SAP C_WME_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Getting Started with Building WalkMe Solutions: This section of the exam evaluates the capabilities of WalkMe implementers and focuses on the practical aspects of creating and configuring WalkMe solutions. It includes understanding the WalkMe Editor, planning solution flows, creating Smart Walk-Thrus, Launchers, and ShoutOuts, and managing end-user guidance effectively. Candidates should be comfortable building initial WalkMe experiences that improve SAP usability and provide contextual help for users navigating SAP applications.
Topic 2	<ul style="list-style-type: none">Starting your Digital Adoption Journey: WalkMe Fundamentals: This section of the exam measures the skills of SAP project managers and covers the foundational concepts of digital adoption within SAP environments using WalkMe. Candidates are expected to understand the value of digital adoption platforms, the basic components of WalkMe, and how these tools align with business goals. The section emphasizes knowledge of the user experience within SAP and the ability to identify opportunities for improving digital workflows through in-app guidance and automation.
Topic 3	<ul style="list-style-type: none">Advancing your Skills in Building WalkMe Solutions: This section of the exam tests the advanced competencies of functional and business analysts in designing more complex and customized WalkMe solutions within SAP platforms. It requires a deeper understanding of user segmentation, advanced rules and triggers, performance optimization, and the use of analytics to refine user experiences. Candidates are expected to demonstrate their ability to design scalable and impactful guidance that aligns with SAP business processes and drives user adoption across the enterprise.

C_WME_2506 Examinations Actual Questions - Well C_WME_2506 Prep

The SureTorrent wants to win the trust of SAP Certified Associate - WalkMe Digital Adoption Consultant (C_WME_2506) certification exam candidates. To achieve this objective SureTorrent is presenting Valid, Real, and Updated SAP Certified Associate - WalkMe Digital Adoption Consultant (C_WME_2506) exam questions in three different formats. These formats have high demand in the market and offer the easiest and quick way for SAP Certified Associate - WalkMe Digital Adoption Consultant (C_WME_2506) exam preparation.

SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q29-Q34):

NEW QUESTION # 29

You are working on a Smart Walk-Thru step for which there are two buttons a user could click to move forward in the process. After they click either button, the remainder of the process is the same.

Which option below is the best way to address this?

- A. Add a Peer Step.
- **B. Add a Custom Trigger with multiple conditions.**
- C. Use a SmartTip to let the users know they can click either button for the flow to continue.
- D. Create a Split Step.

Answer: B

NEW QUESTION # 30

Which of the following is the best use case for using Behavior Based Segmentation?

- A. Make sure a Launcher only displays for Finance Team members.
- **B. Play a ShoutOut only to users who have already used a specific feature.**
- C. Show a time-sensitive ShoutOut and Survey to all users.
- D. Display different SmartTips for users located in the United States and Italy.

Answer: B

NEW QUESTION # 31

How does WalkMe help organizations enforce policy and compliance requirements?

- A. By disabling access to all non-compliant employees
- **B. By displaying pop-ups for policy acknowledgment and using Invisible Launchers to block sensitive fields**
- C. By automatically restricting employees from using external software
- D. By monitoring employees through real-time video feeds

Answer: B

NEW QUESTION # 32

When applying the WalkMe Lens to a real-world scenario, which of the following actions would help create impactful and effective solutions? Note: There are 2 correct answers to this question.

- **A. Examine the root cause of issues from the end user's perspective.**
- B. Ensure that WalkMe content is updated frequently.
- C. Prioritize the aesthetic design of the WalkMe interface.
- **D. Identify the business's goals and what they are trying to accomplish.**

Answer: A,D

NEW QUESTION # 33

You have a Smart Walk-Thru that begins on the home page, directs the user to a product page where there is a Subscribe button, and continues from there. If the user is already on a product page with a Subscribe button, you want the user to be able to start the

Smart Walk-Thru from that page. However, since not all product pages have a Subscribe button, you don't want the user to be able to start the Smart Walk-Thru on those pages because the Smart Walk-Thru is specifically related to product subscriptions. The URL of the product pages starts with: www.PetShop.com/product-page. Following best practices, which rule(s) would you suggest to use as a Start Point?

- A. Element On Screen -> is visible
- B. Current URL -> is exactly -> www.PetShop.com/product-page
- **C. Current URL -> Contains -> /product-page AND Element on screen -> Is Visible**
- D. Current URL -> Contains -> /product-page/mixed-bird-seeds OR Element on screen -> is Visible

Answer: C

Explanation:

To ensure the Smart Walk-Thru starts only on product pages with a Subscribe button, the Start Point must combine URL and element conditions. The rule Current URL -> Contains -> /product-page AND Element on screen -> Is Visible targets pages with "/product-page" in the URL (covering all product pages) and checks for the Subscribe button's visibility. This ensures the Smart Walk-Thru is available only on relevant pages, following best practices for precise and reliable Start Points.

The other options are incorrect:

- * Element On Screen -> is visible (A) is too broad, applying to any page with the element.
- * Current URL -> is exactly -> www.PetShop.com/product-page (C) is too restrictive, missing subpaths.
- * Current URL -> Contains -> /product-page/mixed-bird-seeds OR Element on screen -> is Visible (D) is too specific to one product and uses OR logic, allowing starts on non-relevant pages.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.2: Smart Walk-Thrus):

"For Start Points, combine URL rules (e.g., 'Current URL contains /product-page') with element visibility checks (e.g., 'Element on screen is visible') to ensure Smart Walk-Thrus start only on relevant pages." The course Getting Started with Building WalkMe Solutions states:

"Use AND logic in Start Points, like URL contains and element visibility, to restrict Smart Walk-Thru initiation to pages meeting all criteria, ensuring relevance." Option B is the best Start Point rule.
