The C-S4TM-2023 quiz torrent we provide is compiled by experts with profound experiences according to the latest development in the theory and the practice so they are of great value. Please firstly try out our product before you decide to buy our product. It is worthy for you to buy our C-S4TM-2023 Exam Preparation not only because it can help you pass the exam successfully but also because it saves your time and energy. Your satisfactions are our aim of the service and please take it easy to buy our C-S4TM-2023 quiz torrent.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition - Transportation Management Sample Questions (Q51-Q56):

NEW QUESTION # 51

What do you need to do when creating a custom calculation base?

- A. Implement a new helper class
- B. Define a resolution base for the calculation base
- C. Define a new charge type for the calculation base
- D. Define a scale base for the calculation base

Answer: B

NEW QUESTION # 52

Which of the following profiles is directly assigned to an organizational unit?

- A. Charges profile
- B. Distribution profile
- C. Settlement profile
- D. Calculation profile

Answer: B

NEW QUESTION # 53

In SAP TM, tracking functionality is provided via integration with SAP Event Management. Determine whether this statement is true or false.

- A. true
- B. false

Answer: A

NEW QUESTION # 54

In a buyer's consolidation scenario, who is responsible for triggering the creation of the import business documents in SAP Transportation Management?

- A. Shipper

- B. Export organization
- C. Import organization
- D. Carrier

Answer: B

NEW QUESTION # 55

You add an assessorial charge to a freight order after the freight settlement document (FSD) has been posted and accruals have been booked in materials management. The background report to create FSDs determines change strategy "Reverse and Repost with new FSD" for this freight order. What will you see in transportation management and materials management? Note: There are 2 correct answers to this question.

- A. 3 service entry sheets in materials management
- B. 1 purchase order in materials management
- C. 3 FSDs in transportation management
- D. 2 FSDs and 1 credit memo in transportation management

Answer: C,D

Explanation:

When an assessorial charge is added to a freight order after the initial freight settlement document (FSD) is posted, and the change strategy is set to "Reverse and Repost with new FSD," the system handles the update as follows, according to SAP documentation:

- * 2 FSDs and 1 credit memo in transportation management (B): The original FSD is reversed with a credit memo, and a new FSD is created to include the assessorial charge, resulting in two FSDs (the original and the new) and one credit memo.

- * 3 FSDs in transportation management (C): This includes the original FSD, the credit memo (counted as a separate document in some configurations), and the new FSD with the updated charges.

The other options are incorrect:

- * 1 purchase order in materials management (A) is not guaranteed, as the number of purchase orders depends on the original setup and may not change with the FSD update.

- * 3 service entry sheets in materials management (D) is unlikely, as typically one service entry sheet is updated or replaced, not multiplied, during the reversal and reposting process.
