Just install the AB-730 PDF dumps file and start AI Business Professional (AB-730) exam preparation anywhere and anytime.

Microsoft AI Business Professional Sample Questions (Q31-Q36):

NEW QUESTION # 31

You use Microsoft 365 Copilot to generate a training plan.

You need to check if there are any existing training plans in your organization that are similar to the new training plan. What should you use in Copilot?

- A. Apps
- B. Designer
- C. Pages
- D. Search

Answer: D

Explanation:

Microsoft 365 Copilot integrates with Microsoft Search to help users discover relevant content across their organization's Microsoft 365 data estate, including SharePoint, OneDrive, Teams, and Exchange. When the objective is to determine whether similar training plans already exist, the appropriate action is to perform a search across organizational content.

Using Search allows Copilot to query indexed enterprise documents and return files, plans, or related materials that the user has permission to access. This supports content reuse, avoids duplication of work, and aligns with Microsoft's guidance on leveraging organizational knowledge efficiently.

Designer is focused on visual content creation, Apps provides access to Microsoft 365 applications, and Pages is used for creating and organizing content within Copilot. None of these options are intended for discovering existing documents across the tenant. Therefore, to identify similar existing training plans within your organization, the correct tool to use in Copilot is Search.

NEW QUESTION # 32

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 33

You need to access Microsoft 365 Copilot from a web browser. Which URL should you use?

- A. <https://myaccount.microsoft.com>
- B. <https://myapps.microsoft.com>
- C. <https://copilotstudio.microsoft.com>
- D. <https://m365.cloud.microsoft>

Answer: D

Explanation:

Microsoft 365 Copilot can be accessed via its dedicated web experience for enterprise users. The correct web entry point for Microsoft 365 Copilot is <https://m365.cloud.microsoft>, which provides authenticated access to Copilot features within the Microsoft 365 environment.

This URL routes users into the Microsoft 365 ecosystem where Copilot integrates with organizational data such as SharePoint, OneDrive, Teams, and Outlook. It ensures that users are authenticated through Microsoft Entra ID and that access controls are enforced according to tenant policies.

Option B refers to Copilot Studio, which is used to build and manage custom copilots and agents rather than access the Microsoft 365 Copilot chat experience. Option C (My Apps) is a general application launcher portal. Option D is an incorrect account management URL and does not provide Copilot access.

Therefore, to access Microsoft 365 Copilot from a web browser, the correct URL is <https://m365.cloud.microsoft>.

NEW QUESTION # 34

You create an agent in the Microsoft 365 Copilot app by using a template.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 35

Select the answer that correctly completes the sentence.

Answer:

Explanation:

Explanation:

NEW QUESTION # 36

Our AB-730 preparation dumps are considered the best friend to help the candidates on their way to success for the exactness and efficiency based on our experts' unremitting endeavor. This can be testified by our claim that after studying with our AB-730 Actual Exam for 20 to 30 hours, you will be confident to take your AB-730 exam and successfully pass it.
