from your organization's IdP.
- **B. Deactivate the Workspace Admin's account in the IdP, and automatically sync deactivated members from your organization's IdP.**
- C. Request an Org Owner deactivate the departing Workspace Admin from the Org Admin dashboard.
- D. Deactivate the departing Workspace Admin from all Enterprise Grid workspaces from each workspace's Manage Members page.

Answer: B

Explanation:

According to Slack's official SCIM documentation:

"Deactivating a user in the identity provider (IdP) automatically deactivates the user's Slack account through SCIM provisioning."

This ensures the Workspace Admin is promptly deactivated across the Enterprise Grid without needing manual action in Slack itself. Options A, C, and D are manual or inefficient approaches when SCIM is available.

(Reference: Slack Administration Study Guide - SCIM Provisioning and Lifecycle Management)

-

NEW QUESTION # 177

You're an Org Owner for your company's Slack Enterprise Grid org. Your team wants to add standardized user attributes to members' profiles to enrich the data that can be retrieved from your member analytics dashboard. You know this information exists within your Identity Provider (IdP).

What is the best method to enable this process? (Select the best answer.)

- A. Use the Analytics API to sync attributes to your analytics dashboard.
- B. Use the Custom Profile API to sync attributes to your analytics dashboard.
- C. Create custom profile fields for members to add standard attributes to their profile.
- **D. Use the SCIM API to sync attributes to your member profiles.**

Answer: D

NEW QUESTION # 178

.....
