I know your time is very valuable. We guarantee that you can download our products H19-401_V2.0 exam questions immediately after payment is successful. After your current page shows that the payment was successful, you can open your e-mail address to receive our H19-401_V2.0 Study Materials. And you can find that you can get H19-401_V2.0 learning guide only in 5 to 10 minutes. It is very fast and easy. And our H19-401_V2.0 practice engine is auto installed, so you don't have to do more work.

The industry experts hired by H19-401_V2.0 exam materials are those who have been engaged in the research of H19-401_V2.0 exam for many years. They have a keen sense of smell in the direction of the exam. Therefore, they can make accurate predictions on the exam questions. Therefore, our study materials specifically introduce a mock examination function. With H19-401_V2.0 exam materials, you can not only feel the real exam environment, but also experience the difficulty of the exam. You can test your true level through simulated exams. At the same time, after repeated practice of H19-401_V2.0 study braindumps, I believe that you will feel familiar with these questions during the exam and you will feel that taking the exam is as easy as doing exercises in peace.

Latest H19-401_V2.0 Exam Forum - Best H19-401_V2.0 Preparation Materials

The empty promise is not enough. So our DumpsQuestion provides to all customers with the most comprehensive service of the highest quality including the free trial of H19-401_V2.0 software before you buy, and the one-year free update after purchase. We will be with you in every stage of your H19-401_V2.0 Exam Preparation to give you the most reliable help. Even if you still failed the H19-401_V2.0 certification exam, we will full refund to reduce your economic loss as much as possible.

Huawei HCSP-Presales-Campus Network Planning and Design V2.0 Sample Questions (Q49-Q54):

NEW QUESTION # 49

Which of the following is the main reason why SD-WAN requires high-specification devices?

- A. Support for multiple automatic deployment scenarios
- B. Service orchestration
- C. Encryption required
- D. Forwarding processing based on Layer 3 to Layer 7 applications

Answer: D

Explanation:

While encryption (IPsec) is important, the "Intelligence" in SD-WAN comes from Application-based Routing . To perform Intelligent Traffic Steering , the gateway must identify traffic not just by IP/Port (L3 /L4), but by the actual application (L7), such as distinguishing between Office 365 and YouTube. This requires DPI (Deep Packet Inspection) and complex signature matching, which is significantly more CPU and memory intensive than traditional destination-based routing, thus necessitating high-specification hardware.

NEW QUESTION # 50

Hybrid cables do not support PoE++ power supply.

- A. True
- B. False

Answer: B

Explanation:

This statement is False . Huawei's Hybrid Optical-Electrical Cables (Photoelectric cables) are specifically designed to overcome the 100-meter distance limitation of traditional Ethernet. They combine optical fibers for high-speed data (10G/25G/100G) and copper wires for power. These cables are a core part of the "Simplified Architecture" and do support PoE++ (up to 90W), allowing high-power Wi-Fi 7 APs to be powered over distances of up to 300-500 meters from a central switch.

NEW QUESTION # 51

What are the mandatory components of the SD-WAN Solution?

- A. RR
- B. Controller
- C. CPE
- D. Analyzer

Answer: A,B,C

Explanation:

A functional Huawei SD-WAN network requires three fundamental pillars:

* CPE (A): The physical or virtual edge device at the branch/HQ.

* RR (B): The control plane component that reflects routes between CPEs.

* Controller (C): The management plane (iMaster NCE-Campus) for orchestration and policy deployment.

The Analyzer (D) (CampusInsight) is an optional component used for advanced AI-driven O & M and troubleshooting, but it is not strictly required to establish the SD-WAN network itself.

NEW QUESTION # 52

With which of the following methods can alarms on the controller be sent to the maintenance personnel in real time?

- A. Email
- B. DingTalk
- C. SMS
- D. WeChat

Answer: A,B,C,D

Explanation:

To ensure "Proactive O & M," iMaster NCE-Campus supports a wide array of notification channels via its Northbound Interface (NBI). It can integrate with third-party gateways to send SMS (A) and Email (D), and it provides native integration or Webhook support for popular enterprise collaboration tools like DingTalk (B) and WeChat (C). This allows IT staff to receive critical network alerts immediately on their mobile devices.

NEW QUESTION # 53

Which of the following layers are covered for network analysis using iMaster NCE-CampusInsight?

- A. Application layer
- B. Network layer
- C. Protocol layer
- D. User layer

Answer: A,B,D

Explanation:

iMaster NCE-CampusInsight provides full-stack visibility by analyzing three distinct layers:

* User Layer (B): Focuses on user-specific issues like authentication failures or slow associations.

* Network Layer (A): Monitors device health, packet loss, and latency across the physical/logical fabric.

* Application Layer (D): Identifies over 6,000 applications and analyzes the quality of experience (QoE) for key apps like Zoom or Teams.

"Protocol layer" is not categorized as a standalone analysis layer in the official HCSP V2.0 framework; protocol issues are usually nested within the Network or User analysis categories.

NEW QUESTION # 54

.....

All-in-One Exam Guide Practice To your H19-401_V2.0 Exam. To meet this objective DumpsQuestion is offering valid, updated, and real H19-401_V2.0 exam practice test questions in their formats..
