完整的AAPC-CPC學習筆記擁有模擬真實考試環境與場境的軟件VCE版

## 本 & 高通過率的AAPC-CPC考古題

PDFExamDumps的AAPC-CPC考古題是經過眾多考生檢驗過的資料，可以保證有很高的成功率。如果你用過考古題以後仍然沒有通過考試，PDFExamDumps會全額退款。或者你也可以選擇為你免費更新考試考古題。有了這樣的保障，實在沒有必要擔心了。

### 最新的 Medical Certification AAPC-CPC 免費考試真題 (Q111-Q116):

#### 問題 #111

Under the oversight of the pediatrician, a nurse reviews the vaccine and allergy history of a 13-year-old established patient just prior to administering a live varicella virus vaccine subcutaneously. What procedure code(s) should be reported?

- A. 90716, 90460
- B. 99211-25, 90716, 90460
- C. 90716, 90471
- D. 99211-25, 90716, 90471

答案： C

#### 解題說明：

Although CPT 99211 can be reported for limited assessments performed by nonphysician staff members, the vaccine and allergy history intake is considered vaccine related and not separately reportable. CPT 90460 is reported when a physician provides counseling about the benefits and risks associated with the vaccine and signs and symptoms that would indicate an adverse reaction. Because the physician did not document seeing the patient at this encounter, report CPT 90471 for the administration of the immunization.

#### 問題 #112

In which scenario would the modifier 53 be appended?

- A. A patient receives an x-ray of one femur when the doctor ordered bilateral views.
- B. A surgeon decides to stop a gallbladder removal procedure in the hospital operating room after the patient has extensive bleeding at the incision site.
- C. An IUD removal is not completed because the patient reports severe pain when the speculum is inserted.
- D. The surgeon decides to terminate a routine colonoscopy when the patient becomes hypertensive before receiving anesthesia in the outpatient procedure room.

答案： B

#### 解題說明：

Modifier 53 is used to indicate that a procedure was terminated by the provider after anesthesia was given due to extenuating circumstances that affected the health of the patient.

Although option B is similar, the procedure that was discontinued was done so prior to anesthesia in the outpatient setting, in which case modifier 73 would be appended.

#### 問題 #113

A complete pulmonary function test using a body plethysmograph is performed on a patient in conjunction with spirometry. After reviewing the results, a provider suspects the presence of an obstructive disease and administers a bronchodilating medicine just prior to repeating the test to reevaluate the expiratory flow rate. Which code(s) should be reported?

- A. 94726, 94060-51
- B. 94726, 94060
- C. 99212-25, 94726, 94060-76
- D. 99212-25, 94726, 94010-51, 94060-51

答案： B

#### 解題說明：

Answers A and B can be eliminated because the complete pulmonary function test includes interpretation of the test results; therefore, the review of this would not be considered separately identifiable. The CPT code 94060 includes spirometry before and

after a bronchodilator has been administered, so a separate spirometry code (94010) would be inappropriate. Last, a modifier is not needed because the procedures are routinely done in conjunction with each other.

#### 問題 #114

Age, gender, height, and race are the four key factors in calculating a person's forced vital lung capacity (FVC). If FVC is calculated to be 3.00 L and anything under 80% is abnormal, what would be the cutoff value to a normal FVC?

- A. 2.8 L
- B. 2.0 L
- C. 2.4 L
- D. 3.2 L

答案： C

解題說明：

A forced vital capacity test is the maximum amount of air that can be exhaled from the lungs and is used to determine whether there is an obstruction in the lungs. To calculate the abnormality, take 0.8 (80%), and multiply it by 3.00 (liters). Anything less than 2.4 L would be considered an abnormal result in this scenario.

#### 問題 #115

If a provider documents in an assessment that a patient is obese, but the BMI extracted from the chart is consistent with morbid obesity, what should be reported on the claim?

- A. Obesity and the appropriate BMI
- B. Obesity
- C. Morbid obesity
- D. Morbid obesity and the appropriate BMI

答案： A

解題說明：

The diagnosis is always based on the provider's documentation, which in this case would be obesity. Coding guidelines also state that if there is a reportable diagnosis related to weight, "the BMI can be assigned from documentation of someone other than the patient's provider, such as nursing notes."

#### 問題 #116

.....

最近，身邊考 Medical Tests 認證的人也是相當多的，那麼，怎麼去準備 AAPC-CPC 考試呢？建議大家，可以先到考試中心去打聽這科考試的有關的情況。了解考試的流程，考試的注意事項。預約一個合適的時間去報名參加考試即可。為了更有把握的通過考試，可以看看PDFExamDumps 考題網的 AAPC-CPC 題庫，上面的題目都是真題，很准，我做了很多遍的練習。練習題有些部分超出了 Medical Tests 的要求，但是對於扎實的掌握知識是很有幫助的，建議做完，搞懂。這是你輕鬆通過考試的最好的方法。
