

Reliable Microsoft SC-400 Test Sample & Examcollection SC-400 Questions Answers

The screenshot shows the Microsoft Learn page for the SC-400 exam. At the top, there's a navigation bar with 'Microsoft | Docs | Documentation | Learn | Q&A | Code Samples'. Below it, a secondary bar has 'Learn | Products | Roles | Learn TV | Certifications | FAQ & Help'. The main header reads 'Exam SC-400: Microsoft Information Protection Administrator'. A blue shield icon with 'EXAM' is to the left. A red notice states: 'The content of this exam was updated on July 23, 2021. Please download the skills measured document below to see what changed.' The body text describes the role: 'The Information Protection Administrator plans and implements controls that meet organizational compliance needs. This person is responsible for translating requirements and compliance controls into technical implementation. They assist organizational control owners to become and stay compliant. They work with information technology (IT) personnel, business application owners, human resources, and legal stakeholders to implement technology that supports policies and controls necessary to sufficiently address regulatory requirements for their organization. They also work with the compliance and security leadership such as a Chief Compliance Officer and Security Officer to evaluate the full breadth of associated enterprise risk and partner to develop those policies. This person defines applicable requirements and tests IT processes and operations against those policies and controls. They are responsible for creating policies and rules for content classification, data loss prevention, governance, and protection. Part of the requirements for: Microsoft Certified Information Protection Administrator Associate. Related exams: none. Important: See details. Go to Certification Dashboard if'. Below this is a 'Schedule exam' section with a table. The table has one row for 'Exam SC-400: Microsoft Information Protection Administrator'. It includes a dropdown for 'United States', a price of '\$165 USD*', and a note 'Price based on the country in which the exam is proctored.' It also lists languages: 'English, Chinese (Simplified), Japanese, Korean' and retirement date: 'none'. A description of the exam is provided: 'This exam measures your ability to accomplish the following technical tasks: implement information protection; implement data loss prevention; and implement information governance.'

Microsoft Information Protection Administrator Sample Questions (Q11-Q16):

NEW QUESTION # 11

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 tenant and 500 computers that run Windows 10. The computers are onboarded to the Microsoft 365 compliance center.

You discover that a third-party application named Tailspin_scanner.exe accessed protected sensitive information on multiple computers. Tailspin_scanner.exe is installed locally on the computers.

You need to block Tailspin_scanner.exe from accessing sensitive documents without preventing the application from accessing other documents.

Solution: From the Microsoft 365 Endpoint data loss prevention (Endpoint DLP) settings, you add the application to the unallowed apps list.

Does this meet the goal?

- A. No
- B. Yes

Answer: B

Explanation:

Unallowed apps is a list of applications that you create which will not be allowed to access a DLP protected file.
