That helping you pass the ISO-45001-Lead-Auditor Exam with our ISO-45001-Lead-Auditor latest question successfully has been given priority to our agenda.

PECB Certified ISO 45001 Lead Auditor Exam Sample Questions (Q11-Q16):

NEW QUESTION # 11

You are conducting an ISO 45001 audit of Widgets Inc., an organization manufacturing machine parts for the aerospace industry. You find a short entry in the incident report file connecting a machine operator who suffered minor injury to his face four weeks ago when a small ribbon of metal hit him while operating his machine.

The subsequent investigation found that he was not wearing the required protective Personal Protective Equipment (PPE). He was subject to disciplinary action and warned that he would lose his job if it happened again.

Select two option of points of investigation which you would consider in order to determine conformity or nonconformity with clause 10.2 of ISO 45001.

- A. Determine whether the Health and Safety Authority was notified of the incident

- B. find out whether the operator was sent to the hospital.
- C. Find out when the operator's machine was last subject to a maintenance programme.
- D. **Check whether any corrective actions were taken to eliminate or reduce the risk of recurrence of the Incident.**
- E. **Establish whether the Incident Investigation determined the root cause of the Incident**
- F. Interview the operator to check if the was wearing the correct PPE.

Answer: D,E

Explanation:

Clause 10.2 of ISO 45001 requires organizations to investigate incidents, determine root causes, and implement corrective actions to prevent recurrence.

Analysis of Options:

A . Check whether corrective actions were taken.

This directly relates to the requirement to implement corrective actions to address the identified risks and hazards. Failure to do so would indicate nonconformity.

B . Determine whether the Health and Safety Authority was notified.

Notification is a legal requirement in certain jurisdictions, but it is not explicitly required under ISO 45001 unless the legal context demands it.

C . Establish whether the root cause was determined.

Root cause analysis is fundamental for effective corrective action. Without this, corrective measures may not address the underlying problem

D . Find out when the operator's machine was last subject to maintenance.

While maintenance is important, it does not directly address the incident's nonconformity.

E . Find out whether the operator was sent to the hospital.

Sending the operator to the hospital is a reactive step and not relevant to compliance with Clause 10.2.

F . Interview the operator about PPE usage.

This is relevant but insufficient for determining compliance with Clause 10.2.

ISO Reference:

Clause 10.2: Investigation of incidents, determination of causes, and implementation of corrective actions.

Clause 8.1.2: Hierarchy of controls and risk reduction.

NEW QUESTION # 12

The following options show key actions involved in a third-party audit. They are not in order. Order the stages in the table to show the sequence in which the actions should take place.

To complete the sequence click on the blank section you want to complete so it is highlighted in red and then click on the applicable stage from the options below. Alternatively, drag and drop the options to the appropriate blank section.

These stages take place after a certification application.

NEW QUESTION # 13

You are an audit team leader conducting an ISO 45001 surveillance audit of a nautical college that provides course for those working in the maritime sector. The College Principle Is absent, and you are interviewing the Deputy (DP) DP: 1 apologise for the absence of the College Principle. He has called in sick today and we are really short of staff.

You: I see, it really should not affect the OHSMS so the audit can progress as normal.

DP: The College principle set up the system. I am afraid I am not as familiar with it as he is.

You: OK, let's start with the OH and S policy. What are the main issues for the OHSMS here?

DP: Give me a minute. I need to look at the OH and S Policy on the noticeboard in his office.

As the audit progresses, It is clear that the Deputy College Principle has a very low knowledge of the OHSMS. He continually has to search the answers to your questions or asks staff members about their processes.

Choose one of the following options that best describes the basis for the nonconformity.

- A. **As a member of the management team, the Deputy College Principal Is not aware of the OHSMS policy.**
- B. The OH and S Policy only exists -s -i document in the Collegeprinciple office.
- C. OHSS improvement is not possible due to the lack of awareness of the OHSMS.
- D. The Deputy College Principal is not competent to manage the CM ISMS.

Answer: A

Explanation:

Comprehensive Detailed Explanation along with All ISO 45001 Audit Reference Clause 5.1 of ISO 45001:2018 requires top management to demonstrate leadership and commitment to the OH&S management system. This includes awareness of the OH&S policy and its objectives.

Analysis of Options:

A . As a member of the management team, the Deputy College Principal is not aware of the OHSMS policy:

Correct. A lack of awareness of the policy reflects poor leadership commitment, which violates Clause 5.1.

B . OH&S improvement is not possible due to the lack of awareness of the OHSMS:

Incorrect. While improvement may be hindered, this is not the main issue in this scenario.

C . The Deputy College Principal is not competent to manage the OHSMS:

Incorrect. The Deputy's competence to manage the OHSMS is not in question; the issue is their lack of awareness of key elements.

D . The OH&S policy only exists as a document in the College Principal's office:

Incorrect. The policy may be accessible but not effectively communicated or understood by management.

ISO Reference:

Clause 5.1: Leadership and commitment.

Clause 5.2: OH&S policy.

NEW QUESTION # 14

Which two of the following are 'criteria' in relation to a first-party audit?

- A. Opportunities for improvement
- B. Members of the audit team
- C. Emergency plans
- D. Management policy
- E. Workers complaints"
- F. Duration of the audit

Answer: C,D**NEW QUESTION # 15**

Consider the emergency preparedness and response process outlined in ISO 45001. Match each process activity to the correct stage of the PDCA cycle.

To complete the table click on the blank section you want to complete so it is highlighted in red and then click on the applicable text from the options the appropriate process."
