Salesforce Certified Platform Development Lifecycle and Deployment Architect Sample Questions (Q190-Q195):

NEW QUESTION # 190

Universal Container has multiple departments who use Salesforce and request changes: Sales, Service, Back Office, Marketing, etc. Each of these departments makes independent purchase decisions for AppExchange apps, field requests, and page layouts, resulting in low adoption and under-use of standard Salesforce capabilities. What mechanism should a Technical Architect recommend to increase use of standard Salesforce functionality?

- A. Center of Excellence
- B. Project Management Office
- C. Requirements Traceability Matrix
- D. Change Control Board

Answer: A

NEW QUESTION # 191

Universal Containers (CUC) has multiple teams working on different projects. Multiple projects will be deployed to many production orgs. During code reviews, the architect finds inconsistently named variables and lack of best practices.

What should an architect recommend to improve consistency?

- A. Require pull requests to be reviewed by two developers before merging.
- B. Create a Center of Excellence for release management.
- **C. Use static code analysis to enforce coding standards.**
- D. Execute regression testing before code can be committed.

Answer: C

NEW QUESTION # 192

Universal Containers (UC) is embarking on a large program of work, with different projects and different vendors. UC created a center of excellence (COE) that is struggling with scope creep between the different projects.

What role should the architect suggest be added to the COE?

- A. Change managers
- B. Product owner
- **C. Scrum master**
- D. Release managers

Answer: C

NEW QUESTION # 193

Universal Containers (CUC) is hiring offshore agile development teams to decrease costs and enhance UC's capability of delivering new features to its customers. However, the CTO is not able to follow or measure the work of those teams.

What should an architect recommend to increase transparency?

- A. Request the offshore teams to send daily emails to the CTO with the progress of the teams.
- B. Schedule a daily stand-up meeting with representatives of all offshore teams to share the progress of the teams.
- **C. A Request the offshore teams to share their work in progress in a virtual Kanban board tool.**
- D. Ask the offshore teams to add their progress and status in a shared spreadsheet.

Answer: C

NEW QUESTION # 194

Universal Containers is a global organization that maintains regional production instances of Salesforce. One region has created a new application to track shipping containers.

The CIO has requested that this new application be used globally by all the Salesforce instances and further maintained and modified regionally by local administrators.

Which two deployment tools will support the request?

Choose 2 answers

- A. Developer Console
- B. Change Sets B
- **C. ANT Migration Tool**
- **D. VS Code with Salesforce Extension**

Answer: C,D

NEW QUESTION # 195

.....
