

# Exam JN0-351 braindumps

P.S. Free & New JN0-351 dumps are available on Google Drive shared by DumpExam: [https://drive.google.com/open?id=1\\_r4-qEsSA5YnX5AoTUThr6pScRn6dJ1](https://drive.google.com/open?id=1_r4-qEsSA5YnX5AoTUThr6pScRn6dJ1)

The DumpExam is one of the top-rated and renowned platforms that has been offering real and valid Enterprise Routing and Switching, Specialist (JNCIS-ENT) (JN0-351) exam practice test questions for many years. During this long time period countless Enterprise Routing and Switching, Specialist (JNCIS-ENT) (JN0-351) exam candidates have passed their dream JN0-351 certification and they are now certified Juniper professionals and pursuing a rewarding career in the market.

## Juniper JN0-351 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Tunnels: The fundamentals of IP tunneling are emphasized, highlighting their requirements and functionalities. Mastery in configuring, monitoring, and troubleshooting tunnels equips professionals to meet the demands of the JN0-351 exam.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Layer 2 Switching or VLANs: This topic deepens the understanding of Layer 2 switching operations within the Junos OS, including VLAN concepts and benefits. Experienced networking professionals gain insights into configuration, monitoring, and troubleshooting techniques essential for network segmentation and efficiency.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Spanning Tree: Networking professionals explore the principles and advantages of the Spanning Tree Protocol (STP) to ensure loop-free topologies in Layer 2 networks.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• IS-IS: Aspiring Juniper networking professionals enhance their understanding of IS-IS routing protocols. This topic equips candidates with the knowledge to configure and monitor IS-IS systems, addressing specific exam challenges and practical applications.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>• OSPF: The concepts and operational details of OSPF are explored, providing tools for routing efficiency. Configuration and troubleshooting mastery ensure readiness for both the exam and complex enterprise environments.</li></ul>
Topic 6	<ul style="list-style-type: none"><li>• BGP: This topic focuses on the operational and conceptual elements of BGP, a cornerstone in enterprise networks.</li></ul>
Topic 7	<ul style="list-style-type: none"><li>• Layer 2 Security: This topic introduces Layer 2 protection mechanisms and firewall filters to fortify network security. Practical skills in configuring, monitoring, and troubleshooting these features prepare candidates to address exam objectives and real-world challenges effectively.</li></ul>

Topic 8	<ul style="list-style-type: none"> <li>• Protocol Independent Routing: An essential domain for understanding routing components outside protocol dependencies, this topic enhances expertise in configuring, monitoring, and troubleshooting critical elements.</li> </ul>
---------	--

## Juniper - Useful JN0-351 - Enterprise Routing and Switching, Specialist (JNCIS-ENT) Online Exam

It can be difficult to prepare for the Enterprise Routing and Switching, Specialist (JNCIS-ENT) (JN0-351) certification test when you're already busy with daily tasks. But, you can successfully prepare for the examination despite your busy schedule if you choose updated and real Juniper JN0-351 exam questions. We believe that success in the test depends on studying with Enterprise Routing and Switching, Specialist (JNCIS-ENT) (JN0-351) Dumps questions. We have hired a team of professionals who has years of experience in helping test applicants acquire essential knowledge by providing them with Juniper JN0-351 actual exam questions.

### Juniper Enterprise Routing and Switching, Specialist (JNCIS-ENT) Sample Questions (Q128-Q133):

#### NEW QUESTION # 128

Which two statements about redundant trunk groups on EX Series switches are correct? (Choose two.)

- A. Redundant trunk groups use spanning tree to provide loop-free redundant uplinks.
- B. Layer 2 control traffic is permitted on the secondary link.
- C. Redundant trunk groups load balance traffic across two designated uplink interfaces.
- D. If the active link fails, then the secondary link automatically takes over.

**Answer: B,D**

Explanation:

Redundant trunk groups are designed to provide link redundancy. If the primary link fails, the secondary link will automatically take over to ensure continued connectivity.

In redundant trunk groups, while regular data traffic is sent over the primary link, Layer 2 control traffic (such as STP, LACP, etc.) is allowed on the secondary link to maintain network stability and protocol operations.

#### NEW QUESTION # 129

Referring to the exhibit, what will be the IS-IS adjacency result of the configurations?

```
[edit protocols isis]
user@router-1# show
level 2 disable;
level 1 wide-metrics-only;
interface all;

[edit protocols isis]
user@router-2# show
level 1 disable;
interface all;
```

- A. A level 2 IS-IS adjacency will form.
- B. A level 1 IS-IS adjacency will form.
- C. No IS-IS adjacencies will form.
- D. A level 1 and level 2 IS-IS adjacency will form.

**Answer: C**

#### NEW QUESTION # 130

An EBGP session sources its TCP connection from which IP address?

- A. The IP address of the primary address assigned to the loopback interface.
- B. The IP address of the interface that connects the two BGP speakers.
- C. The IP address of the preferred address assigned to the loopback interface.
- D. The IP address assigned as the router ID.

**Answer: B**

#### NEW QUESTION # 131

Which two mechanisms are part of building and maintaining a Layer 2 bridge table? (Choose two.)

- A. listening
- B. learning
- C. flooding
- D. blocking

**Answer: B,C**

Explanation:

Transparent bridging uses five mechanisms to create and maintain Ethernet switching tables on the switch:

- Learning
- Forwarding
- Flooding
- Filtering
- Aging

#### NEW QUESTION # 132

Which three protocols support BFD? (Choose three.)

- A. BGP
- B. OSPF
- C. RSTP
- D. FTP
- E. LACP

**Answer: A,B,E**

Explanation:

<https://www.juniper.net/documentation/us/en/software/junos/high-availability/topics/topic-map/bfd- configuring.html>

### NEW QUESTION # 133

• • • • •

In this way, you can clear all your doubts and understand each topic well. Juniper Dumps PDF are customizable and simulate the real Enterprise Routing and Switching, Specialist (JNCIS-ENT) (JN0-351) test scenario. The desktop-based JN0-351 Practice Exam software works on Windows. The web-based JN0-351 practice exam is compatible with all operating systems and browsers.
