

Certified NGFW-Engineer Questions - NGFW-Engineer Valid Exam Camp Pdf

www.nwexam.com PDF

Section	Weight	Objectives
		<ul style="list-style-type: none"> - Use APIs to automate deployment - Manage third-party services to deploy NGFWs (e.g., Kubernetes, hypervisors, CSPs, Terraform, Ansible) - Use on-premises centralized management <ul style="list-style-type: none"> • Panorama • Templates and device groups • Pre- and post-ruleset - Build Application Command Center (ACC) dashboards and custom reports

What type of questions are on the Palo Alto NGFW-Engineer exams?

- Single answer multiple choice
- Multiple answer multiple choice
- Drag and Drop (DND)
- Router Simulation
- Testlet

NGFW-Engineer Practice Exam Questions.

Grab an understanding from these [Palo Alto NGFW-Engineer](#) sample questions and answers and improve your NGFW-Engineer exam preparation towards attaining a Next-Generation Firewall Engineer Certification. Answering these sample questions will make you familiar with the types of questions you can expect on the actual exam. Doing practice with Next-Generation Firewall Engineer questions and answers before the exam as much as possible is the key to passing the Palo Alto NGFW-Engineer certification exam.

Next-Generation Firewall Engineer Sample Questions:-

01. What is the function of a Certificate Revocation List (CRL) in a PKI?

- a) Lists expired certificates
- b) Lists certificates that have been revoked before their expiration date
- c) Lists all issued certificates
- d) Lists certificates pending renewal

Answer: b

02. How do Zone Protection Profiles enhance network security?

- a) By providing protection against flood attacks, reconnaissance scans, and packet-based threats

Our NGFW-Engineer study questions are suitable for a variety of levels of users, no matter you are in a kind of cultural level, even if you only have high cultural level, you can find in our NGFW-Engineer training materials suitable for their own learning methods. So, for every user of our NGFW-Engineer Study Materials are a great opportunity, a variety of types to choose from, more and more students also choose our NGFW-Engineer test guide, then why are you hesitating? Just choose our Palo Alto Networks Next-Generation Firewall Engineer study questions!

Palo Alto Networks NGFW-Engineer Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Integration and Automation: This section measures the skills of Automation Engineers in deploying and managing Palo Alto Networks NGFWs across various environments. It includes the installation of PA-Series, VM-Series, CN-Series, and Cloud NGFWs. The use of APIs for automation, integration with third-party services like Kubernetes and Terraform, centralized management with Panorama templates and device groups, as well as building custom dashboards and reports in Application Command Center (ACC) are key topics.

Topic 2	<ul style="list-style-type: none"> • PAN-OS Networking Configuration: This section of the exam measures the skills of Network Engineers in configuring networking components within PAN-OS. It covers interface setup across Layer 2, Layer 3, virtual wire, tunnel interfaces, and aggregate Ethernet configurations. Additionally, it includes zone creation, high availability configurations (active and active • active and active • passive), routing protocols, and GlobalProtect setup for portals, gateways, authentication, and tunneling. The section also addresses IPSec, quantum-resistant cryptography, and GRE tunnels.
Topic 3	<ul style="list-style-type: none"> • PAN-OS Device Setting Configuration: This section evaluates the expertise of System Administrators in configuring device settings on PAN-OS. It includes implementing authentication roles and profiles, and configuring virtual systems with interfaces, zones, routers, and inter-VSYS security. Logging mechanisms such as Strata Logging Service and log forwarding are covered alongside software updates and certificate management for PKI integration and decryption. The section also focuses on configuring Cloud Identity Engine User-ID features and web proxy settings.

NGFW-Engineer Valid Exam Camp Pdf | NGFW-Engineer Latest Dumps Files

Since the childhood, we seem to have been studying and learning seems to take part in different kinds of the purpose of the test, at the same time, we always habitually use a person's score to evaluate his ability. And our NGFW-Engineer study materials can help you get better and better reviews. This is a very intuitive standard, but sometimes it is not enough comprehensive, therefore, we need to know the importance of getting the test NGFW-Engineer Certification, qualification certificate for our future job and development is an important role.

Palo Alto Networks Next-Generation Firewall Engineer Sample Questions (Q110-Q115):

NEW QUESTION # 110

An engineer at a managed services provider is updating an application that allows its customers to request firewall changes to also manage SD-WAN. The application will be able to make any approved changes directly to devices via API.

What is a requirement for the application to create SD-WAN interfaces?

- A. REST API's "sdwanInterfaceprofiles" parameter on a Panorama device
- **B. REST API's "sdwanInterfaces" parameter on a firewall device**
- C. XML API's "sdwanprofiles/interfaces" parameter on a Panorama device
- D. XML API's "InterfaceProfiles/sdwan" parameter on a firewall device

Answer: B

Explanation:

To create SD-WAN interfaces through an API, the correct approach is to use the REST API's "sdwanInterfaces" parameter on a firewall device. This parameter allows you to configure SD-WAN interfaces directly on the firewall devices via API, ensuring that the required interfaces are set up and managed for SD-WAN functionality.

NEW QUESTION # 111

What are the phases of the Palo Alto Networks AI Runtime Security: Network Intercept solution?

- **A. Discovery, Deployment, Detection, Prevention**
- B. Policy Generation, Discovery, Enforcement, Logging
- C. Profiling, Policy Generation, Enforcement, Reporting
- D. Scanning, Isolation, Whitelisting, Logging

Answer: A

Explanation:

The phases of the Palo Alto Networks AI Runtime Security: Network Intercept solution are designed to help identify and protect against potential threats in real time by using AI to detect and prevent malicious activities within the network.

Discovery: Identifying applications, services, and behaviors within the network to understand baseline activity.

Deployment: Implementing the solution into the network and integrating with existing security measures.

Detection: Monitoring traffic and activities to identify abnormal or malicious behavior.

Prevention: Taking action to stop threats once detected, such as blocking malicious traffic or stopping exploit attempts.

NEW QUESTION # 112

During an upgrade to the routing infrastructure in a customer environment, the network administrator wants to implement Advanced Routing Engine (ARE) on a Palo Alto Networks firewall.

Which firewall models support this configuration?

- A. PA-5280, PA-7080, PA-3250, VM-Series
- B. PA-3260, PA-5410, PA-850, PA-460
- C. PA-455, VM-Series, PA-1410, PA-5450
- D. PA-7050, PA-1420, VM-Series, CN-Series

Answer: A

NEW QUESTION # 113

Which zone type allows traffic between zones in different virtual systems (VSYS), without the traffic leaving the firewall?

- A. Transient
- B. Isolated
- C. Internal
- D. External

Answer: D

Explanation:

External zones enable inter-VSYS communication internally on the firewall by associating with a specific VSYS and allowing traffic to traverse to visible external zones of other VSYS, requiring VSYS visibility configuration and security policies from internal zones to/from the external zone.

NEW QUESTION # 114

Palo Alto Networks NGFWs use SSL/TLS profiles to secure which two types of connections? (Choose two.)

- A. NAT tables
- B. User Authentication
- C. GlobalProtect Portal
- D. GlobalProtect Gateways

Answer: C,D

Explanation:

Palo Alto Networks Next-Generation Firewalls (NGFWs) use SSL/TLS profiles to secure connections for services such as GlobalProtect Gateways and GlobalProtect Portals. These profiles are used to manage the SSL/TLS encryption and decryption for secure communication between the firewall and clients (such as VPN clients for GlobalProtect). This helps ensure the confidentiality and integrity of the data during transmission.

NEW QUESTION # 115

.....

For candidates who are going to attend the exam, the pass rate is quite important. NGFW-Engineer training materials of us are pass guaranteed, and if you can't pass the exam one time, we are money back guaranteed. Besides NGFW-Engineer training materials

are verified by skilled experts, therefore the quality and accuracy can be guaranteed, and you can use the NGFW-Engineer Exam Dumps at ease. We also have online and offline chat service stuff, if any other questions, please contact us, we will give a reply to you as quickly as possible.
