

H20-923_V1.0 Latest Exam Registration & H20-923_V1.0 Practice Test Fee

DOWNLOAD the newest Icertttest H20-923_V1.0 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1yq5SXXJzUVJCGGCLgymaaVKpwXx29YSi>

Now IT industry is more and more competitive. Passing Huawei H20-923_V1.0 exam certification can effectively help you entrench yourself and enhance your status in this competitive IT area. In our Icertttest you can get the related Huawei H20-923_V1.0 exam certification training tools. Our Icertttest IT experts team will timely provide you the accurate and detailed training materials about Huawei Certification H20-923_V1.0 Exam. Through the learning materials and exam practice questions and answers provided by Icertttest, we can ensure you have a successful challenge when you are the first time to participate in the Huawei certification H20-923_V1.0 exam. Above all, using Icertttest you do not spend a lot of time and effort to prepare for the exam.

Our Icertttest web-based practice exam helps you boost your confidence with real Huawei Dumps questions. Built-in tracker saves all practice exam attempts to point out mistakes. This feature helps you to improve your HCSP-Field-Data Center Facility V1.0 (H20-923_V1.0) exam knowledge and skills. You can attempt this Huawei web-based practice test on all operating systems, including Mac, Linux, iOS, Windows, and Android.

Get Help From Top Notch Icertttest H20-923_V1.0 Exam Practice Questions

If you are having the same challenging problem, do not worry, Icertttest is here to help. Our direct and dependable HCSP-Field-Data Center Facility V1.0 Exam Questions in three formats will surely help you pass the Huawei H20-923_V1.0 Certification Exam. Because this is a defining moment in your career, do not undervalue the importance of our Huawei H20-923_V1.0 exam dumps.

Huawei HCSP-Field-Data Center Facility V1.0 Sample Questions (Q43-Q48):

NEW QUESTION # 43

Which of the following interfaces is used to connect the controller and the main control module of the unit?

- A. USB

- B. DP
- C. SW
- D. I2C/12v

Answer: D

Explanation:

In Huawei precision cooling units, the LCD controller (human-machine interface) must exchange real-time operating data and commands with the unit's main control module while also receiving a stable low-voltage power supply. This connection is typically implemented as a low-voltage communication bus plus DC power, which is why the interface is identified as I2C/12V. The I2C portion provides the data channel used for status display, parameter viewing/setting (within permission scope), alarm presentation, and command delivery (such as mute, reset, or control enable actions). The 12 V portion supplies power to the controller so it can operate independently of high-voltage power circuits and remain safe to access during routine O&M.

Interfaces like DP and USB are not used as the internal control link between the HMI and the main control board in this type of unit, and "SW" is not the designated controller-to-main-board interface in the standard wiring definition. Therefore, I2C/12V is the correct selection.

NEW QUESTION # 44

Which of the following is not a scenario-based solution for Huawei data center products?

- A. FusionDC1000
- B. FusionModule2000
- C. FusionModule500
- D. FusionDC800

Answer: D

Explanation:

Huawei's scenario-based data center facility portfolio is organized around clearly defined solution families that map to typical deployment scenarios and site sizes. FusionModule500 and FusionModule2000 are smart modular data center solutions designed for standardized, fast deployment in equipment rooms and enterprise edge/branch scenarios. They integrate key subsystems such as power supply and distribution, cooling, monitoring, and optional fire protection into a modular architecture that reduces footprint and accelerates on-site delivery. Likewise, FusionDC1000 is Huawei's prefabricated modular data center series, delivered as complete, factory-integrated modules that combine civil engineering elements with electromechanical infrastructure for rapid construction, predictable quality, and scalable expansion across different capacity tiers. In contrast, FusionDC800 is not used as a defined scenario-based solution name within Huawei's mainstream data center facility solution lineup (where "FusionDC" offerings are represented by the FusionDC1000 series and "FusionModule" offerings by numbered FusionModule solutions). Therefore, FusionDC800 is the option that does not match Huawei's scenario-based solution naming.

NEW QUESTION # 45

Which of the following are the user roles of Power Partner?

- A. Startup engineer
- B. Project manager
- C. Inventory operations manager
- D. Service engineer
- E. DOC
- F. Service manager of a rep office

Answer: A,B,C,D,E,F

NEW QUESTION # 46

Which of the following models is a Huawei in-room chilled water horizontal air supply product?

- A. NetCol8000-C070D
- B. FusionCol8000-C210H
- C. NetCol5000-A070U
- D. FusionCol5000-A050H

Answer: D

Explanation:

Huawei room-level air conditioning products are commonly identified by the series name plus a model suffix that indicates the cooling medium and airflow form factor. An in-room chilled water unit uses a chilled-water coil as the primary heat-exchange component and relies on the building's chilled-water system (chiller/plant) rather than an onboard refrigeration compressor for cooling generation. "Horizontal air supply" describes the discharge direction: the unit supplies conditioned air laterally into the room or into a specific airflow organization (such as cold-aisle delivery), supporting predictable airflow paths and stable return air conditions. Within the provided options, FusionCol5000-A050H is the model that matches both identifiers: it belongs to Huawei's room cooling product line and the model code indicates an in-room configuration with chilled-water capability and horizontal air supply orientation. The other options belong to different series or represent configurations typically associated with other deployment forms (such as different placement, airflow direction, or system architecture). Therefore, the correct selection is FusionCol5000-A050H.

NEW QUESTION # 47

After installing the FusionCol8000-C (110-440 kW), inject water to preserve the pressure for the chilled water pipes to how many MPa. After 30 minutes, check that no leakage occurs. Preserve the pressure for 24 hours. If the pressure drop is less than 0.01 MPa and no leakage occurs, the pipes do not leak.

- A. 0.8
- B. 0
- C. 0.5
- D. 1.2

Answer: A

Explanation:

For FusionCol8000-C chilled-water systems, Huawei commissioning requires a water leakage/pressure-holding test on the chilled-water piping after installation to verify joint sealing, valve interfaces, and connection integrity before long-term operation. The specified method is to raise the water pressure in the chilled-water pipe to 0.8 MPa, then observe for 30 minutes to confirm there is no visible leakage. If the system remains dry, the same pressure is retained for 24 hours as a stability verification step. The acceptance criterion is that the pressure drop is less than 0.01 MPa over the 24-hour period and no leakage is found, which demonstrates that the piping and fittings meet tightness requirements under the prescribed test pressure. This procedure helps prevent future failures such as slow seepage, corrosion around joints, insulation waterlogging, and unexpected shutdowns caused by water loss or low differential pressure alarms. It also ensures that subsequent flushing, venting, and operational commissioning can be performed safely and reliably.

NEW QUESTION # 48

.....

Huawei H20-923_V1.0 dumps PDF version is printable and embedded with valid Huawei H20-923_V1.0 questions to help you get ready for the H20-923_V1.0 exam quickly. HCSP-Field-Data Center Facility V1.0 (H20-923_V1.0) exam dumps pdf are also usable on several smart devices. You can use it anywhere at any time on your smartphones and tablets. We update our Huawei H20-923_V1.0 Exam Questions bank regularly to match the changes and improve the quality of H20-923_V1.0 questions so you can get a better experience.

H20-923_V1.0 Practice Test Fee: https://www.itcerttest.com/H20-923_V1.0_braindumps.html

Huawei H20-923_V1.0 Latest Exam Registration There is no royal road to learning." Learning in the eyes of most people is a difficult thing. Itcerttest always ensures that you are provided with only the best and most updated Huawei H20-923_V1.0 exam preparation materials, We have hired most extraordinary and most familiar experts in this field, who are so talented in preparing the material, that there prepared material can succeed you in getting the high grades in Huawei H20-923_V1.0 exams in one day, When you earn the H20-923_V1.0 certification you will get reliable exam guide materials.

Finally, make sure that you know under what H20-923_V1.0 situations upgrades are supported, Coworking is Disruptive Innovation The term disruptive innovation was coined by Harvard professor Certification H20-923_V1.0 Training Clayton Christensen and popularized by his classic book The Innovator's Dilemma.
