

NCP-DB-6.10 Test Guide - NCP-DB-6.10 Actual Exam & NCP-DB-6.10 Pass-Sure Torrent

BONUS!!! Download part of BraindumpsPrep NCP-DB-6.10 dumps for free: https://drive.google.com/open?id=1fySDCh-1l-BV_cs8ICPsFTyFJR_Cw8N

One strong point of our APP online version is that it is convenient for you to use our NCP-DB-6.10 exam dumps even though you are in offline environment. In other words, you can prepare for your NCP-DB-6.10 exam with under the guidance of our NCP-DB-6.10 Training Materials anywhere at any time. Just take action to purchase we would be pleased to make you the next beneficiary of our NCP-DB-6.10 exam practice. Trust us and you will get what you are dreaming!

First and foremost, our company has prepared NCP-DB-6.10 free demo in this website for our customers. Second, it is convenient for you to read and make notes with our PDF version of our NCP-DB-6.10 learning guide. Last but not least, we will provide considerate on line after sale service for you in twenty four hours a day, seven days a week. So let our NCP-DB-6.10 practice materials to be your learning partner in the course of preparing for the exam, especially the PDF version is really a wise choice for you.

Nutanix NCP-DB-6.10 Exam | NCP-DB-6.10 Customizable Exam Mode - Most Reliable Website for you

Nutanix NCP-DB-6.10 study material of "BraindumpsPrep" is available in three different formats: PDF, desktop-based practice test software, and a browser-based practice NCP-DB-6.10 exam questions. Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 (NCP-DB-6.10) practice tests are a great way to gauge your progress and identify weak areas for further study. Check out features of these formats.

Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 Sample Questions (Q152-Q157):

NEW QUESTION # 152

How should an administrator create a database clone using the Era IJI?

- A. Select Databases, Clones, Create Clone.
- B. Select Databases, Sources, select a source database and then choose Create Clone.

- C. Select Time Machines, select a source database and then choose Create Clone.
- D. Select Database Server VMs, select a database server VM and then choose Create Clone.

Answer: C

Explanation:

In Nutanix Database Automation (NCP-DB), the Time Machine feature is used for protecting databases and creating database clones. To create a database clone using the Era Interface, an administrator should select Time Machines, select a source database, and then choose Create Clone. This process allows the administrator to create a copy of the source database at a specific point in time.

NEW QUESTION # 153

What is the terminology used for registering an existing database with Era?

- A. Cloned Database
- B. Source Database
- C. Brownfield Database
- D. Greenfield Database

Answer: C

Explanation:

In the context of Nutanix Era, the term "Brownfield Database" is used to refer to an existing database that is registered with Era. This process allows Era to bring Database as a Service (DBaaS) capabilities to your existing database. It's important to note that before you register a database with Era, certain prerequisites must be met.

NEW QUESTION # 154

An administrator needs to create a custom PostgreSQL HA software profile. Which software component manages the state of the cluster and handles failover?

- A. Patroni
- B. HAProxy
- C. keepalived
- D. etcd

Answer: A

Explanation:

NDB supports PostgreSQL HA software profiles for provisioning PostgreSQL databases with high availability. PostgreSQL HA software profiles consist of three components: etcd, HAProxy, and Patroni.

etcd is a distributed key-value store that provides a reliable way to store configuration data across a cluster of machines. etcd is used by Patroni to store and synchronize the cluster state and configuration.

HAProxy is a load balancer that distributes incoming requests to the PostgreSQL nodes.

HAProxy is used to expose a single endpoint for database connections even as the roles of the individual nodes change.

Patroni is a template for PostgreSQL high availability. Patroni is responsible for managing the state of the cluster and handling failover. Patroni uses etcd as the distributed configuration store and relies on HAProxy for load balancing.

Therefore, the software component that manages the state of the cluster and handles failover is Patroni.

NEW QUESTION # 155

What is the main purpose of using a Database Profile during database creation?

- A. Manage database patch bundles
- B. Generate capacity forecasting reports
- C. Define the storage location of backups
- D. Apply a standardized set of configurations to a database instance

Answer: D

Explanation:

Database Profiles define reusable settings-CPU/Memory, storage layout, and DB parameters-to ensure consistent and predictable deployments.

NEW QUESTION # 156

An administrator needs to provision multiple database clones from the same source database for different purposes, such as QA and Test/Development. To avoid resource starving, the administrator wants to differentiate VM resources for each department. What is the most efficient way to accomplish this task?

- A. Leverage NCM Self Service to deploy database clones.
- B. Use a VM Template for each department.
- C. Generate a playbook to resize database VMs when released.
- **D. Create multiple Compute profiles.**

Answer: D

Explanation:

An administrator needs to provision multiple database clones from the same source database for different purposes (e.g., QA and Test/Development) while avoiding resource starvation by differentiating VM resources for each department. The most efficient way to achieve this is by creating multiple Compute profiles in NDB. Compute profiles define CPU, memory, and other resource allocations for VMs, allowing the administrator to tailor resource limits (e.g., higher resources for QA, lower for Development) and apply them during clone provisioning. This approach is built into NDB, ensuring consistent resource management without manual adjustments.

NEW QUESTION # 157

.....

You must want to know your scores after finishing exercising our NCP-DB-6.10 study guide, which help you judge your revision. Now, our windows software and online test engine of the NCP-DB-6.10 real exam can meet your requirements. You can choose from two modules: virtual exam and practice exam. Then you are required to answer every question of the NCP-DB-6.10 Exam Materials. And they will show the scores at the time when you finish the exam.

NCP-DB-6.10 Exam Cram: <https://www.briandumpsprep.com/NCP-DB-6.10-prep-exam-braindumps.html>

With the effective NCP-DB-6.10 Exam Cram - Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 practice pdf like us you can strike a balance between life and study, and you can reap immediate harvest by using our NCP-DB-6.10 Exam Cram - Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 updated vce, Helping you pass the Nutanix NCP-DB-6.10 exam at your first attempt is what we are desired and confident to achieve, Nutanix NCP-DB-6.10 Customizable Exam Mode Learning also should be an enjoyable process of knowledge.

For example, you can use it to master music, score video, create basic arrangements, Test NCP-DB-6.10 Dumps.zip or mix surround audio Logic Pro only) Depending on your purpose, the number and configuration of Arrange window tracks will vary.

Free PDF Quiz 2026 Nutanix NCP-DB-6.10 Unparalleled Customizable Exam Mode

We spent five days finding the best attorney, With the effective Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 NCP-DB-6.10 practice pdf like us you can strike a balance between life and study, and you can reap immediate harvest by using our Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 updated vce.

Helping you pass the Nutanix NCP-DB-6.10 exam at your first attempt is what we are desired and confident to achieve, Learning also should be an enjoyable process of knowledge.

Once you decide to take part in the Nutanix Certified Professional (NCP) exam, you should manage to pass it and get the certification, The Nutanix NCP-DB-6.10 exam provides many benefits such as higher pay, promotions, resume enhancement, and skill development.
