

ZDTA Certified Questions | 100% Free Excellent Exam Zscaler Digital Transformation Administrator Tutorials

BONUS!!! Download part of TestPDF ZDTA dumps for free: <https://drive.google.com/open?id=1ZiFh7SsN9CYQQVj4jcT0EKZtrvrbbQzA>

We stick to the principle "Credit management first and first class service". While purchasing our ZDTA exam questions, not only you have no need to worry about the quality of our ZDTA exam materials quality but also our service is satisfying on the ZDTA study guide. We promise buyers "Pass Guaranteed" and we only offer the latest ZDTA Training Materials. If you would like to choose safely high passing rate of ZDTA exam torrent materials, our ZDTA learning guide will be the first choice for you.

Zscaler ZDTA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.
Topic 2	<ul style="list-style-type: none">• Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.
Topic 3	<ul style="list-style-type: none">• Access Control Services: This area assesses Security Operations Specialists on implementing access control mechanisms including cloud app control, URL filtering, file type controls, bandwidth controls, and segmentation. It also covers Microsoft 365 policies, private application access strategies, and firewall configurations to protect enterprise resources.

Topic 4	<ul style="list-style-type: none"> • Cyberthreat Protection Services: This domain targets Cybersecurity Analysts and covers broad cybersecurity fundamentals and advanced threat protection capabilities. Candidates must know about malware protection, intrusion prevention systems, command and control channel detection, deception technologies, identity threat detection and response, browser isolation, and incident detection and response. Data Protection Services
Topic 5	<ul style="list-style-type: none"> • This section assesses Data Protection Officers on techniques to secure data across motion, SaaS, cloud, and endpoints using Zscaler's AI-driven data discovery and data protection technologies. It involves securing BYOD environments and understanding risk management to protect sensitive information.
Topic 6	<ul style="list-style-type: none"> • Risk Management: This domain measures skills of Risk Managers and Security Architects in using Zscaler's comprehensive risk management suite. Candidates are expected to understand risk capabilities, dashboards, asset and financial risk insights, vulnerability management, deception tactics, identity protection, and breach prediction analytics.
Topic 7	<ul style="list-style-type: none"> • Zscaler Zero Trust Automation: This part measures Automation Engineers on their ability to utilize Zscaler APIs, including the One API framework, for automating zero trust security functions and integrating with broader enterprise security and orchestration tools.
Topic 8	<ul style="list-style-type: none"> • Connectivity Services: This domain evaluates Network Security Engineers on configuring and managing connectivity essentials like device posture assessment, trusted network definitions, browser access controls, and TLS • SSL inspection deployment. It also includes applying policy frameworks focused on authentication and enforcement for internet access, private access, and digital experience.

Authorized Zscaler ZDTA: Zscaler Digital Transformation Administrator Certified Questions - High Pass-Rate TestPDF Exam ZDTA Tutorials

The print option of this format allows you to carry a hard copy with you at your leisure. We update our Zscaler Digital Transformation Administrator (ZDTA) pdf format regularly so keep calm because you will always get updated Zscaler Digital Transformation Administrator (ZDTA) questions. TestPDF offers authentic and up-to-date Zscaler Digital Transformation Administrator (ZDTA) study material that every candidate can rely on for good preparation. Our top priority is to help you pass the Zscaler Digital Transformation Administrator (ZDTA) exam on the first try.

Zscaler Digital Transformation Administrator Sample Questions (Q36-Q41):

NEW QUESTION # 36

What is the ZIA feature that ensures certain SaaS applications cannot be accessed from an unmanaged device?

- A. Identity Proxy
- **B. Tenant Restriction**
- C. Out-of-band Application Access
- D. SaaS Application Access

Answer: B

Explanation:

Tenant Restriction lets ZIA distinguish the approved corporate tenant of a SaaS application from personal or unmanaged tenants. That matters when the user is on an unmanaged device, because the administrator may allow the corporate tenant only from trusted or managed contexts. Option A (Tenant Restriction) is correct because Tenant Restriction is the SaaS-specific control that enforces corporate-tenant access boundaries.

Why the other options are incorrect:

B). Identity Proxy: Identity Proxy helps broker identity and authentication flows for SaaS access. Tenant Restriction is the control that separates corporate SaaS tenants from personal ones.

C). Out-of-band Application Access: Out-of-band CASB works through SaaS APIs to inspect or remediate content already sitting

inside cloud applications.

D). SaaS Application Access: SaaS Application Access is a broad access concept. The specific ZIA feature that blocks unmanaged-device access to a SaaS tenant is Tenant Restriction.

NEW QUESTION # 37

What is the default timer in ZDX Advanced for web probes to be sent?

- A. 30 minutes
- B. 1 minute
- C. 5 minutes
- **D. 10 minutes**

Answer: D

Explanation:

The default timer for sending web probes in ZDX Advanced is 10 minutes. This means that the system automatically sends performance and availability probes every 10 minutes to monitor the health and responsiveness of web applications or services, providing ongoing metrics for user experience evaluation.

The study guide specifies this default interval as a balance between timely data collection and resource optimization.

NEW QUESTION # 38

What ports and protocols are forwarded to the Zero Trust Exchange when Zscaler Client Connector is using Tunnel 2.0?

- **A. All TCP and UDP ports as well as ICMP traffic.**
- B. Any HTTP/HTTPS traffic as well as DNS.
- C. TCP ports 80, 443 and 8080 only.
- D. All Web ports as well as FTP and SSH.

Answer: A

Explanation:

Z-Tunnel 2.0 extends forwarding beyond web proxy traffic by securing all IP unicast traffic through DTLS/TLS tunnels to the Zero Trust Exchange. This enables Cloud Firewall and other controls to inspect all TCP and UDP ports, and ICMP where supported, rather than only browser HTTP/HTTPS flows. Option C (All TCP and UDP ports as well as ICMP traffic) is correct because Tunnel 2.0 is the all-ports-and-protocols forwarding model for Client Connector.

Why the other options are incorrect:

A). TCP ports 80, 443 and 8080 only: Ports 80, 443, and 8080 describe common web proxy traffic. Tunnel 2.0 forwards broader IP traffic, including TCP, UDP, and ICMP.

B). Any HTTP/HTTPS traffic as well as DNS: DNS resolves names to IP addresses; it is a support service, not an access protocol or scoring engine by itself.

D). All Web ports as well as FTP and SSH: RDP, SSH, and VNC are privileged remote access protocols for desktop, shell, and graphical administration.

NEW QUESTION # 39

An administrator would like users to be able to use the corporate instance of a SaaS application. Which of the following allows an administrator to make that distinction?

- **A. Cloud application control**
- B. Endpoint DLP
- C. Out-of-band CASB
- D. URL filtering with SSL inspection

Answer: A

Explanation:

Cloud application control is the feature that allows an administrator to distinguish and enforce policies specifically on the corporate instance of a SaaS application. This enables granular control, allowing users to access the approved corporate SaaS while restricting access to personal or unauthorized instances. Out-of-band CASB generally provides visibility but does not enforce real-time

distinctions in this context. URL filtering with SSL inspection and Endpoint DLP serve different purposes, such as content inspection and endpoint data protection, respectively.

The study guide explains that Cloud Application Control policies identify and enforce controls based on SaaS application instances, providing precise policy enforcement aligned with corporate SaaS usage requirements.

NEW QUESTION # 40

Which types of Botnet Protection are supplied by Advanced Threat Protection?

- A. Connections to known C&C servers, Command traffic (sending / receiving), Unknown C&C using AI /ML
- B. Malicious file downloads, Command traffic (sending / receiving), Data exfiltration
- C. Vulnerabilities in web server applications, Unknown C&C using AI/ML, Vulnerable ActiveX controls
- D. Connections to known C&C servers, Detection of phishing sites, Access to spam sites

Answer: A

Explanation:

Advanced Threat Protection provides botnet protection by monitoring connections to known Command and Control (C&C) servers, inspecting command traffic (sending and receiving), and detecting unknown C&C servers using AI/ML techniques. This comprehensive approach helps in identifying and blocking botnet activities effectively.

The study guide details these mechanisms as key elements of the botnet protection feature set in ATP.

NEW QUESTION # 41

.....

In order to serve you better, we have a complete system for you if you choose us. We have free demo for ZDTA training materials for you to have a try. If you have decided to buy ZDTA exam dumps of us, just add them to your cart, and pay for it, our system will send the downloading link and password to you within ten minutes, and if you don't receive, just contact us, we will solve this problem for you as quickly as possible. For ZDTA Training Materials, we also have after-service, if you have questions about the exam dumps, you can contact us by email.
