Our Apple Deployment and Management Exam exam questions provide with the software which has a variety of self-study and self-assessment functions to detect learning results.

## Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>Device Support:</b> This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Device Enrollment:</b> This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Prepare Your Environment:</b> This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Planning Device Ownership and Enrollment:</b> This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Identity Services:</b> This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.</li> </ul>

Topic 6	<ul style="list-style-type: none"> <li>• <b>Manage Content and Data Flow:</b> This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• <b>Device Setup:</b> This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• <b>Plan a Deployment:</b> This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• <b>Network Integration:</b> This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>• <b>Apple Business Manager and Apple School Manager:</b> This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>• <b>Device Security:</b> This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>• <b>Device Configuration:</b> This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.</li> </ul>

## DEP-2025 Valid Test Guide - DEP-2025 Sample Questions

It is very convenient for all people to use the DEP-2025 study materials from our company. Our study materials will help a lot of people to solve many problems if they buy our products. The online version of DEP-2025 study materials from our company is not limited to any equipment, which means you can apply our study materials to all electronic equipment, including the telephone, computer and so on. So the online version of the DEP-2025 Study Materials from our company will be very useful for you to prepare for your exam. We believe that our study materials will be a good choice for you.

### Apple Deployment and Management Exam Sample Questions (Q254-Q259):

#### NEW QUESTION # 254

How do you enroll devices ineligible for automatic enrollment in Apple Business Manager or Apple School Manager?

- A. Automated Device Enrollment
- **B. Device Enrollment**
- C. Automatic enrollment
- D. No enrollment possible

**Answer: B**

Explanation:

Devices ineligible for Automated Device Enrollment (ADE) in Apple Business Manager (ABM) or Apple School Manager (ASM)- typically because they weren't purchased directly from Apple or an authorized reseller-can still be enrolled manually via Device Enrollment. This involves installing an enrollment profile locally on the device, often using tools like Apple Configurator. Automated Device Enrollment (option B) and Automatic enrollment (option C) refer to ADE, which isn't applicable here. "No enrollment possible" (option D) is incorrect, as manual enrollment is an option. The Apple Platform Deployment Guide outlines Device Enrollment for such cases.

Reference:Apple Platform Deployment Guide(Chapter: Device Enrollment).

#### NEW QUESTION # 255

What's the benefit of using Lost Mode?

- A. Separates personal and managed data
- B. Improves network performance
- C. Enables additional restrictions
- **D. Allows device tracking**

**Answer: D**

Explanation:

Lost Mode, an MDM feature for supervised devices, allows device tracking by locking the device, displaying a custom message, and reporting its location (if Location Services are enabled). It's a security tool for recovering lost or stolen devices. Additional restrictions (option B) are a supervision feature, not Lost Mode's benefit. Network performance (option C) and data separation (option D) are unrelated. The MDM Protocol Reference highlights tracking as Lost Mode's primary benefit.

#### NEW QUESTION # 256

Where is content cached when you simultaneously provision tethered iPad devices using Apple Configurator?

- A. On the MDM server that the iPad devices are tethered to
- B. On the iCloud server
- C. On the MDM content caching server
- **D. On the Mac that the iPad devices are tethered to**

**Answer: D**

Explanation:

Content is cached on the tethered Mac. The Apple Configurator User Guide states, "When provisioning tethered iPad devices using Apple Configurator, content is cached on the Mac they are connected to, speeding up the process." Reference: Apple Configurator User Guide, "Provisioning Devices" section. Apple Platform Deployment Guide, "Apple Configurator" section.

#### NEW QUESTION # 257

Which type of Apple ID is required for User Enrollment?

- A. Shared Apple ID
- B. Personal Apple ID
- **C. Managed Apple ID**
- D. Apple ID

**Answer: C**

Explanation:

User Enrollment, designed for BYOD, requires a Managed Apple ID to separate personal and managed data cryptographically. Created via Apple Business Manager (ABM) or Apple School Manager (ASM), Managed Apple IDs enable organizational policies while preserving user privacy. Personal Apple IDs (options A and C, the same) are not used for User Enrollment, as they lack organizational control. There's no "Shared Apple ID" (option D); Shared iPad uses Managed Apple IDs differently. The Apple Platform Deployment Guide mandates Managed Apple IDs for User Enrollment.

#### NEW QUESTION # 258

What's required to deploy books to devices using an MDM solution?

- A. A VPN configuration
- **B. Managed Distribution**

- C. An Apple Developer account
- D. User acceptance

**Answer: B**

Explanation:

Managed Distribution, available through Apple Business Manager (ABM) or Apple School Manager (ASM), is required to deploy books to devices using an MDM solution. Administrators purchase books in ABM/ASM, assign them to users or devices via Managed Distribution, and the MDM pushes them silently (for supervised devices) or with user consent. An Apple Developer account (option A) is for apps, not books. User acceptance (option C) may be needed for non-supervised devices but isn't the core requirement. A VPN configuration (option D) is unrelated. The Apple Business Manager User Guide confirms Managed Distribution for book deployment.

Reference: Apple Business Manager User Guide (Section: Managed Distribution).

## NEW QUESTION # 259

.....

Have you been many years at your position but haven't got a promotion? Or are you a new comer in your company and eager to make yourself outstanding? Our DEP-2025 exam materials can help you. With our DEP-2025 exam questions, you can study the most latest and specialized knowledge to deal with the problems in your daily job as well as get the desired DEP-2025 Certification.
