

100% Pass Quiz 2026 Perfect Digital-Forensics-in-Cybersecurity: Digital Forensics in Cybersecurity (D431/C840) Course Exam Exam Price

C840: Digital Forensics in Cybersecurity Pre-Assessment 100% Accurate

The chief information officer of an accounting firm believes sensitive data is being exposed on the local network.

Which tool should the IT staff use to gather digital evidence about this security vulnerability? - ANSWER Sniffer

A police detective investigating a threat traces the source to a house. The couple at the house shows the detective the only computer the family owns, which is in their son's bedroom. The couple states that their son is presently in class at a local middle school.

How should the detective legally gain access to the computer? - ANSWER Obtain consent to search from the parents

How should a forensic scientist obtain the network configuration from a Windows PC before seizing it from a crime scene? - ANSWER By using the ipconfig command from a command prompt on the computer

The human resources manager of a small accounting firm believes he may have been a victim of a phishing scam. The manager clicked on a link in an email message that asked him to verify the logon credentials for the firm's online bank account.

Which digital evidence should a forensic investigator collect to investigate this incident? - ANSWER Browser cache

After a company's single-purpose, dedicated messaging server is hacked by a cybercriminal, a forensics expert is hired to investigate the crime and collect evidence.

Which digital evidence should be collected? - ANSWER Firewall logs

Thomas received an email stating that he needed to follow a link and verify his bank account information to ensure it was secure. Shortly after following the instructions, Thomas noticed money was missing from his account.

Which digital evidence should be considered to determine how Thomas' account information was compromised? - ANSWER Email messages

The chief executive officer (CEO) of a small computer company has identified a potential hacking attack from an outside competitor.

Which type of evidence should a forensics investigator use to identify the source of the hack? - ANSWER Network transaction logs

P.S. Free 2025 WGU Digital-Forensics-in-Cybersecurity dumps are available on Google Drive shared by ExamcollectionPass: https://drive.google.com/open?id=1Hc_FBWOdDm-IM7w8_oFDZhmABcpRm7AG

We guarantee that this study material will prove enough to prepare successfully for the Digital-Forensics-in-Cybersecurity examination. If you prepare with our Digital Forensics in Cybersecurity (D431/C840) Course Exam Digital-Forensics-in-Cybersecurity actual dumps, we ensure that you will become capable to crack the WGU Digital-Forensics-in-Cybersecurity test within a few days. This has helped hundreds of WGU Digital-Forensics-in-Cybersecurity Exam candidates. Applicants who have used our WGU Digital-Forensics-in-Cybersecurity valid dumps are now certified. If you also want to pass the test on your first sitting, use our WGU Digital-Forensics-in-Cybersecurity updated dumps.

For customers who are bearing pressure of work or suffering from career crisis, Digital-Forensics-in-Cybersecurity learn tool of inferior quality will be detrimental to their life, render stagnancy or even cause loss of salary. So choosing appropriate Digital-Forensics-in-Cybersecurity test guide is important for you to pass the exam. One thing we are sure, that is our Digital-Forensics-in-Cybersecurity Certification material is reliable. With our high-accuracy Digital-Forensics-in-Cybersecurity test guide, our candidates can become sophisticated with the exam content. You only need to spend 20-30 hours practicing with our Digital-Forensics-in-Cybersecurity learn tool, passing the exam would be a piece of cake.

Get WGU Digital-Forensics-in-Cybersecurity Practice Test To Gain Brilliant Result [2026]

All formats of ExamcollectionPass's products are immediately usable after purchase. We also offer up to 365 days of free updates so you can prepare as per the WGU Digital-Forensics-in-Cybersecurity Latest Exam content. ExamcollectionPass offers a free demo version of the WGU Certification Exams so that you can assess the validity of the product before purchasing it.

WGU Digital Forensics in Cybersecurity (D431/C840) Course Exam Sample Questions (Q73-Q78):

NEW QUESTION # 73

An employee sends an email message to a fellow employee. The message is sent through the company's messaging server. Which protocol is used to send the email message?

- A. SNMP
- **B. SMTP**
- C. IMAP
- D. POP3

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

SMTP (Simple Mail Transfer Protocol) is the protocol used to send email messages from a client to a mail server or between mail servers. It handles the transmission of outgoing mail. IMAP and POP3 are protocols used for retrieving email, not sending it. SNMP is used for network management.

* IMAP and POP3 are for receiving emails.

* SNMP is unrelated to email delivery.

This is documented in RFC 5321 and supported by all standard email system operations, including forensic analyses.

NEW QUESTION # 74

Which law requires both parties to consent to the recording of a conversation?

- A. Health Insurance Portability and Accountability Act (HIPAA)
- **B. Electronic Communications Privacy Act (ECPA)**
- C. Wiretap Act
- D. Stored Communications Act

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The Electronic Communications Privacy Act (ECPA) regulates interception and recording of electronic communications and generally requires the consent of both parties involved in a conversation for legal recordings.

* This consent requirement protects privacy rights during investigations.

* Non-compliance can lead to evidence being inadmissible or legal penalties.

Reference:ECPA provisions are detailed in legal frameworks governing digital privacy and forensics.

NEW QUESTION # 75

A company has identified that a hacker has modified files on one of the company's computers. The IT department has collected the storage media from the hacked computer.

Which evidence should be obtained from the storage media to identify which files were modified?

- A. Operating system version
- **B. File timestamps**

- C. Private IP addresses
- D. Public IP addresses

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

File timestamps, including creation time, last modified time, and last accessed time, are fundamental metadata attributes stored with each file on a file system. When files are modified, these timestamps usually update, providing direct evidence about when changes occurred. Examining file timestamps helps forensic investigators identify which files were altered and estimate the time of unauthorized activity.

* IP addresses (private or public) are network-related evidence, not stored on the storage media's files directly.

* Operating system version is system information but does not help identify specific file modifications.

* Analysis of file timestamps is a standard forensic technique endorsed by NIST SP 800-86 (Guide to Integrating Forensic Techniques into Incident Response) for determining file activity and changes on digital media.

NEW QUESTION # 76

A computer involved in a crime is infected with malware. The computer is on and connected to the company's network. The forensic investigator arrives at the scene.

Which action should be the investigator's first step?

- A. Copy files to external media
- B. Turn off the computer
- C. Run malware removal tools
- **D. Unplug the computer's Ethernet cable**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Disconnecting the computer from the network by unplugging the Ethernet cable prevents further spread of malware and stops external communication that could lead to data exfiltration. This containment step is vital before further evidence collection.

* Maintaining system power preserves volatile memory.

* Network disconnection is recommended by incident response guidelines.

Reference: NIST SP 800-61 recommends isolating affected systems from networks early in incident response.

NEW QUESTION # 77

While collecting digital evidence from a running computer involved in a cybercrime, the forensic investigator makes a list of items that need to be collected.

Which piece of digital evidence should be collected first?

- A. Temporary Internet files
- B. Chat room logs
- C. Recently accessed files
- **D. Security logs**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

When collecting evidence from a running system, volatile and critical evidence such as security logs should be collected first as they are most susceptible to being overwritten or lost. Security logs may contain valuable information on unauthorized access or malicious activity.

* Chat room logs, recently accessed files, and temporary internet files are important but often less volatile or can be recovered from disk later.

* NIST SP 800-86 and SANS Incident Response Guidelines prioritize the collection of volatile logs and memory contents first.

This approach helps ensure preservation of time-sensitive data critical for forensic analysis.

NEW QUESTION # 78

.....

All kinds of exams are changing with dynamic society because the requirements are changing all the time. To keep up with the newest regulations of the Digital Forensics in Cybersecurity (D431/C840) Course Exam exam, our experts keep their eyes focusing on it. Expert team not only provides the high quality for the Digital-Forensics-in-Cybersecurity Quiz guide consulting, also help users solve problems at the same time, leak fill a vacancy, and finally to deepen the user's impression, to solve the problem of Digital-Forensics-in-Cybersecurity test material and no longer make the same mistake.

New Digital-Forensics-in-Cybersecurity Exam Camp: <https://www.examcollectionpass.com/WGU/Digital-Forensics-in-Cybersecurity-practice-exam-dumps.html>

Can i have a try before choosing the Digital-Forensics-in-Cybersecurity exam torrent, WGU Digital-Forensics-in-Cybersecurity Exam Price They apply to exam candidates of different level of computer industry, All of IT staff knows it is very difficult to get WGU Digital-Forensics-in-Cybersecurity certification, while taking certification exam and obtaining it are a way to upgrade your ability and prove self-worth, so it is necessary to pass the Digital-Forensics-in-Cybersecurity exam certification, You will never find small mistakes such as spelling mistakes and typographical errors in our Digital-Forensics-in-Cybersecurity learning guide.

By combining different function calls, complex expressions can be evaluated, Inserting Rows, Columns, or Cells, Can i have a try before choosing the Digital-Forensics-in-Cybersecurity Exam Torrent.

They apply to exam candidates of different level of computer industry, All of IT staff knows it is very difficult to get WGU Digital-Forensics-in-Cybersecurity certification, while taking certification exam and obtaining it are a way to upgrade your ability and prove self-worth, so it is necessary to pass the Digital-Forensics-in-Cybersecurity exam certification.

Digital-Forensics-in-Cybersecurity Exam Price 100% Pass | High Pass-Rate New Digital Forensics in Cybersecurity (D431/C840) Course Exam Exam Camp Pass for sure

You will never find small mistakes such as spelling mistakes and typographical errors in our Digital-Forensics-in-Cybersecurity learning guide, At present, thousands of candidates have successfully passed the Digital-Forensics-in-Cybersecurity exam with less time input.
