All these three SAP C-SIGDA-2403 exam questions format are important and play a crucial role in your SAP Certified Associate - Process Data Analyst - SAP Signavio (C-SIGDA-2403) exam preparation. With the SAP C-SIGDA-2403 exam questions you will get updated and error-free SAP Certified Associate - Process Data Analyst - SAP Signavio (C-SIGDA-2403) exam questions all the time. In this way, you cannot miss a single C-SIGDA-2403 exam question without an answer.

SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q42-Q47):

NEW QUESTION # 42

How does help organizations to achieve business process excellence? Note: There are 3 correct answers to this question.

- A. By automating your business processes and increase your efficiency as a result
- **B. By navigating through their business process transformation journey**
- **C. By drilling down to understand root causes**
- **D. By providing recommendations on how to improve**
- E. By modeling your to-be processes and work on them collaboratively

Answer: B,C,D

NEW QUESTION # 43

Which Widgets can visualize process flows by backtracking the performed events? Note: There are 2 correct answers to this question.

- A. Breakdown
- **B. Process Discovery**
- C. Correlation
- **D. Variant Explorer**

Answer: B,D

Explanation:

Process Mining in SAP Signavio focuses on reconstructing and visualizing process flows based on event logs.

The documentation specifies:

* Option C (Variant Explorer):The Variant Explorer Widget visualizes different process variants by backtracking events in the event log, showing the sequence of activities and their frequencies. It helps identify common and deviant process paths.

* Option D (Process Discovery):The Process Discovery Widget automatically generates process models by backtracking performed events, providing a visual representation of the actual process flow based on event log data.

* Option A (Correlation)is incorrect as it focuses on identifying relationships between process attributes, not visualizing process flows.

NEW QUESTION # 44

What are the key aspects of the standalone connector? Note: There are 3 correct answers to this question.

- A. It uses the API to push data into a process
- B. It can be used if the source system is not covered by standard connectors
- C. It runs ETL scripts externally of SAP Signavio Process Intelligence
- D. It connects with and collects data from SAP Signavio Process Governance
- E. It connects to other process modeling platforms and collects process model information

Answer: A,B,C

Explanation:

The standalone connector in SAP Signavio Process Intelligence is used to integrate data from non-standard source systems into the ETL (Extract, Transform, Load) pipeline. The documentation specifies:

- * Option B (It runs ETL scripts externally of SAP Signavio Process Intelligence): The standalone connector executes ETL scripts outside the Process Intelligence environment, often in a custom or third-party system, to extract and prepare data for analysis.
- * Option D (It uses the API to push data into a process): The connector leverages APIs to push extracted and transformed data into the Process Intelligence environment for further analysis.
- * Option E (It can be used if the source system is not covered by standard connectors): The standalone connector is designed for flexibility, allowing integration with source systems that lack predefined connectors in SAP Signavio.
- * Option A (It connects to other process modeling platforms and collects process model information) is incorrect as the standalone connector focuses on data integration, not collecting process model metadata.

Reference: SAP Signavio Process Intelligence ETL Guide, section on Standalone Connector; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 4: Data Integration and Connectors.

NEW QUESTION # 45

What elements are part of the official BPMN 2.0 notation? Note: There are 2 correct answers to this question.

Answer:

Explanation:

A,C

NEW QUESTION # 46

Which of the following aggregation functions are available in the Value Widget? Note: There are 3 correct answers to this question.

- A. COUNT
- B. AVG
- C. ADD
- D. LIMIT
- E. SUM

Answer: A,B,E

NEW QUESTION # 47

.....
