NEW QUESTION # 112

Your client has operations in the west coast of the US. If the customer is in the western half of the US, then they would like to ship the product from their warehouses. If it's in the eastern half of the US, then they want to drop ship it from a supplier. How would you recommend they set the assignment up?

- A. Set up by each customer for the customers who should get product from each warehouse.
- B. Set up an item-region assignment for the west coast warehouse and a region level assignment for the drop ship.
- C. Set up a region for the west coast warehouse and an item-region level assignment for the drop ship.
- D. Set up two region level assignments, one for the west coast and the other for the east coast.
- E. Set up an item-organization assignment for the west coast warehouse and an item-organization level assignment for the drop ship.

Answer: C

NEW QUESTION # 115

As Materials Manager, you are always attentive to Finance's concern about high inventory levels. To that end, you arranged to off-load procurement and storage of several expensive components to become the responsibility of your contract manufacturer. You modified the bills of material accordingly. You thought this would satisfy Finance, but they complained to you that even though production levels have remained flat, they are not seeing a reduction in inventory.

What is the problem?

- A. The "supplier" box on the Organization tab in Maintain Supply Network Model has not been deselected.

- B. The "supplier" box in Manage Plant Parameters has not been deselected.
- **C. The supply type has not been changed to "supplier" for the affected components in the Item Structures of the contracted items.**
- D. The "supplier" box for the "Supply Types to Include" plan option of Manage Plans has not been deselected.

Answer: C

Explanation:

When transitioning procurement responsibility to a contract manufacturer, it is essential to adjust the supply type of the contracted items to "supplier" within the item structures. This change ensures that the inventory associated with these components reflects their new procurement source, helping reduce your reported inventory levels. Without this adjustment, Oracle Planning may still consider these items as being managed internally, thus failing to reflect the reduction in inventory as anticipated MY ORACLE SUPPORT

NEW QUESTION # 116

Which release recommendation parameter can you utilize to govern the behavior of the auto-release process?

- A. Compression Days Tolerance for Automatic Release
- B. Release Only by User
- **C. Quick Release Time Fence**
- D. Auto-Release Interval in Days
- E. Auto-Release Planned Order Time Fence

Answer: C
