## SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q22-Q27):

### NEW QUESTION # 22

What are the main value drivers of SAP Business Transformation Management solutions?

(Note: There are 2 correct answers to this question.)

- A. They enable customers to discover, analyze, and scope optimization potential during daily operations.
- B. They help generate insights into both processes and applications and their dependencies.
- C. They provide advanced capabilities for blockchain development and cryptocurrency management.
- D. They manage physical inventory in warehouses and real-time transaction processing for retail environments.

**Answer: A,B**

Explanation:

SAP Business Transformation Management (BTM) solutions deliver value by providing visibility, analytics, and optimization across business processes and IT systems. They integrate SAP Signavio, SAP LeanIX, and WalkMe to enable organizations to understand dependencies, identify inefficiencies, and accelerate transformation initiatives.

"SAP BTM solutions help enterprises gain comprehensive insights into processes, applications, and dependencies, enabling them to discover, analyze, and optimize their operations continuously." Reference:

Generating Insights into Processes and Applications (Answer C):

SAP Signavio and LeanIX together provide a data-driven foundation that helps identify how processes and applications interact, uncovering optimization opportunities and transformation risks.

"By linking process intelligence with enterprise architecture management, SAP BTM solutions generate deep insights into process flows, system dependencies, and business value realization." Discovering and Scoping Optimization Potential (Answer D):

The BTM suite empowers users to continuously monitor performance and identify improvement opportunities during daily operations through analytics and observability.

"SAP BTM enables organizations to discover, analyze, and scope optimization potential within their daily business operations using integrated analytical capabilities." Incorrect Options:

A: Inventory and retail transaction management are handled by SAP S/4HANA and not part of BTM.

B: Blockchain and cryptocurrency management are not components of the BTM solution portfolio.

Therefore, the verified and correct answers as per SAP BTM documentation are:

C: They help generate insights into both processes and applications and their dependencies.

D: They enable customers to discover, analyze, and scope optimization potential during daily operations.

### NEW QUESTION # 23

What are the main use cases for SAP Signavio and SAP LeanIX solutions?

- A. Enhancing customer service and managing digital supply chain.
- B. Expanding product offerings and portfolio management.
- C. Improving financial management and material management.
- D. Enabling business transformation and continuous excellence.

**Answer: D**

Explanation:

The SAP Signavio and SAP LeanIX solutions are foundational components of SAP Business Transformation Management (BTM). Their main purpose is to enable enterprise-wide transformation, continuous optimization, and operational excellence by connecting business processes and IT architecture.

"The combined use of SAP Signavio and SAP LeanIX empowers organizations to enable business transformation through a comprehensive view of processes, applications, and technology, driving continuous excellence and improvement." Reference: SAP Signavio provides business process intelligence, while SAP LeanIX delivers enterprise architecture transparency. Together, they support organizations in transforming operations, modernizing IT landscapes, and achieving long-term performance improvement.

"SAP Signavio and SAP LeanIX support use cases centered around continuous business transformation, providing insights that align business goals with IT strategies." Incorrect Options:

B: Product portfolio management is managed under SAP PLM, not BTM solutions.

C: Supply chain management is covered by SAP Digital Supply Chain applications, not LeanIX or Signavio.

D: Financial and material management belong to SAP S/4HANA core ERP modules.

Verified Correct answer: A: Enabling business transformation and continuous excellence.

#### NEW QUESTION # 24

What makes SAP Signavio and SAP LeanIX a powerful combination?

(Note: There are 2 correct answers to this question.)

- A. Both solutions focus on transforming businesses from a current state to a future state.
- B. We can reduce the time for financial reporting by 70% on average.
- C. They help our customers understand the important aspects of a transformation: processes, people, systems, and applications.
- D. We can help our customers lay off 20 to 30 percent of their workforce and therefore reduce costs tremendously.

**Answer: A,C**

Explanation:

The integration of SAP Signavio and SAP LeanIX provides a complete business and IT transformation view, connecting processes and enterprise architecture to enable end-to-end transparency and alignment.

"The combination of SAP Signavio and SAP LeanIX helps organizations understand how their business processes and IT landscapes interact, ensuring seamless transformation from the current to the target state." Reference:

Transforming from Current to Future State (Answer A):

SAP Signavio focuses on business process transformation, while SAP LeanIX manages IT architecture and application landscapes. Together, they help organizations move from as-is to to-be states with data-driven clarity.

"Both solutions support transformation by mapping the current state of processes and technology and defining the future state to align with business goals." Understanding Processes, People, Systems, and Applications (Answer B):

The combined solution helps organizations identify interdependencies between business processes, IT systems, and people, a critical factor for successful digital transformation.

"SAP Signavio and LeanIX provide 360-degree visibility into the transformation landscape - processes, systems, and people - to drive coordinated change." Incorrect Options:

C: Workforce reduction is not an SAP transformation objective.

D: Financial reporting speed is not the focus of these tools.

Verified Correct Answers: A and B.

#### NEW QUESTION # 25

What is the primary benefit of using SAP Business Transformation Management solutions early in a RISE project?

(Note: There are 2 correct answers to this question.)

- A. They automate non-critical business functions without supporting overall ERP transformation.
- B. They are primarily focused on human resources management.

- C. They make ERP transformations more cost efficient by providing faster insights into operations.
- D. The earlier the solutions are leveraged in a transformation project, the more value they can generate.

**Answer: C,D**

Explanation:

Leveraging SAP Business Transformation Management (BTM) Solutions early in a RISE with SAP project allows organizations to gain critical insights into their existing processes, applications, and technology landscape. This helps accelerate transformation readiness and reduces rework during design and implementation.

"Early adoption of SAP BTM Solutions within RISE projects maximizes value by providing transparency and actionable insights into business processes and IT landscapes, ensuring cost-efficient and faster ERP transformation." Reference:

Early Value Realization (Answer A):

The earlier BTM tools such as SAP Signavio, SAP LeanIX, and WalkMe are applied, the faster organizations can identify inefficiencies and define transformation scope, which increases long-term value generation.

"The earlier SAP BTM tools are introduced, the more transformation value can be realized through early visibility, stakeholder alignment, and optimized process design." Cost Efficiency through Faster Insights (Answer B):

SAP BTM solutions provide data-driven visibility into as-is processes and dependencies, enabling companies to reduce transformation costs by addressing inefficiencies early.

"SAP BTM enables customers to accelerate decision-making and reduce transformation cost and effort through real-time operational insights." Incorrect Options:

C: BTM solutions do not focus on non-critical automation; they support end-to-end ERP transformation.

D: They are not specific to HR; they span all business domains (Finance, Supply Chain, IT, etc.).

Therefore, the verified and correct answers are:

A: The earlier the solutions are leveraged in a transformation project, the more value they can generate.

B: They make ERP transformations more cost efficient by providing faster insights into operations.

## NEW QUESTION # 26

How can BTM Solutions help organizations manage their business transformation?

- A. They help businesses better understand and optimize their processes and IT infrastructure, while assisting the end user coping with digital change.
- B. They are crucial because they exclusively focus on enhancing a company's social media presence and marketing campaigns.
- C. They are revolutionary tools to support financial controlling and reporting.
- D. They are important because they provide direct support for human resource management and payroll processing.

**Answer: A**

Explanation:

SAP Business Transformation Management (BTM) Solutions combine tools like SAP Signavio, SAP LeanIX, and WalkMe to give enterprises complete visibility and control over both business and IT transformation efforts.

"SAP BTM solutions enable companies to understand and optimize their processes and IT landscapes, while supporting users through change and adoption." Reference:

Process Optimization & IT Alignment:

SAP Signavio provides process mining and analytics, SAP LeanIX maps IT architecture, and WalkMe ensures user adoption.

Together, they deliver an integrated framework for sustainable transformation.

"By integrating business process management, enterprise architecture, and user enablement, SAP BTM helps organizations manage complexity and digital adoption simultaneously." User Adoption and Change Management:

WalkMe, a core BTM component, assists employees in adapting to new systems, minimizing disruption during digital transitions.

"BTM solutions assist end users in coping with digital change by delivering in-application guidance and real-time support." Incorrect Options:

A: Financial controlling is an ERP capability, not a BTM function.

B: Marketing is unrelated to BTM's transformation scope.

C: HR and payroll are managed in SAP SuccessFactors, not BTM.

Verified Correct answer: D: They help businesses better understand and optimize their processes and
