Training 1Z0-1163-1 For Exam | Valid 1Z0-1163-1 Exam Format

Our company is a professional certificate exam materials provider. We have occupied in the field for years, therefore we have rich experiences. 1Z0-1163-1 learning materials of us are high-quality, and we receive many good feedbacks from our customers, and they think highly of the 1Z0-1163-1 Exam Dumps. In order to serve you better, we have online and offline chat service, you can ask any questions about the 1Z0-1163-1 learning materials. Besides, we provide you with free update for one year after purchasing.

The price for 1Z0-1163-1 exam torrent are reasonable, and no matter you are a student at school or an employee in the enterprise, you can afford the expense. In addition, 1Z0-1163-1 exam dumps are reviewed by skilled professionals, therefore the quality can be guaranteed. We offer you free demo to have a try before buying 1Z0-1163-1 Exam Torrent from us, so that you can know what the complete version is like. Free update for one year is available, and the update version will be sent to your email address automatically.

Valid 1Z0-1163-1 Exam Format | 1Z0-1163-1 Test Duration

The price for the 1Z0-1163-1 certification test's registration is somewhere around $100 to $1000. Thus, you would never risk your precious time and money. LatestCram offers a demo version of the Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 (1Z0-1163-1) practice material which is totally free. You can try a free demo to make yourself more confident about the authenticity of the Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 (1Z0-1163-1) product. After buying the 1Z0-1163-1 material, you can instantly use it.

Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1

Sample Questions (Q47-Q52):

NEW QUESTION # 47
What role does the Inventory Management function play in Oracle Fusion Cloud SCM?

- A. It focuses on reducing supplier costs instead of stock levels.
- B. It manages only supplier shipments, not warehouse stock.
- C. It ensures optimal inventory levels by tracking stock movement and availability.

Answer: C

Explanation:
Inventory Management in Oracle Fusion Cloud SCM ensures optimal inventory levels by tracking stock movement, availability, and replenishment needs across warehouses and supply chains. It monitors quantities on hand, in transit, and on order, using real-time data to prevent overstocking or stockouts. For instance, if a product's stock drops below a reorder point, the system triggers a replenishment alert. Option A is incorrect-reducing supplier costs is a procurement goal, not Inventory Management's focus, which is stock optimization. Option B is wrong as it manages warehouse stock, not just supplier shipments. This function balances inventory costs with service levels, supporting efficient operations and customer satisfaction by ensuring products are available when needed without tying up excess capital.

NEW QUESTION # 48
Which key metric measures the effectiveness of the Demand to Management OMBP in Oracle Fusion Cloud SCM?

- A. Forecast Accuracy, evaluates the precision of demand predictions against actual market demand.
- B. Supplier Lead Time, which measures supplier response efficiency.
- C. Inventory Turnover, which tracks the speed of inventory movement.

Answer: A

Explanation:
For the Demand to Management OMBP, Forecast Accuracy is the primary metric, as it evaluates how precisely demand predictions match actual market demand, a foundational step in effective supply chain planning. Calculated as a percentage (e.g., actual demand of 800 units versus a forecast of 850 yields 94% accuracy), it directly reflects the OMBP's ability to drive downstream processes like procurement and production. Option B (Supplier Lead Time) measures supplier performance, which affects supply execution but not demand forecasting accuracy. Option C (Inventory Turnover) tracks inventory movement efficiency, an outcome influenced by forecast accuracy, not a direct measure of the OMBP itself. Accurate forecasts prevent overproduction or shortages-for example, overestimating demand by 20% could lead to $50,000 in excess inventory costs, underscoring the metric's importance.

NEW QUESTION # 49
Which process in Oracle Fusion Cloud SCM ensures real-time communication between suppliers and buyers?

- A. Cost Accounting.
- B. Manufacturing Execution.
- C. Supply Chain Collaboration.
- D. Supplier Qualification.

Answer: C

Explanation:
Supply Chain Collaboration (B) in Oracle Fusion Cloud SCM is designed to facilitate real-time communication between suppliers and buyers through tools like the Supplier Portal and collaboration workspaces. This process enables sharing of critical information-such as order statuses, inventory levels, and delivery schedules-instantly, fostering transparency and responsiveness. For example, a buyer can notify a supplier of an urgent order change, and the supplier can confirm availability within minutes, reducing delays. Option A (Supplier Qualification) focuses on evaluating supplier eligibility, not ongoing communication. Option C (Cost Accounting) tracks financial data, unrelated to supplier-buyer interaction. Option D (Manufacturing Execution) manages shop floor activities, not external collaboration. Supply Chain Collaboration ensures a synchronized supply chain, mitigating risks like stockouts or misaligned expectations by keeping all parties informed in real time.

NEW QUESTION # 50

What is the role of automation in creating POs from contract fulfillment in Oracle Fusion Cloud Procurement?

- A. It facilitates the approval process by routing POs to the appropriate approvers, based on invoice rules and limits.
- B. It ensures that POs are created accurately based on contract terms, reducing manual errors, and improving efficiency.
- C. It enhances supplier qualification by providing visibility into supplier responses.

Answer: B

Explanation:

In Oracle Fusion Cloud Procurement, automation plays a critical role in creating purchase orders (POs) from contract fulfillment by ensuring that POs are generated directly from agreed contract terms with high accuracy and minimal manual intervention. This process leverages predefined contract data-such as item details, pricing, quantities, and delivery schedules-to populate POs automatically, reducing errors like incorrect pricing or quantities that often occur in manual entry. For instance, if a contract specifies 100 units of a product at $10 each, automation ensures the PO reflects this exactly, bypassing the need for manual rekeying. Option A is incorrect because routing POs for approval is a subsequent step, not the primary role of automation in PO creation. Option C is unrelated, as supplier qualification pertains to evaluating suppliers, not PO generation. This automation improves efficiency by speeding up the procurement cycle, ensures compliance with contract terms, and frees procurement staff to focus on strategic tasks rather than clerical work. It also integrates with supplier collaboration tools to confirm details, further enhancing accuracy.

NEW QUESTION # 51

What is a key advantage of the Production Order to Cost Update OMBP in Oracle Fusion Cloud SCM?

- A. It enhances customer relationship management, leading to effective cost analysis.
- B. It automates the production process, requiring minimal human supervision.
- C. It provides real-time cost updates, ensuring immediate financial benefits.
- D. It provides accurate cost calculations, leading to better decision-making and improved profitability.

Answer: D

Explanation:

The Production Order to Cost Update process within Oracle Manufacturing Business Process (OMBP) in Oracle Fusion Cloud SCM ensures accurate cost calculations by capturing and updating costs associated with production orders, such as materials, labor, and overhead. This accuracy supports better decision-making and improves profitability by enabling precise cost analysis and pricing strategies. Option A is irrelevant as it ties to CRM, not cost updates. Option B exaggerates automation-human oversight remains necessary. Option D focuses on real-time updates, which is secondary to the primary benefit of accuracy emphasized in Oracle documentation.

NEW QUESTION # 52

......

You must want to receive our 1Z0-1163-1 practice questions at the first time after payment. Don't worry. As long as you finish your payment, our online workers will handle your orders of the 1Z0-1163-1 study materials quickly. The whole payment process lasts a few seconds. And if you haven't received our 1Z0-1163-1 Exam Braindumps in time or there are some trouble in opening or downloading the file, you can contact us right away, and our technicals will help you solve it in the first time.

Valid 1Z0-1163-1 Exam Format: https://www.latestcram.com/1Z0-1163-1-exam-cram-questions.html

Our 1Z0-1163-1 practice material can broaden your horizon and realize your potential of making great progress, In other words, you can have a right to free download the exam demo to glance through our 1Z0-1163-1 test dumps: Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 and then you can enjoy the trial experience before you decide to buy it, We know that you care about your 1Z0-1163-1 actual test.

The text presents implementations starting from the needs, the 1Z0-1163-1 fundamental problems, You cannot phone, and your Internet connection may very well depend on your telephone carrier!
