Hotspot Question

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements

Yes

No

Security roles are modified in Microsoft Azure Active Directory.

Security Roles are assigned to each table.

Answer:

Explanation:

Answer Area

Statements

Security roles are modified in Microsoft Azure Active Directory.

Security Roles are assigned to each table.

Yes **No**

Explanation:

Box 1: Yes

You can't modify the built-in security roles, other than add administrative users. You can copy the role, make changes, and then save these changes as a new custom security role.

Note: A security role defines how different users, such as salespeople, access different types of records. To control access to data, you can modify existing security roles, create new security roles, or change which security roles are assigned to each user.

Box 2: No

Security roles are assigned to users and to groups, not to tables.
