SAP Certified Associate - Positioning WalkMe 認定 C-BCWME-2504 試験問題 (Q11-Q16):

質問 # 11

What is the primary purpose of WalkMe's Digital Adoption Platform (DAP)?

- A. To manage payroll systems efficiently
- B. To implement advanced hardware solutions
- C. To automate recruitment processes
- D. To reduce digital friction and guide users through complex software

正解: D

質問 # 12

Why do organizations invest in Digital Adoption Platforms (DAP) like WalkMe?

- A. To reduce the need for IT support during software rollouts
- B. To automate payroll and HR processes for efficiency
- C. To improve user adoption and ensure maximum ROI on technology investments
- D. To replace outdated hardware systems with modern alternatives

正解: A、C

解説:

From insights on learning.sap.com, organizations invest in Digital Adoption Platforms (DAPs) like WalkMe primarily to:

- A. To improve user adoption and ensure maximum ROI on technology investments WalkMe addresses low adoption rates, streamlines workflows, and helps customers fully realize the value of their digital tools-all contributing to improved ROI
- B. To reduce the need for IT support during software rollouts

WalkMe provides in-app guidance and self-service options like Smart Walk-Thrus and SmartTips that empower users to learn independently and reduce reliance on IT support

Not the primary reasons:

* C. To replace outdated hardware systems with modern alternatives

WalkMe focuses on software adoption and usage optimization-not on hardware refreshes.

* D. To automate payroll and HR processes for efficiency

While WalkMe can guide users through HR software, its mission isn't centered on HR automation itself.

In Summary:

Objective WalkMe's Role

Improve user adoption & maximize ROI Guided adoption, analytics, and reducing friction Reduce IT support during rollouts Self-service walkthroughs and contextual help So, the correct answers are A and B.

質問 # 13

From a WalkMe perspective, what is a common reason enterprises fail to maximize ROI on software investments?

- A. Low software adoption rates
- B. Insufficient IT budgets
- C. Excessive third-party integrations
- D. Lack of employee training programs

正解: A

解説:

D. Low software adoption rates.

WalkMe emphasizes that one of the biggest reasons enterprises fail to maximize ROI on their software investments is due to poor software adoption. Organizations frequently see massive inefficiencies, underutilized tools, and productivity losses-all stemming from low adoption rates-costing up to \$104 million annually and dramatically reducing ROI

Why not the other choices?

* A. Insufficient IT budgets - While budget constraints can impact projects, WalkMe highlights adoption, not funding, as the primary

barrier.

* B. Excessive third-party integrations - Integration complexity is a challenge but not cited as the leading cause of failed ROI.

* C. Lack of employee training programs - Training is important, but the core issue is that even with training, employees still aren't using the software effectively-and that's indicative of poor adoption.

Thus, low software adoption rates is the common reason cited from WalkMe's perspective.

質問 # 14

How does WalkMe empower enterprises to recover productivity losses?

- A. By offering proactive, contextual guidance through AI-powered tools
- B. By outsourcing workflow management to third-party providers
- C. By replacing enterprise tools with simpler solutions
- D. By automating recruitment processes

正解: A

解説:

The WalkMe feature that best helps enterprises recover productivity losses is:

B. By offering proactive, contextual guidance through AI-powered tools WalkMe empowers users by delivering real-time, in-app guidance tailored to individual workflows. Specifically, their contextual AI tools-like the new "Action Bar"-proactively suggest next steps, remind users of critical tasks, and offer support based on ongoing context across applications. This reduces disruptions, closes adoption gaps, and accelerates productivity recovery Why the other options don't apply:

* A. By automating recruitment processes

WalkMe focuses on user productivity and adoption, not HR or recruiting workflows.

* C. By outsourcing workflow management to third-party providers

WalkMe provides in-house software tools and guidance-not workflow outsourcing.

* D. By replacing enterprise tools with simpler solutions

WalkMe enhances existing enterprise tools rather than replacing them.

In summary: WalkMe recovers lost productivity by embedding AI-powered, proactive guidance directly into enterprise software workflows-helping users avoid friction and work smarter in the moment.

質問 # 15

What is a primary benefit of WalkMe's Multi-Language feature for global enterprises?

- A. Delivering consistent user experiences across diverse regions
- B. Automating compliance with international data privacy laws
- C. Simplifying the deployment of WalkMe content across applications
- D. Allowing users to toggle between languages manually

正解: A
