PrepAwayPDF offers the complete package that includes all exam dumps conforming to the syllabus for

passing the PMI Agile Certified Practitioner (PMI-ACP)® (PMI-200) exam certificate in the first try.

PMI Agile Certified Practitioner (PMI-ACP)® Sample Questions (Q88-Q93):

NEW QUESTION # 88

Following an upgrade, a software support team is overwhelmed by the number of tickets being submitted by end users. The team's manager is pushing the team to "work smart" by focusing on activities that deliver the most value in the least amount of time. What should the team do?

- A. Work longer hours to complete more of the support backlog.
- **B. Work support tickets in the order in which they were received.**
- C. Place tickets on hold until the team completes an analysis of the backlog to identify and resolve systemic issues.
- D. Add members to the support team.

Answer: B

NEW QUESTION # 89

For the best results in an Agile project, customers should:

- A. approve development plans and tasks.
- B. interview new team members for fit.
- C. set sprint and release schedules.
- **D. set priorities and identify product features.**

Answer: D

NEW QUESTION # 90

The best approach to estimate the work on a project when using story points is to have:

- A. The most senior team member prepare the estimates.
- **B. The team work together to agree on estimates in a group setting.**
- C. Two or three senior team members estimate and take the average of their times.
- D. Team members assign estimates by averaging Planning Poker cards.

Answer: B

NEW QUESTION # 91

An agile team has defined their definition of done (DoD) for a sprint. However, during the demo, the product owner is not sure if a user story can be marked as done.

Select the most appropriate sequence of activities that would need to be completed to meet a well-defined, mature definition of done (DoD).

- A. Code is unit tested, all acceptance criteria are met, business testing passed, code is merged, code is peer reviewed, and documentation is updated.
- B. Code is unit tested, code is peer reviewed, functional testing is passed, business testing is passed, and all acceptance criteria are met.
- C. All acceptance criteria are met, documentation is updated, functional testing is passed, business testing is passed, and code is peer reviewed.
- **D. Code is unit tested, all acceptance criteria are met, business testing is passed, functional testing is passed, code is merged, and documentation is updated.**

Answer: D

Explanation:

A well-defined, mature Definition of Done (DoD) ensures that all aspects of a user story are completed, tested, reviewed, and integrated into the codebase. This sequence includes all necessary steps:

Unit testing ensures the code works as expected.

Meeting the acceptance criteria ensures that the business needs are met.
 Business testing and functional testing confirm the product works from both the business and technical perspectives.
 Code merging ensures that the feature is integrated into the main branch.
 Updating documentation ensures that the product is well-documented for future reference and use.

NEW QUESTION # 92

The following chart lists stories for a release of an Agile project:

Story	Story Points
A	4
B	5
C	6
D	5
E	4
F	6
G	1

If the velocity of the team is 10, how many iterations will be needed to complete all of the stories?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

NEW QUESTION # 93

.....

With high pass rate of 99% to 100% of our PMI-200 training guide, obviously such positive pass rate will establish you confidence as well as strengthen your will to pass your exam. No other vendors can challenge our data in this market. At the same time, by studying with our PMI-200 practice materials, you avoid wasting your precious time on randomly looking for the key point information, and being upset about the accuracy when you compare with the information with the exam content. Our PMI-200 Training Materials provide a smooth road for you to success.
