EC-COUNCIL 312-38 Valid Practice Materials, 312-38 Study Center

Hundreds of IT aspirants have cracked the EC-Council Certified Network Defender CND 312-38 examination by just preparing with our real test questions. If you also want to become a EC-COUNCIL 312-38 certified without any anxiety, download Network Security Specialist 312-38 updated test questions and start preparing today. These real 312-38 Dumps come in desktop practice exam software, web-based practice test, and EC-COUNCIL 312-38 PDF document. Below are specifications of these three

formats.

EC-COUNCIL EC-Council Certified Network Defender CND Sample Questions (Q358-Q363):

NEW QUESTION # 358

Which of the following provides enhanced password protection, secured IoT connections, and encompasses stronger encryption techniques?

- A. WPA2
- **B. WPA3**
- C. WPA
- D. WEP

Answer: B

Explanation:

WPA3 is the latest wireless encryption standard that provides enhanced password protection, secured IoT connections, and encompasses stronger encryption techniques. It is designed to replace WPA2 and offers improved security features. WPA3 provides robust protections even when users choose weak passwords, and simplifies the process of securing access to Wi-Fi networks. It also offers individualized data encryption to protect data on public networks and a more secure handshake process that prevents offline dictionary attacks. For IoT devices, WPA3 supports Easy Connect, which simplifies the process of connecting devices without a display.

NEW QUESTION # 359

John has implemented _____ in the network to restrict the limit of public IP addresses in his organization and to enhance the firewall filtering technique.

- A. DMZ
- B. VPN
- C. Proxies
- **D. NAT**

Answer: D

NEW QUESTION # 360

A VPN Concentrator acts as a bidirectional tunnel endpoint among host machines. What are the other function(s) of the device? (Select all that apply)

- A. Enables input/output (I/O) operations
- B. Provides access memory, achieving high efficiency
- **C. Assigns user addresses**
- **D. Manages security keys**

Answer: C,D

Explanation:

A VPN Concentrator is a network device designed to manage VPN traffic for multiple users. It acts as a bidirectional tunnel endpoint among host machines and has several key functions. Firstly, it assigns user addresses to enable individual identification within the network. Secondly, it manages security keys which are essential for the encryption and decryption processes, ensuring secure data transmission. The concentrator is responsible for authenticating remote users and granting access to the network after verifying their credentials. It also handles the heavy lifting of encryption and decryption, maintaining the integrity and confidentiality of data traffic¹².

References:

- * The Palo Alto Networks article on "What Is a VPN Concentrator?" provides a detailed explanation of how a VPN Concentrator works, including its role in managing VPN connections and ensuring secure remote access¹.
- * Privacy Affairs' article on "What is a VPN Concentrator and How does it Work?" discusses the functions of a VPN Concentrator, including user authentication and management of cryptographic keys².

NEW QUESTION # 361

Which of the following is a free security-auditing tool for Linux?

- A. SATAN
- B. HPing
- C. Nessus
- D. SAINT

Answer: C

Explanation:

Explanation

NEW QUESTION # 362
