Fortunately, however, you don't have to worry about this kind of problem anymore because you can find the best solution on a powerful Internet - Fundamentals-of-Crew-Leadership Study Materials. With our technology, personnel and ancillary facilities of the continuous investment and research, our company's future is a bright, the Fundamentals-of-Crew-Leadership study materials have many advantages, and now I would like to briefly introduce.

## NCCER Module 46101 Fundamentals of Crew Leadership Sample Questions (Q24-Q29):

### NEW QUESTION # 24

What is a potentially important use of the daily diary that is NOT related to the crew leader's efficient management of work?

- A. recording an OSHA inspection visit
- **B. a source of information during litigation with the client**
- C. scheduling a new-worker orientation session
- D. documenting work completed

**Answer: B**

Explanation:

While the daily diary is crucial for documenting work progress (A), recording important events like OSHA inspections (B), and potentially noting training activities, a potentially important use not directly related to efficient daily management is that it can serve as a source of information during litigation with the client (D) by providing a detailed record of site conditions, work performed, and any relevant incidents. Scheduling a new-worker orientation (C) is more of a planning task than a daily record. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 2.2.3 Maintaining a Daily Log)

### NEW QUESTION # 25

Prohibitions on the abuse of drugs apply

- A. only to using someone else's prescription or overmedicating with prescription drugs.
- B. only to illegal drugs, such as cocaine, crystal meth, and many others like them.
- C. only to illegal and prescription drugs, but no other substances.
- **D. to any inappropriate use of drugs or other substances that cause impairment.**

**Answer: D**

Explanation:

Workplace drug and alcohol policies typically prohibit any inappropriate use of drugs or other substances that cause impairment (B), which can include illegal drugs, prescription drugs taken other than as prescribed, over-the-counter medications, alcohol, and even inhalants if they lead to impairment on the job. The prohibition is not limited to illegal and prescription drugs alone (A), only illegal drugs (C), or only misuse of prescription drugs (D), as impairment from any substance can create safety hazards. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 3.4.1 Understanding Substance Abuse in the Workplace)

### NEW QUESTION # 26

A crew of electricians is needed to run 1,000 feet of conduit, and the estimator determined that two electricians could complete the job in an eight-hour day. What is the required productivity rate per person for the conduit install?

- A. 150 feet per hour
- **B. 62.5 feet per hour**
- C. 31.25 feet per hour
- D. 130 feet per hour

**Answer: B**

Explanation:

Productivity rate is calculated by dividing the total output by the total input (in this case, labor hours).

Total labor hours = 2 electricians \* 8 hours/day = 16 labor hours

Productivity rate = Total conduit / Total labor hours = 1000 feet / 16 hours = 62.5 feet per hour per person.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 4.4.1 Understanding Productivity Rates)

### NEW QUESTION # 27

Insured costs for occupational injuries or deaths include which of the following?

- A. costs of investigations
- **B. pensions for dependents**
- C. cost to train replacement workers
- D. first-aid expenses

**Answer: B**

Explanation:

Insured costs of occupational injuries and deaths are those covered by insurance policies, such as workers' compensation. These typically include pensions for dependents (C) in cases of fatality, as well as medical bills and lost wages. First-aid expenses (A) might be covered but are often a direct cost. Costs of investigations (B) and the cost to train replacement workers (D) are generally considered uninsured or indirect costs.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 3.1.1 Understanding the Costs of Accidents)

#### **NEW QUESTION # 28**

What is the control method that a crew leader uses to plan a few weeks in advance?

- A. daily diary
- B. network schedule
- C. bar chart schedule
- **D. look-ahead schedule**

**Answer: D**

Explanation:

A look-ahead schedule (D) is a short-term planning tool, typically covering a few weeks, that crew leaders use to detail upcoming tasks, resource needs, and potential issues. The daily diary (A) records daily activities, the network schedule (B) is a comprehensive project schedule showing dependencies, and the bar chart schedule (C) provides a visual representation of the project timeline.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 4.2.3 Scheduling Tools)

#### **NEW QUESTION # 29**

.....

To avail of all these benefits you need to pass the Fundamentals-of-Crew-Leadership exam which is a difficult exam that demands firm commitment and complete Fundamentals-of-Crew-Leadership exam questions preparation.
