If you don't have an electronic product around you, or you don't have a network, you can use a printed PDF version of our MB-700 training materials. We also strongly recommend that you print a copy of the PDF version of your MB-700 study materials in advance so that you can use it as you like. And you can also take notes on the printale MB-700 Exam Questions whenever you had a better understanding. Of course, which kind of equipment to choose to study will ultimately depend on your own preference.

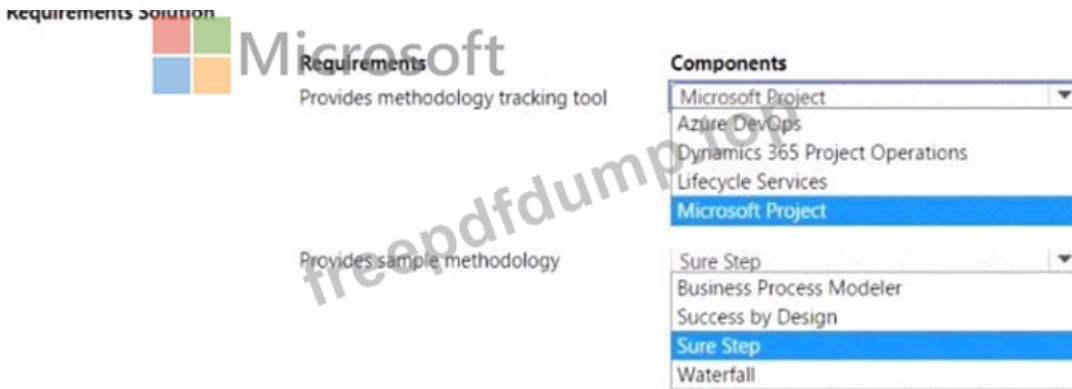

Microsoft Dynamics 365: Finance and Operations Apps Solution Architect Sample Questions (Q169-Q174):

NEW QUESTION # 169

You need to implement a solution for entering the methodology information for the project.

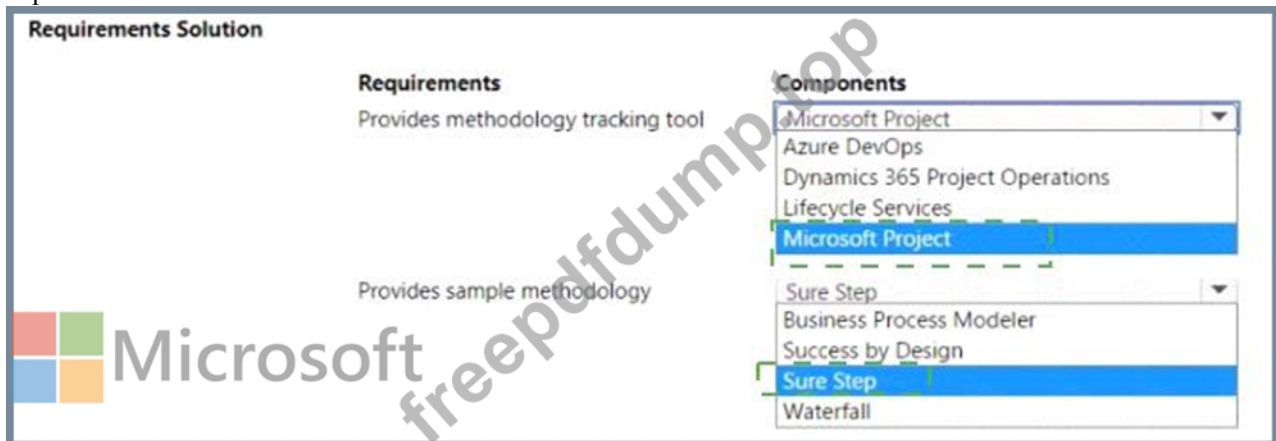

Which components should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 170

You need to solve User1's issue.
What should you create?

- A. Business Process Modeling Notation (BPMN)with Power Automate
- B. GitHub Solution Blueprint template
- **C. Data Migration framework data packages**
- D. GitHub Cutover template

Answer: C

Explanation:

Data migration is a key success factor in almost every implementation. A primary concern of some customers is the speed that data can be migrated at, especially if there are vast amounts of data and a small cutover window. The Data migration framework is also used to move data as part of business requirements and operations.

A data package for a Dynamics 365 Finance and Operations app can consist of one or many data entities. A typical data package consists of a group of entities for a specific task, process, or function.

Note: A mock cutover was conducted. It was unsuccessful due to lack of coordination across the countries.

The lack of success created timing issues with data uploads from centralized IT and validation at the country level. User1 must use a standard template to prevent the mock cutover issue happening at go-live.

NEW QUESTION # 171

A company uses Dynamics 365 Supply Chain Management.

You are performing regression testing using the Regression suite automation tool (RSAT). You observe that invoice totals for some sales orders are lower than expected.

You need to ensure that the invoice totals are correct.

What should you do? To answer, drag the appropriate actions to the correct scenarios. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer Area

Microsoft

Requirement

Track maintenance on mining machines and equipment.

Capture costs for each of the mine locations for capitalization opportunities.

NEW QUESTION # 172

Your company has a Microsoft 365 subscription.

You need to prevent temporary employees from using the chat feature in Microsoft Teams.

Solution: You create an app permission policy and assign the policy to the users.

Does this meet the goal?

- A. Yes
- B. No

Answer: B

Explanation:

An app permission policy in Microsoft Teams is used to control which apps are available to users. This policy allows you to block or allow certain apps, but it does not specifically control the chat feature within Teams. For controlling chat capabilities, a messaging policy would be more appropriate.

NEW QUESTION # 173

A company plans to use Dynamics 365 Finance and Supply Chain Management. The company is preparing for cutover and is documenting a plan.

You must review the cutover plan.

You need to verify the post-go-live support documentation is complete and covers all applicable topics.

Which topic does each statement support? To answer, move the appropriate topic to the correct statement. You may use each topic once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Topics

- Post-go-live actions
- Transition planning
- Cutover exit criteria
- Go/no-go decision point

Microsoft

Topic

Statement

Open tasks will be reassigned to the support desk three weeks post-go-live.

Verification of first shipment ledger postings.

Topic

Answer:
