Free CTS-I Practice & CTS-I New Cram Materials

Before starting the AVIXA CTS-I preparation, plan the amount of time you will allot to each topic, determine the topics that demand more effort and prioritize the components that possess more weightage in the AVIXA CTS-I Exam. This kind of polished approach is beneficial for a commendable grade in the AVIXA CTS-I Exam.

AVIXA CTS-I Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Practice Ongoing Project Responsibilities: This domain focuses on day-to-day project management tasks during the installation phase, such as completing field reports, coordinating with other trades (electrical, construction, IT), and identifying and resolving field-level changes or conflicts that arise on site.

Topic 2	<ul style="list-style-type: none"> • Conduct Post Project Activities (e.g., support, warranties, maintenance): This domain addresses responsibilities that extend beyond project handover, including routine maintenance of AV systems and equipment, as well as diagnosing and repairing faults, handling warranty claims, and troubleshooting system issues after installation.
Topic 3	<ul style="list-style-type: none"> • Conduct Site Rough-In • First-Fix: This domain addresses the initial physical site work, including removing existing equipment or cabling, installing mounting substructures and rigging, and pulling cable through pathways in preparation for the full AV system installation.
Topic 4	<ul style="list-style-type: none"> • Implement Pre-Installation Activities: This domain covers the groundwork required before physical installation begins, including reviewing project documentation and design drawings, conducting site surveys, assessing facility readiness, and preparing materials, tools, and logistics for the upcoming installation.
Topic 5	<ul style="list-style-type: none"> • Perform AV Systems Closeout: This domain covers the final steps needed to formally complete an AV project, including demonstrating system performance to the client, providing user training, and finalizing all project documentation such as as-built drawings, punch lists, and programming files.
