Valid VMware 2V0-17.25 Exam Prep | Free 2V0-17.25 Pdf Guide

Our 2V0-17.25 exam training material is organized by high experienced IT workers. Our IT elite team offer new version of 2V0-17.25 Exam real questions gradually, which aims to ensure examinees pass 2V0-17.25 test in one time.

VMware Cloud Foundation 9.0 Administrator Sample Questions (Q99-Q104):

NEW QUESTION # 99

What is the function of Velero?

- A. Collect data and logs from different sources, unify them, and send them to multiple destinations.
- B. Publish DNS records for applications to DNS servers.
- C. Monitor cluster services.
- **D. Backup and restore Kubernetes clusters.**

Answer: D

Explanation:

Velero is an open-source Kubernetes backup and restore solution integrated into VMware Cloud Foundation for Kubernetes management. The VCF 9.0 Kubernetes Services Documentation describes it as:

"Velero provides backup, recovery, and migration of Kubernetes cluster resources and persistent volumes." Key functionality includes:

Backup and restore of Kubernetes objects such as deployments, services, and namespaces.

Data protection for persistent volumes via storage snapshots.

Migration capabilities across clusters.

Analysis of incorrect options:

Publishing DNS records (A) is handled by CoreDNS or external DNS integrations, not Velero.

Monitoring cluster services (B) is the role of Kubernetes health checks and observability tools like Prometheus, not Velero.

Collecting logs and data (C) is done by logging stacks such as Fluent Bit or VCF Operations for Logs.

Therefore, Velero's primary role is backup and restore of Kubernetes clusters.

NEW QUESTION # 100

In VMware storage design for a vSphere environment, which of the following are commonly used datastore types?

- **A. vSAN datastores across cluster nodes**
- **B. NFS datastores over IP network**
- **C. VMFS datastores on block storage**
- D. CIFS shares for hosting VM disks

Answer: A,B,C

Explanation:

VMware supports VMFS (on block storage), NFS (file-based), and vSAN (distributed storage). CIFS (option C) is typically not used to host VMware virtual disks.

NEW QUESTION # 101

What is the function of Velero?

- A. Collect data and logs from different sources, unify them, and send them to multiple destinations.
- B. Publish DNS records for applications to DNS servers.
- C. Monitor cluster services.
- **D. Backup and restore Kubernetes clusters.**

Answer: D

Explanation:

Velero is an open-source Kubernetes backup and restore solution integrated into VMware Cloud Foundation for Kubernetes management. The VCF 9.0 Kubernetes Services Documentation describes it as:

"Velero provides backup, recovery, and migration of Kubernetes cluster resources and persistent volumes." Key functionality includes:

* Backup and restore of Kubernetes objects such as deployments, services, and namespaces.

* Data protection for persistent volumes via storage snapshots.

* Migration capabilities across clusters.

Analysis of incorrect options:

- * Publishing DNS records (A) is handled by CoreDNS or external DNS integrations, not Velero.
- * Monitoring cluster services (B) is the role of Kubernetes health checks and observability tools like Prometheus, not Velero.
- * Collecting logs and data (C) is done by logging stacks such as Fluent Bit or VCF Operations for Logs.

Therefore, Velero's primary role is backup and restore of Kubernetes clusters.

References: VMware Cloud Foundation 9.0 - Kubernetes Services and Data Protection (Velero integration).

NEW QUESTION # 102

An administrator is tasked to obtain an overview of all VMware vSAN and non-vSAN datastores within a VMware Cloud Foundation (VCF) environment using VCF Operations.

Where can the administrator access the required information?

- A. Diagnostic Findings
- B. Data Protection & Recovery
- C. Storage Overview
- D. VCF Health

Answer: C

Explanation:

The Storage Overview dashboard in VCF Operations provides consolidated visibility into storage resources, including:

vSAN datastores

VMFS datastores

NFS datastores

Capacity utilization

Performance metrics

Health indicators

The VCF documentation states:

"The Storage Overview dashboard provides a unified view of storage capacity, performance, and health across vSAN and non-vSAN datastores." Other options are not suitable:

VCF Health (A) focuses on component health (vCenter, NSX, ESXi).

Data Protection & Recovery (B) covers backup and DR insights.

Diagnostic Findings (C) highlights detected issues but not comprehensive storage inventory.

Thus, the correct location is the Storage Overview dashboard.

NEW QUESTION # 103

Which tasks can vSphere Lifecycle Manager (vLCM) accomplish in a VMware environment?

- A. Automated ESXi host patching and firmware updates
- B. Deploying vendor-specific hardware drivers across multiple hosts
- C. Configuring vSAN disk groups automatically
- D. Provisioning new VMs from templates

Answer: A,B,C

Explanation:

vLCM automates ESXi patching, firmware driver deployment (A, C), and can configure vSAN disk group versions (D). VM provisioning (B) is performed via vCenter or Content Library, not specifically vLCM.

NEW QUESTION # 104

.....

Good product can was welcomed by many users, because they are the most effective learning tool, to help users in the shortest possible time to master enough knowledge points, so as to pass the qualification test, and our 2V0-17.25 learning dumps have always been synonymous with excellence. Our 2V0-17.25 practice guide can help users achieve their goals easily, regardless of whether you want to pass various qualifying examination, our products can provide you with the learning materials you want. Of course, our 2V0-17.25 Real Questions can give users not only valuable experience about the exam, but also the latest information

about the exam. Our 2V0-17.25 practical material is a learning tool that produces a higher yield than the other. If you make up your mind, choose us!

Valid 2V0-17.25 Exam Prep: <https://www.itexamdownload.com/2V0-17.25-valid-questions.html>

The third format of ITExamDownload product is the desktop VMware Cloud Foundation 9.0 Administrator (2V0-17.25) practice exam software, Our 2V0-17.25 study guide stand the test of time and harsh market, convey their sense of proficiency with passing rate up to 98 to 100 percent, It is simple and easy to study with our 2V0-17.25 learning braindumps, The VMware 2V0-17.25 exam dumps help you achieve your professional goals.

There really is only one reason to create a concept Free 2V0-17.25 Pdf Guide model: to understand the different kinds of information that the site needs to display, You can also right-click the screen and then 2V0-17.25 Practice Exam Fee click Slide Show to view the images in the current folder as an automatic slide show.

Providing You Excellent 2V0-17.25 Practice Exam Fee with 100% Passing Guarantee

The third format of ITExamDownload product is the desktop VMware Cloud Foundation 9.0 Administrator (2V0-17.25) practice exam software, Our 2V0-17.25 study guide stand the test of time and harsh market, 2V0-17.25 convey their sense of proficiency with passing rate up to 98 to 100 percent.

It is simple and easy to study with our 2V0-17.25 learning braindumps, The VMware 2V0-17.25 exam dumps help you achieve your professional goals, These VMware 2V0-17.25 questions are available in desktop 2V0-17.25 practice exam software, web-based 2V0-17.25 practice test, and VMware Cloud Foundation 9.0 Administrator (2V0-17.25) dumps pdf format.
