# Top Professional-Cloud-Database-Engineer Exam Dumps - First-grade Quiz 2026 Google New Professional-Cloud-Database-Engineer Dumps Files

Our Professional-Cloud-Database-Engineer useful test guide materials present the most important information to the clients in the simplest way so our clients need little time and energy to learn our Professional-Cloud-Database-Engineer useful test guide. The clients only need 20-30 hours to learn and prepare for the test. For those people who are busy in their jobs, learning or other things this is a good news because they needn't worry too much that they don't have enough time to prepare for the test and can leisurely do their main things and spare little time to learn our Professional-Cloud-Database-Engineer study practice guide. So it is a great advantage of our Professional-Cloud-Database-Engineer exam materials and a great convenience for the clients.

It is a truth well-known to all around the world that no pains and no gains. There is another proverb that the more you plough the more you gain. When you pass the Professional-Cloud-Database-Engineer exam which is well recognized wherever you are in any field, then acquire the Professional-Cloud-Database-Engineer certificate, the door of your new career will be open for you and your future is bright and hopeful. Our Professional-Cloud-Database-Engineer Guide Torrent will be your best assistant to help you gain your certificate. We believe that you don't encounter failures anytime you want to learn our Professional-Cloud-Database-Engineer guide torrent.

The Top Features of Google Professional-Cloud-Database-Engineer PDF Dumps File and Practice Test Software

Our Professional-Cloud-Database-Engineer training materials are regarded as the most excellent practice materials by authority. Our company is dedicated to researching, manufacturing, selling and service of the Professional-Cloud-Database-Engineer study guide. Also, we have our own research center and experts team. So our products can quickly meet the new demands of customers. That is why our Professional-Cloud-Database-Engineer Exam Questions are popular among candidates. we have strong strenght to support our Professional-Cloud-Database-Engineer practice engine.

Google Cloud Certified - Professional Cloud Database Engineer Sample Questions (Q99-Q104):

NEW QUESTION # 99
You are configuring a brand new PostgreSQL database instance in Cloud SQL. Your application team wants to have an optimal

and highly available environment with automatic failover to avoid any unplanned outage. What should you do?

- A. Create one regional Cloud SQL instance in one zone with a standby instance in another zone in the same region.
- B. Create two read-write Cloud SQL instances in two different zones with a standby instance in another region.
- C. Create two read-write Cloud SQL instances in two different regions with a standby instance in another zone.
- D. Create one regional Cloud SQL instance with a read replica in another region.

Answer: A

Explanation:
This answer is correct because it meets the requirements of having an optimal and highly available environment with automatic failover. According to the Google Cloud documentation1, a regional Cloud SQL instance is an instance that has a primary server in one zone and a standby server in another zone within the same region. The primary and standby servers are kept in sync using synchronous replication, which ensures zero data loss and minimal downtime in case of a zonal outage or an instance failure. If the primary server becomes unavailable, Cloud SQL automatically fails over to the standby server, which becomes the new primary server1.

NEW QUESTION # 100
Your digital-native business runs its database workloads on Cloud SQL. Your website must be globally accessible 24/7. You need to prepare your Cloud SQL instance for high availability (HA). You want to follow Google-recommended practices. What should you do? (Choose two.)

- A. Configure single zone availability for automated backups.
- B. Set up manual backups.
- C. Schedule automated backups.
- D. Enable point-in-time recovery.
- E. Create a PostgreSQL database on-premises as the HA option.

Answer: C,D

Explanation:
D: Enable point-in-time recovery - This feature allows you to restore your database to a specific point in time.
It helps protect against data loss and can be used in the event of data corruption or accidental data deletion. E.
Schedule automated backups - Automated backups allow you to take regular backups of your database without manual intervention. You can use these backups to restore your database in the event of data loss or corruption.

NEW QUESTION # 101
Your company uses Bigtable for a user-facing application that displays a low-latency real-time dashboard. You need to recommend the optimal storage type for this read-intensive database. What should you do?

- A. Recommend hard disk drives (HDD).
- B. Recommend solid-state drives (SSD).
- C. Recommend mixed storage types.
- D. Recommend splitting the Bigtable instance into two instances in order to load balance the concurrent reads.

Answer: D

NEW QUESTION # 102
Your organization is migrating 50 TB Oracle databases to Bare Metal Solution for Oracle. Database backups must be available for quick restore. You also need to have backups available for 5 years. You need to design a cost-effective architecture that meets a recovery time objective (RTO) of 2 hours and recovery point objective (RPO) of 15 minutes. What should you do?

- A. Create the database on a Bare Metal Solution server with the database running on flash storage.
  Keep a local backup copy on all flash storage.
  Keep backups older than one day stored in Actifio OnVault storage.
- B. Create the database on a Bare Metal Solution server with the database running on flash storage.
  Keep a local backup copy on all flash storage.
  Use the Oracle Recovery Manager (RMAN) backup utility to move backups older than one day to an Archive Storage

bucket.
- C. Create the database on a Bare Metal Solution server with the database running on flash storage.
  Keep a local backup copy on standard storage.
  Use the Oracle Recovery Manager (RMAN) backup utility to move backups older than one day to a Coldline Storage bucket.
- D. Create the database on a Bare Metal Solution server with the database running on flash storage.
  Keep a local backup copy on standard storage.
  Keep backups older than one day stored in Actifio OnVault storage.

Answer: D

Explanation:
This answer meets the RTO and RPO requirements by using flash storage for the database and standard storage for the local backup copy. It also meets the cost-effectiveness requirement by using Actifio OnVault storage, which is a low-cost, high-performance, and scalable storage solution that integrates with Google Cloud Backup and DR Service1.

NEW QUESTION # 103

Your organization is running a MySQL workload in Cloud SQL. Suddenly you see a degradation in database performance. You need to identify the root cause of the performance degradation. What should you do?

- A. Use Error Reporting to count, analyze, and aggregate the data.
- B. Use Cloud Monitoring to monitor CPU, memory, and storage utilization metrics.
- C. Use Logs Explorer to analyze log data.
- D. Use Cloud Debugger to inspect the state of an application.

Answer: B

Explanation:
https://cloud.google.com/sql/docs/mysql/diagnose-issues#:~:text=If%20your%20instance%20stops%
20responding%20to%20connections%20or%20performance%20is%20degraded%2C%20make%20sure%

NEW QUESTION # 104

......

We all well know the status of Google certification Professional-Cloud-Database-Engineer exams in the IT area is a pivotal position, but the key question is to be able to get Google Professional-Cloud-Database-Engineer certification is not very simple. We know very clearly about the lack of high-quality and high accuracy exam materials online. Exam practice questions and answers TestkingPass provide for all people to participate in the IT industry certification exam supply all the necessary information. Besides, it can all the time provide what you want. Buying all our information can guarantee you to pass your first Google Certification Professional-Cloud-Database-Engineer Exam.

New Professional-Cloud-Database-Engineer Dumps Files: https://www.testkingpass.com/Professional-Cloud-Database-Engineer-testking-dumps.html

We are 7/24 online service support: whenever you have questions about our Google Professional-Cloud-Database-Engineer study guide, we have professional customer service for you, Any changes taking place in the environment and forecasting in the next Professional-Cloud-Database-Engineer exam will be compiled earlier by them, If your answer is yes then you need to start Channel Partner Program Professional-Cloud-Database-Engineer test preparation with Google Professional-Cloud-Database-Engineer PDF Questions and practice tests, As there are all keypoints in the Professional-Cloud-Database-Engineer practice engine, it is easy to master and it also helps avoid a waste of time for selecting main content.

Self Test Software can be downloaded in more than two Professional-Cloud-Database-Engineer hundreds computers, In the United States, problems with delivery and redemption are still being worked out.

We are 7/24 online service support: whenever you have questions about our Google Professional-Cloud-Database-Engineer Study Guide, we have professional customer service for you, Any changes taking place in the environment and forecasting in the next Professional-Cloud-Database-Engineer exam will be compiled earlier by them.

100% Pass Quiz Google - Fantastic Top Professional-Cloud-Database-Engineer Exam Dumps

If your answer is yes then you need to start Channel Partner Program Professional-Cloud-Database-Engineer test preparation with Google Professional-Cloud-Database-Engineer PDF Questions and practice tests, As there are all keypoints in the Professional-Cloud-Database-Engineer practice engine, it is easy to master and it also helps avoid a waste of time for selecting main content.
