Free PDF Forescout - FSCP - Forescout Certified Professional Exam–High-quality Exam Material

DOWNLOAD the newest Exam4Labs FSCP PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1KBJg2w0g8JE3_YJw_BY7Y_OM4wXcvfFO

If you want to choose the best FSCP exam bootcamp, you should not miss our FSCP exam materials. We have not only experienced industries elites who compile the high-quality products but also professional IT staff to develop three formats of our FSCP study guide and the fast shopping environment. Buyers can enjoy free-worry shopping experience. Besides we provide one year free updates of our FSCP training braindump and service warranty for buyers. With our FSCP exam questions, your success is guaranteed.

It is universally accepted that in this competitive society in order to get a good job we have no choice but to improve our own capacity and explore our potential constantly, and try our best to get the related FSCP certification is the best way to show our professional ability, however, the FSCP Exam is hard nut to crack and but our FSCP preparation questions related to the exam for it seems impossible for us to systematize all of the key points needed for the exam by ourselves. With our FSCP exam questions, you will pass the exam with ease.

Sample FSCP Exam, Sample FSCP Questions Answers

In order to let customers enjoy the best service, all FSCP exam prep of our company were designed by hundreds of experienced experts. Our FSCP test questions will help customers learn the important knowledge about exam. At the same time, our FSCP test torrent can help you avoid falling into rote learning habits. You just need to spend 20 to 30 hours on study, and then you can take

and pass your FSCP Exam. In addition, the authoritative production team of our FSCP exam prep will update the study system every day in order to make our customers enjoy the newest information.

Forescout Certified Professional Exam Sample Questions (Q67-Q72):

NEW QUESTION # 67
Which of the following is an example of a remediation action?

- A. Start SecureConnector
- B. Start Antivirus update
- C. Assign to VLAN
- D. Switch port block
- E. HTTP login

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Forescout Platform Administration and Deployment:
According to the Forescout Administration Guide - Remediate Actions, "Start Antivirus update" is an example of a remediation action.
Remediation Actions Definition:
According to the Remediate Actions documentation:
"Remediation actions are actions that address compliance issues by taking corrective measures on endpoints.
These actions fix, update, or improve the security posture of non-compliant endpoints." Examples of Remediation Actions:
According to the documentation:
Remediation actions include:
* Start Antivirus Update - Updates antivirus definitions on the endpoint
* Update Antivirus - Updates antivirus software
* Start Windows Updates - Initiates Windows security patches
* Enable Firewall - Activates Windows firewall
* Disable USB - Restricts USB access
Why Other Options Are Incorrect:
* A. Start SecureConnector - This is a deployment action, not remediation
* C. Assign to VLAN - This is a containment/isolation action (Switch Remediate Action), not a remediation action
* D. Switch port block - This is a containment/restrict action (Switch Restrict Action), not remediation
* E. HTTP login - This is authentication, not a remediation action
Action Categories:
According to the documentation:
Category
Examples
Purpose
Remediate Actions
Start Antivirus, Windows Updates, Enable Firewall
Fix compliance issues
Restrict Actions
Switch Block, Port Block, ACL
Contain threats
Remediate Actions (Switch)
Assign to VLAN (quarantine)
Move to isolated VLAN
Deployment
Start SecureConnector
Deploy agents
Referenced Documentation:
* Remediate Actions
* Switch Remediate Actions
* Switch Restrict Actions

NEW QUESTION # 68

Which of the following does NOT need to be checked when you are verifying correct switch plugin configuration?

- A. Each switch passes the plugin test
- B. IP address ranges are assigned to the correct appliance
- C. Each switch is assigned to the correct appliance
- D. Correct switch management credentials are configured for each switch
- E. The Switch plugin is running

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Forescout Platform Administration and Deployment:
According to the Forescout Switch Plugin Configuration Guide, when verifying correct switch plugin configuration, you do NOT need to check: "IP address ranges are assigned to the correct appliance". This setting is network/appliance configuration, not switch plugin-specific configuration.
Switch Plugin Configuration Verification Checklist:
According to the Switch Plugin documentation:
When verifying switch plugin configuration, you MUST check:
* A. The Switch plugin is running #
* Plugin status must be active
* Verify in plugin management interface
* B. Correct switch management credentials #
* SSH/CLI credentials configured
* SNMP credentials (v1/v2/v3) configured
* Must have appropriate permissions
* D. Each switch passes the plugin test #
* Use plugin test function to verify connectivity
* Confirms credentials and permissions work
* Validates communication protocols
* E. Each switch is assigned to the correct appliance #
* Switch must be assigned to managing appliance
* Critical for multi-appliance deployments
* Ensures proper VLAN management traffic routing
Why C is NOT Required:
According to the documentation:
IP address range assignment (segment assignment) is:
* Part of appliance channel/segment configuration
* NOT part of switch plugin-specific configuration
* Handled at appliance level, not plugin level
* Related to appliance management, not switch management
Switch Plugin vs. Appliance Configuration:
According to the configuration guide:
Item
Switch Plugin Config
Appliance Config
Plugin Running
#Yes
N/A
Switch Credentials
#Yes
N/A
Plugin Test
#Yes
N/A
Switch Assignment
#Yes
N/A
IP Address Ranges
#No
#Yes
Referenced Documentation:

* CounterACT Switch Plugin Configuration Guide v8.12
* Switch Configuration Parameters
* Permissions Configuration - Switch
* Configuring Switches in the Switch Plugin

NEW QUESTION # 69
Which of the following statements is true regarding Layer-2 channel?

- A. Appliance monitor interface must be connected to an access layer switch
- B. Monitor interface is a trunk
- C. Recommended when there are a large number of VLANs
- D. Response interface is a VLAN trunk
- E. Utilizes two interfaces

Answer: E

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Forescout Platform Administration and Deployment:
According to the Forescout Installation Guide and Working with Appliance Channel Assignments documentation, a Layer-2 channel "Utilizes two interfaces" - one monitor interface and one response interface.
Layer-2 Channel Structure:
According to the documentation:
"A channel defines a pair of interfaces used by the Appliance to protect your network. In general, one interface monitors traffic going through the network (the monitor interface), and the other responds to traffic on the network (the response interface)." Two Interface Components:
According to the Installation Guide:
* Monitor Interface:
* Monitors and tracks network traffic
* Traffic is mirrored from switch ports
* No IP address required
* Can be any available interface
* Response Interface:
* Responds to monitored traffic
* Used for policy actions and protections
* Configuration depends on VLAN tagging
* Can be same VLAN or trunk configuration
Layer-2 vs. Layer-3 Channel:
According to the documentation:
* Layer-2 Channel - Two interfaces (monitor and response)
* Layer-3 Channel - Uses IP layer for response
Why Other Options Are Incorrect:
* A. Recommended for large number of VLANs - Actually, Layer-2 channels with VLAN tagging are recommended for multiple VLANs, but this doesn't define what a Layer-2 channel is
* B. Response interface is a VLAN trunk - While response interface CAN be a trunk for multiple VLANs, it's not required for all configurations
* C. Monitor interface is a trunk - The monitor interface receives mirrored traffic; trunk configuration depends on VLAN setup
* E. Must be connected to access layer switch - The appliance can connect to various switch types; not specifically limited to access layer Referenced Documentation:
* Working with Appliance Channel Assignments
* Quick Installation Guide v8.4
* Quick Installation Guide v8.2
* Add Channels
* Monitor Interface
* Set up the Forescout Platform Network

NEW QUESTION # 70
Which type of signed SSL Certificate file formats are compatible with CounterACT?

- A. .X.509, x.507
- B. .Pckcs#7, .pckcs#12
- C. .cer, .crt
- D. .Pfx/.p12, .Pfx/.p7
- E. .p7b, .pem

Answer: E

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Forescout Platform Administration and Deployment:
According to the Forescout CLI Reference - Generating CSRs and Importing Signed Certificates documentation, the SSL certificate file formats compatible with CounterACT are ".p7b" and ".pem".
Supported Certificate Formats:
According to the CLI Reference documentation:
"To import a certificate from DER or P7B formatted files, convert it to PEM file format. Then convert the PEM files to a single PFX file as described above." This indicates that:
* P7B format - Supported (PKCS#7 container format)
* PEM format - Supported and widely used (ASCII-encoded format)
Certificate Format Conversion Process:
According to the documentation:
The standard import process is:
text
Original Format # Conversion # PEM Format # PFX Format # Import to CounterACT
DER files # Convert # PEM
P7B files # Convert # PEM
PEM files # Direct use or convert to PFX
Why Other Options Are Incorrect:
* A. .Pfx/.p12, .Pfx/.p7 - Pfx is the final format used, not input; p7 is not a standard format
* C. .X.509, x.507 - X.509 is a standard (not a format); x.507 is not valid
* D. .Pckcs#7, .pckcs#12 - Spelling is "PKCS," not "Pckcs"; these are standards, not file formats
* E. .cer, .crt - These are certificate formats but not listed as directly compatible in the documentation Certificate Import Workflow:
According to the documentation:
Compatible workflow formats:
* Input Formats (that need conversion):
* DER files # Convert to PEM
* P7B files # Convert to PEM
* CER files # Convert to PEM
* Intermediate Format:
* PEM (ASCII-encoded, universally compatible)
* Final Format:
* PFX (used for CounterACT import)
Referenced Documentation:
* Generating CSRs and Importing Signed Certificates - CLI Reference
* Import and Configure System Certificates

NEW QUESTION # 71
What is NOT an admission event?

- A. Login to an authentication server
- B. IP Address Change
- C. New VPN user
- D. Host becomes offline
- E. DHCP Request

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Forescout Platform Administration and Deployment:
According to the Forescout Administration Guide, "Host becomes offline" is NOT an admission event.
Admission events are triggers that cause policy rechecks, and according to the documentation:

What IS an Admission Event:

According to the official documentation:

"An admission event is a trigger that causes policies to be rechecked. Examples of admission events include:

* DHCP Request
* IP Address Change
* Switch Port Change
* Authentication via RADIUS or other authentication servers
* Login to an authentication server
* New VPN user"

Specific Admission Events Listed:

According to the Policy Main Rule Advanced Options documentation:

Admission events include:

* DHCP Request - When an endpoint sends a DHCP request
* IP Address Change - When an endpoint's IP address changes
* Switch Port Change - When an endpoint moves to a different switch port
* Authentication Events - When endpoints authenticate to RADIUS or other servers
* VPN Events - When VPN users connect

Why "Host becomes offline" is NOT an Admission Event:

According to the documentation:

A host becoming offline is NOT listed as an admission event. Instead, policies handle offline hosts differently:

* By default, policies are rechecked every 8 hours regardless of online/offline status
* Offline detection is a property state change, not an admission event
* The system tracks whether a host was "seen" or is currently "online," but this doesn't trigger admission event rechecks Why Other Options ARE Admission Events:

* A. DHCP Request #- Explicitly listed admission event
* B. IP Address Change #- Explicitly listed admission event
* D. Login to an authentication server #- Explicitly listed admission event
* E. New VPN user #- Explicitly listed admission event

Referenced Documentation:

* Forescout eyeSight policy main rule advanced options
* Working with Policy Templates - When Are Policies Run
* Event Properties documentation

NEW QUESTION # 72

......

Test your knowledge of the FSCP exam dumps with Exam4Labs Forescout Certified Professional Exam (FSCP) practice questions. The software is designed to help with Forescout Certified Professional Exam (FSCP) exam dumps preparation. Forescout Certified Professional Exam (FSCP) practice test software can be used on devices that range from mobile devices to desktop computers. We provide the Forescout Certified Professional Exam (FSCP) exam questions in a variety of formats, including a web-based practice test, desktop practice exam software, and downloadable PDF files.

Sample FSCP Exam: https://www.exam4labs.com/FSCP-practice-torrent.html

Money Back Guarantee of FSCP Exam Study Guide, Forescout FSCP Exam Material exam bootcamps is one of the oldest facilities which was previously used by the software engines but TestKing does not provide with any of such facilities as it does not facilitate the students in their exam prep, Forescout FSCP Exam Material The feedback of the customers is quite good since the pass rate is high, it helps them a lot, Forescout FSCP Exam Material Testing Engine gives a Real Time scenario experience and it just like that you take Real Exam.

I should say that it takes a few tries to get a good ensemble of media before FSCP Reliable Test Labs you really get one that gives you great results, Processors with a larger cache size can store more data for rapid retrieval and processing.
