PRINCE2 P3O Foundation Project Office 2013 Exam Sample Questions (Q67-Q72):

NEW QUESTION # 67

What can be used to assess and document the current state of PPM functions?

- A. P3O vision
- **B. P3M3 assessments**
- C. Capacity planning for resource management
- D. Complexity modelling

Answer: B

Explanation:

The P3O Foundation (2013) manual identifies P3M3 assessments as the tool to assess and document the current state of PPM functions. Section 6.1.2 states, "P3M3 assessments are used to evaluate and document the current maturity and capability of PPM functions within an organization, providing a baseline for improvement." This differs from capacity planning (A), complexity modelling (B), or P3O vision (C), which serve other purposes. The 2013 edition highlights P3M3's role in benchmarking, supporting P3O's implementation by identifying gaps. This ensures a data-driven approach to enhancing PPM maturity.

NEW QUESTION # 68

Who, as a minimum, should review the resourcing of a Programme Office whilst it is running?

- A. Head of COE and Programme Specialist
- **B. Head of Programme Office and Programme Manager of the relevant programme**
- C. P3O Sponsor and Portfolio Analyst
- D. Head of P3O and P3O Sponsor

Answer: B

Explanation:

The minimum review of a Programme Office's resourcing during operation involves the Head of Programme Office and the relevant Programme Manager, according to the P3O Foundation (2013) manual. Section 3.5.4 states, "The Head of Programme Office, in collaboration with the Programme Manager, is responsible for reviewing and adjusting resource allocation during the programme lifecycle." This ensures operational oversight and alignment with programme needs. Involving the Head of P3O and Sponsor (A), P3O Sponsor and Portfolio Analyst (C), or Head of COE and Programme Specialist (D) exceeds the minimum requirement, as their roles are more strategic or supportive. The 2013 guidance emphasizes this direct accountability to maintain efficiency and responsiveness in resource management.

NEW QUESTION # 69

Which is delivered by the Blueprint's information flows?

- A. Realization of benefits
- B. P3O implementation plan
- C. Management of risk
- **D. Principle of management by exception**

Answer: D

Explanation:

The P3O Foundation (2013) manual indicates that the Blueprint's information flows deliver the principle of management by exception. Section 4.3.3 states, "The Blueprint's information flows support the principle of management by exception by providing senior management with critical data to focus on deviations rather than routine operations." This differs from the implementation plan (A), risk management (B), or benefits realization (D), which are separate processes. The 2013 edition highlights this principle as a governance mechanism, enabling efficient oversight by escalating only significant issues. This enhances P3O's strategic focus during implementation.

NEW QUESTION # 70

What resource commitments should be taken into account as part of portfolio management?

- A. Programme and project only
- **B. Programme, project, and business as usual**
- C. Business as usual only
- D. Programme and business as usual only

Answer: B

Explanation:

Portfolio management, as per the P3O Foundation (2013) manual, requires consideration of resource commitments across programme, project, and business as usual (BAU) activities to ensure effective resource allocation and optimization. Section 2.2.3 states, "Portfolio management involves balancing resource commitments across programmes, projects, and BAU to deliver strategic objectives." This holistic approach ensures that resources are not siloed but are managed to support the entire organizational change agenda.

Excluding any one of these elements (A, B, C) would undermine the integrated nature of portfolio management, which aims to align all change initiatives with BAU operations. The 2013 guidance emphasizes this integrated resource view to avoid conflicts and maximize value, as detailed in the portfolio support office functions. This comprehensive resource management is a cornerstone of the P3O model, ensuring strategic alignment and operational efficiency.

NEW QUESTION # 71

Which of the following describe how an Organization Portfolio Office helps deliver change?

1. Allows the right resources to be allocated to the right programmes and projects
 2. Focuses on identifying changes that align best to strategic objectives
 3. Monitors progress of programmes and projects against key organizational objectives
 4. Is primarily concerned with implementing the change correctly
- A. 1,3,4
 - **B. 1,2,3**
 - C. 1,2,4
 - D. 2,3,4

Answer: B

Explanation:

The P3O Foundation (2013) manual describes the Organization Portfolio Office (OPO) as supporting change through resource allocation, strategic alignment, and progress monitoring. Section 5.3.2 states, "The OPO ensures the right resources are allocated, identifies changes aligning with strategic objectives, and monitors progress against organizational goals." However, implementing change correctly (4) is a programme-level task, not the OPO's primary focus. The 2013 edition emphasizes the OPO's strategic oversight role, making A the correct choice. This supports effective change governance and delivery.
