C1000-200 test is the important exam in IBM certification exams which is well recognized.

## IBM MQ v9.4 Administrator - Professional Sample Questions (Q238-Q243):

### NEW QUESTION # 238

Administrators often configure Message Expiry in IBM MQ. What happens to a message when its defined expiry interval is reached but it has not yet been consumed by any application?

- A. It is converted into a persistent message and stored until manually deleted

- B. It is re-sent automatically to all available subscribers
- C. It is permanently deleted without leaving any trace in the system
- D. It is automatically moved to the Dead Letter Queue if one is defined

**Answer: D**

Explanation:

Expired messages are placed in the Dead Letter Queue if defined; otherwise, they are discarded, allowing administrators to investigate reasons for expiry.

#### NEW QUESTION # 239

In scenarios where IBM MQ is integrated with external transaction managers, which method correctly describes the use of XA (Extended Architecture) transactions, including how MQ coordinates with databases or ERP systems to ensure atomicity, consistency, isolation, and durability across distributed operations?

- A. MQ transactions automatically guarantee ACID properties without configuring XA
- B. XA transactions are optional and do not guarantee consistency
- C. XA transactions only affect message persistence without coordinating with external systems
- D. XA transactions allow MQ to participate in distributed transactions with external systems, ensuring all operations commit or rollback together, maintaining ACID properties

**Answer: D**

Explanation:

IBM MQ can integrate with external transaction managers via XA transactions, coordinating message operations with other resource managers to ensure all-or-nothing behavior, maintaining full ACID compliance.

#### NEW QUESTION # 240

Which IBM MQ feature allows applications to be notified automatically when a specific condition occurs on a queue, such as the arrival of a new message, so that resources are not wasted in constant polling?

- A. Queue Browsing
- B. Asynchronous Consumers
- C. Trigger Monitors
- D. Channel Initiators

**Answer: C**

Explanation:

Trigger Monitors enable event-driven processing by starting an application automatically when messages arrive, removing the need for continuous polling of queues.

#### NEW QUESTION # 241

When integrating IBM MQ with a batch processing system where multiple consumers need to process the same set of messages independently, which messaging pattern should be implemented to allow multiple subscribers to receive a copy of each message while maintaining performance and scalability in the environment?

- A. Clustered queues with round-robin delivery
- B. Temporary queues for each batch job
- C. Point-to-point messaging with a single queue
- D. Publish/Subscribe using topics and durable subscriptions

**Answer: D**

Explanation:

The Publish/Subscribe model allows multiple subscribers to receive independent copies of messages. Durable subscriptions ensure that messages are retained even if a subscriber is temporarily unavailable, enabling reliable batch processing.

### NEW QUESTION # 242

IBM MQ provides several methods to monitor and manage queues for optimal performance. Which combination of monitoring techniques is most effective for identifying bottlenecks, predicting message backlogs, and ensuring that high-priority messages are delivered without delay in a large-scale deployment?

- A. Configuring application-side logging without using MQ-specific monitoring tools
- B. Using MQSC commands for manual queue checks and occasional log review
- C. Implementing MQ Explorer for real-time monitoring, combining it with automated alerts, and prioritizing messages based on message class and depth
- D. Only monitoring CPU and memory usage on the queue manager server

**Answer: C**

Explanation:

MQ Explorer with automated alerts and prioritization provides proactive monitoring to detect bottlenecks, manage backlogs, and ensure high-priority message delivery efficiently.

### NEW QUESTION # 243

.....

When you use our C1000-200 learning guide, we hope that you can feel humanistic care while acquiring knowledge. Every staff at our C1000-200 simulating exam stands with you. So if you have any confusion about our C1000-200 exam questions, don't hesitate to ask for our service online or contact with us via email. We will solve your problem by the first time and give you the most professional suggestions. And we always consider your interest and condition to the first place. That's why so many of our customers praised our warm and wonderful services.
