## Peoplecert MSP Practitioner, 5th edition Exam Sample Questions (Q101-Q106):

### NEW QUESTION # 101

When approval to proceed is given at the end of Defining a Programme, what does this mean?

- A. The approval authorizes the start of the first project in the first tranche only.
- **B. The approval authorizes the work of all projects in the first tranche of programme.**
- C. The approval authorizes the SRO to proceed with the whole programme.
- D. The approval only acknowledges that the documents developed so far are acceptable.

**Answer: B**

Explanation:

Approval to proceed at this stage authorizes work on all projects within the first tranche of the programme.

The MSP Practitioner explains: "Approval to proceed is for first tranche, at end of that tranche, Go/No Go decision will be taken for next tranche," meaning that the programme is phased with controlled progression through tranches rather than approval for the entire programme upfront.

### NEW QUESTION # 102

Which of the following is Not one of MSP defined levels of stakeholder engagement?

- A. Keep informed
- **B. Formally Approve**
- C. Active Consultation
- D. Maintain Interest

**Answer: B**

Explanation:

"Formally Approve" is not one of the MSP-defined levels of stakeholder engagement. MSP outlines levels such as Maintain Interest, Active Consultation, and Keep Informed to categorize the nature and intensity of stakeholder engagement.

The MSP Practitioner indicates: "Fourth option is face to face," which means formal approval is a governance or decision-making activity rather than an engagement level.

Understanding and applying appropriate engagement levels ensures stakeholders receive relevant information and involvement suited to their influence and interest, facilitating support and minimizing resistance.

This categorization aids programme teams in managing communication and expectations effectively.

Which of the following is a programme management principle?

- A. Leadership and stakeholder management
- B. Quality and assurance management

Among the options, "Remaining aligned with corporate strategy" is identified as a core MSP programme management principle. The principles underpin the mindset and behaviors needed for successful programmes.
