Pass Guaranteed 2026 Latest SAP C-TS414-2023 Reliable Braindumps Book

While making revisions and modifications to the SAP C-TS414-2023 practice exam, our team takes reports from over 90,000 professionals worldwide to make the SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management exam

questions foolproof. To make you capable of preparing for the SAP C-TS414-2023 Exam smoothly, we provide actual SAP C-TS414-2023 exam dumps.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management Sample Questions (Q41-Q46):

NEW QUESTION # 41

What master data can you integrate into a task list for a production order?

- A. Classification
- B. Material Specifications
- **C. MIC**
- D. Control Indicator

Answer: C

NEW QUESTION # 42

During an in process inspection for production orders, such as inspection type 09, which inventory posting is possible?

- A. Blocked stock
- B. Quality stock
- **C. None**
- D. Unrestricted Stock

Answer: C

NEW QUESTION # 43

The Customer info record: SD defines inspection requirements. For which specific combination can you maintain this info record?
Note: There are 2 correct answers to this question.

- A. Customer, Material, and Division
- B. Customer, Material, and Distribution Channel
- **C. Customer, Material, and Sales Organization**
- **D. Customer and Sales Organization**

Answer: C,D

Explanation:

The quality info record: SD (transaction QVDM) specifies QM requirements for outbound deliveries:

* Customer and Sales Organization (A): This combination allows generic inspection settings for a customer across a sales organization, a valid standard option.

* Customer, Material, and Sales Organization (B): This is the most specific combination, enabling material-specific inspection requirements for a customer within a sales org (SPRO > QM > Quality Inspection > Quality Info Record: SD).

* Customer, Material, and Division (C): Division isn't a key field for the SD info record in standard SAP.

* Customer, Material, and Distribution Channel (D): Distribution channel isn't part of the key; sales org is used instead.

Thus, "A" and "B" are the correct answers. References: SAP Help Portal - "Quality Info Record: SD"; SAP S/4HANA QM User Guide - "SD Quality Management".

NEW QUESTION # 44

The IMG includes a customizing activity in which you assign object categories to a notification type? Which of the following object category already exist in standard setting? (3 Correct Ans)

- A. Order(pp-pi)
- B. Purchase order item
- **C. Material**
- **D. Serial Number**
- **E. Batch**

Answer: C,D,E

NEW QUESTION # 45

During results recording, you can create additional inspection characteristics for the inspection operation.

Which characteristics can be used as additional inspection characteristics? Note: There are 2 correct answers to this question.

- A. Master inspection characteristics as reference characteristic
- **B. Master inspection characteristics as complete copy model**
- **C. Master inspection characteristics as incomplete copy model**
- D. Class characteristics from the classification system

Answer: B,C

Explanation:

During results recording (e.g., transaction QE51N), additional characteristics can be added to an operation:

* Master Inspection Characteristics as Complete Copy Model (B): MICs (transaction QS21) can be added as a complete copy, inheriting all attributes (e.g., tolerances, sampling) for immediate use in the lot.

* Master Inspection Characteristics as Incomplete Copy Model (C): MICs can be added as an incomplete copy, allowing customization (e.g., adjusting tolerances) during recording, a flexible option in SAP QM.

* Master Inspection Characteristics as Reference Characteristic (A): Reference MICs are linked for reuse but not added anew during recording; they're predefined in the plan.

* Class Characteristics from the Classification System (D): Class characteristics (transaction CT04) are for batch classification, not inspection recording.

Thus, "Master inspection characteristics as complete copy model" and "Master inspection characteristics as incomplete copy model" are the correct answers. References: SAP Help Portal - "Adding Characteristics in Results Recording"; SAP S/4HANA QM User Guide - "Inspection Results".

NEW QUESTION # 46

.....

The price for SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management C-TS414-2023 study materials is quite reasonable, and no matter you are a student or you are an employee, you can afford the expense.
