Microsoft Pdf PL-600 Exam Dump: Microsoft Power Platform Solution Architect - PracticeTorrent High-Efficient Latest Dumps for your preparing

With the complete collection of Microsoft practice questions and answers, our website offers you the most reliable PL-600 vce files for your exam preparation. In the PL-600 actual test we have compiled real questions and answers so that you can prepare and pas

exam in your first attempt. You can also check the demo of PL-600 Dumps PDF before you decide to buy it.

Certification Topics of Microsoft PL-600 Exam

Certification Topics of Microsoft PL-600 Exam with different percentages

- Perform solution envisioning and requirement analyses (35-40%)
- Architect a solution (40-45%)
- Implement the solution (15-20%)

Microsoft Power Platform Solution Architect Sample Questions (Q243-Q248):

NEW QUESTION # 243

You need to recommend solutions to meet the organization's communication needs.

What should you recommend? To answer, drag the appropriate technologies to the correct groups of users. Each technology may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Technologies	Group of users	Technology
Microsoft Teams	First Up employees	
Power Apps portals	Workers	
Microsoft 365 Business Voice		

Answer:

Explanation:

Technologies	Group of users	Technology
Microsoft Teams	First Up employees	Microsoft Teams
Power Apps portals	Workers	
Microsoft 365 Business Voice		Microsoft 365 Business Voice

NEW QUESTION # 244

You need to display the All Contracts view in Microsoft Teams for the sales department. In which location in Microsoft Teams should you add the information?

- A. a channel
- B. a chat
- C. the navigation pane
- D. the team

Answer: A

NEW QUESTION # 245

A company plans to use a combination of model-driven and canvas apps for data interaction and Power BI for data reporting. The company has the following requirements:

- * Share a canvas app with the auditor team
- * Ensure account balance values in Power BI are only viewable by the investment team
- * Streamline user administration and role assignment.

You need to recommend a security component to use for each requirement.

Which security components should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Security component
Share a canvas app.	<ul style="list-style-type: none"> Microsoft Entra ID security group Security roles Column-level security Manager hierarchy model Microsoft Entra ID security group
Control account balance visibility.	<ul style="list-style-type: none"> Report access Report access Column-level security Microsoft Entra ID security group
Streamline user administration and role assignment.	<ul style="list-style-type: none"> Manager hierarchy model Security roles Column-level security Manager hierarchy model Microsoft Entra ID security group

Answer:

Streamline user administration and role assignment.	<ul style="list-style-type: none"> Manager hierarchy model Security roles Column-level security Manager hierarchy model Microsoft Entra ID security group

NEW QUESTION # 246

You need to recommend a solution to meet user interface requirements.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement

Solution

Visual representation of gauge readings with minimum and maximum tolerances.

- Create and embed a Power BI radial gauge.
- Create and embed a custom visualization component.
- Create and embed a standard Power Apps donut chart.

Add visibility to the manufacturing inspection records for onsite technicians.

- Configure mobile offline synchronization.
- Add an inspection order to the work order form
- Modify the sitemap for Dynamics 365 Field Service.

Answer:

Explanation:

Requirement

Solution

Visual representation of gauge readings with minimum and maximum tolerances.

- Create and embed a Power BI radial gauge.
- Create and embed a custom visualization component.
- Create and embed a standard Power Apps donut chart.

Add visibility to the manufacturing inspection records for onsite technicians.

- Configure mobile offline synchronization.
- Add an inspection order to the work order form
- Modify the sitemap for Dynamics 365 Field Service.

Explanation:

Requirement	Solution
Visual representation of gauge readings with minimum and maximum tolerances.	<ul style="list-style-type: none">Create and embed a Power BI radial gauge.Create and embed a custom visualization component.Create and embed a standard Power Apps donut chart.
Add visibility to the manufacturing inspection records for onsite technicians.	<ul style="list-style-type: none">Configure mobile offline synchronization.Add an inspection order to the work order formModify the sitemap for Dynamics 365 Field Service.

Box 1: Create and embed a Power Bi radial gauge

A radial gauge chart has a circular arc and shows a single value that measures progress toward a goal or a Key Performance Indicator (KPI). The line (or needle) represents the goal or target value. The shading represents the progress toward that goal. The value inside the arc represents the progress value. Power BI spreads all possible values evenly along the arc, from the minimum (left-most value) to the maximum (right-most value).

In this example, you're a car retailer tracking the sales team's average sales per month. The needle represents a

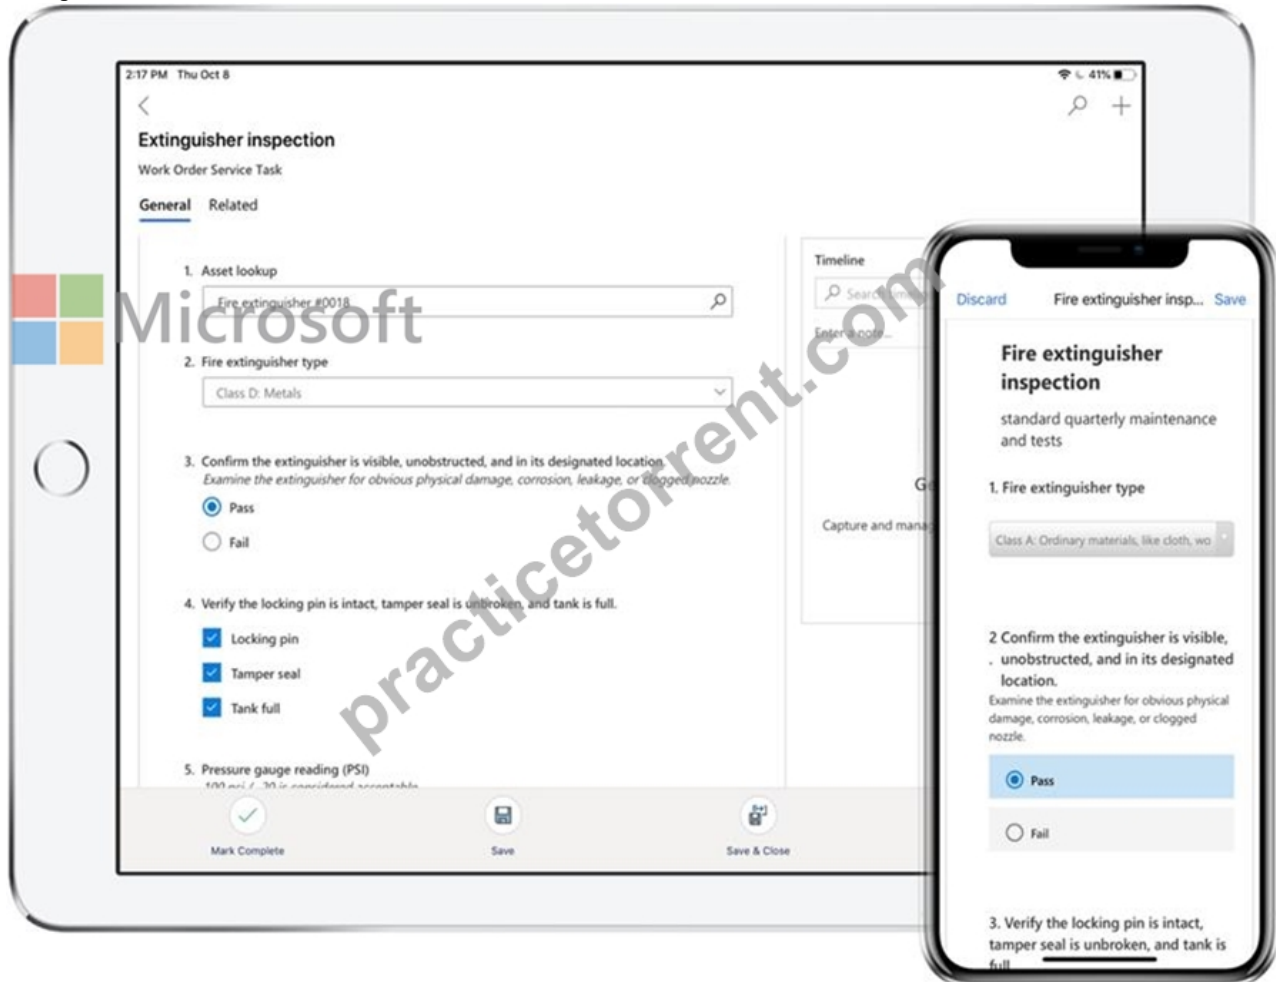

140 cars sales goal. The minimum possible average sales is 0 and the maximum is 200. The blue shading shows that the team is averaging approximately 120 sales this month.

Box 2: Add an inspection order to the work order form

You can add inspections to work orders in Dynamics 365 Field Service.

Field Service inspections are digital forms that technicians use to quickly and easily answer a list of questions as part of a work order. The list of questions can include safety protocols, pass-and-fail tests for a customer asset, an interview with a customer, or other audits and assessments performed before, during, or after a work order.

Example:

NEW QUESTION # 247

An animal welfare organization wants to track the movement of wolf packs in a region. Cameras at specific locations capture images when motion is detected within the camera sensor range. Staff upload the images manually to a shared drive and then analyze the images.

The organization wants to automate image capture and analysis. The organization has the following requirements:

Save captured images in an appropriate location.

Analyze saved images by using an image recognition process.

Display data in real-time dashboards.

You need to recommend the correct technology for the requirements.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement

Technology option

Save captured images in an appropriate location.

	▼
Business process flow	
Desktop flow	
Instant cloud flow	
Automated cloud flow	

Analyze saved images by using an image recognition process.

	▼
Instant cloud flow and AI Builder	
Automated cloud flow and AI Builder	
Desktop flow and AI Builder	

Display data in real-time dashboards.

	▼
Dynamics 365 interactive experience dashboard	
Model-driven app dashboard with native graphs	
Model-driven app dashboard with Power BI	

Answer:
