

# 100% Pass Quiz 2026 Updated The Open Group OGEA-101: Reliable TOGAF Enterprise Architecture Part 1 Exam Test Pattern

2026 Latest ITdumpsfree OGEA-101 PDF Dumps and OGEA-101 Exam Engine Free Share: <https://drive.google.com/open?id=1VzHJs-7hjo7dBLCSysQL-cjzsaPkJ3jF>

Before purchasing our OGEA-101 practice guide, we will offer you a part of questions as free demo for downloading so that you can know our OGEA-101 exam question style and PDF format deeper then you will feel relieved to purchase certification OGEA-101 study guide. We try our best to improve ourselves to satisfy all customers' demands. If you have any doubt or hesitate, please feel free to contact us about your issues. If you have doubt about our OGEA-101 Exam Preparation questions the demo will prove that our product is helpful and high-quality.

## The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 exam.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Implementation Governance: This topic of The Open Group OGEA-101 Exam emphasizes the governance framework for architecture implementation, including compliance processes. It measures the understanding of TOGAF practitioners about governance principles, a key competency for the OGEA-101 exam.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Business Architecture: This topic of The Open Group OGEA-101 exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.</li></ul>

Topic 5	<ul style="list-style-type: none"> <li>• Architecture Vision: Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 exam and implementing enterprise architecture.</li> </ul>

## OGEA-101 Latest Test Question | OGEA-101 Accurate Test

And you can also use the The Open Group OGEA-101 PDF on smart devices like smartphones, laptops, and tablets. The second one is the web-based The Open Group OGEA-101 practice exam which can be accessed through the browsers like Firefox, Safari, and Google Chrome. The customers don't need to download or install excessive plugins or software to get the full advantage from web-based OGEA-101 Practice Tests.

### The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q108-Q113):

#### NEW QUESTION # 108

Consider the illustration.

What are the items labelled A, B and C?

- A. A-Enterprise Architecture, B-Architecture Building Blocks, C-Solutions Building Blocks
- B. A-Enterprise Strategic Architecture, B-Segment Architecture, C-Solutions Architecture
- **C. A-Enterprise Continuum, B-Architecture Continuum, C-Solutions Continuum**
- D. A-Architecture Vision, B-Business Architecture, C-Information Systems Architecture

**Answer: C**

Explanation:

The illustration shows the relationship between the Enterprise Continuum, the Architecture Continuum, and the Solutions Continuum, which are key concepts in the TOGAF framework. The Enterprise Continuum is a view of the Architecture Repository that shows how generic foundation architectures can be leveraged and specialized to support the requirements of an individual organization. The Architecture Continuum specifies a structured classification for architectural artifacts, such as models, patterns, and descriptions, that can be reused and adapted across different domains and levels of abstraction. The Solutions Continuum identifies implemented solutions that support various stages of business and IT capability evolution, such as common systems, industry solutions, and organization-specific solutions. The illustration also shows how the architecture context and requirements are influenced by external factors, such as business drivers, stakeholders, and standards, and how they shape the generic and specific architectures and solutions. The illustration also shows how the deployed solutions become part of the architecture context for future iterations of the architecture development cycle. References:

\*TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 6: Architecture Repository, Section 6.2

Enterprise Continuum

\*TOGAF Standard, 10th Edition, Part IV: Architecture Content Framework, Chapter 35: Enterprise Continuum and Tools, Section 35.1 Introduction.

#### NEW QUESTION # 109

Which of the following describes a purpose of Architecture Principles?

- A. To describe likely impacts resulting from successful deployment of the target architecture.
- B. To form a contract between sponsoring organization and the enterprise architects
- **C. To establish a common understanding of how to control the business in pursuit of strategic objectives**
- D. To provide a better understanding about the enterprise's culture and values

**Answer: C**

Explanation:

Architecture Principles are general rules and guidelines that inform and support the way in which an organization sets about fulfilling

its mission. They reflect a level of consensus among the various elements of the enterprise, and form the basis for making future IT decisions. One of the purposes of Architecture Principles is to establish a common understanding of how to control the business in pursuit of strategic objectives, by providing a framework for evaluating and agreeing on the changes that affect the enterprise's architecture<sup>3</sup> References: 3: The TOGAF Standard, Version 9.2, Part III: ADM Guidelines and Techniques, Chapter 23: Architecture Principles : The TOGAF Standard, Version 9.2, Part IV: Architecture Content Framework, Chapter 31: Architecture Principles

#### NEW QUESTION # 110

Which of the following are two of the architecture domains that are considered as subsets of an overall Enterprise Architecture?

- A. Business, Technology
- B. Vision, Target
- C. Strategy, Enterprise
- D. Technology, Digital

**Answer: A**

Explanation:

In the TOGAF Standard, the concept of an Enterprise Architecture is broken into several primary architecture domains. These domains provide a structured way to describe the enterprise from multiple perspectives that collectively support transformation and governance. TOGAF specifies four core architecture domains:

Business Architecture, Data Architecture, Application Architecture, and Technology Architecture. These domains, when combined, form a comprehensive view of how the enterprise functions, how information flows, how systems interact, and what technologies support the organization.

Among the choices provided, only Business and Technology are officially recognized architecture domains in TOGAF. The Business Architecture describes business strategy, governance, organization, and key processes.

The Technology Architecture defines the logical and physical technology infrastructure necessary to support mission-critical applications and data. The other answer options do not represent TOGAF architecture domains; for example, "Strategy," "Vision," "Target," or "Digital" are not formal architecture domains in TOGAF. Thus, the pair that correctly identifies subsets of an enterprise architecture according to the TOGAF framework is Business and Technology Architecture.

#### NEW QUESTION # 111

Complete the following sentence. In the ADM, documents which are under development and have not undergone any formal review and approval process are called \_\_\_\_\_. Documents which have been reviewed and approved are called \_\_\_\_\_.

- A. "concept" - "deliverable"
- B. "draft" - "finalized"
- C. "Version 0.1" - "Version 1.0"
- D. "draft" - "approved"

**Answer: D**

Explanation:

According to the TOGAF Standard, 10th Edition, documents which are under development and have not undergone any formal review and approval process are called draft documents, while documents which have been reviewed and approved are called approved documents. Draft documents are typically marked with a version number of 0.x, indicating that they are incomplete or provisional. Approved documents are typically marked with a version number of 1.0 or higher, indicating that they have been finalized and authorized. The other options are not correct, as they are not the terms used by the TOGAF Standard to distinguish between documents under development and documents that have been reviewed and approved. The terms "finalized", "concept", "deliverable", and "Version 0.1" and "Version 1.0" are not specific to the TOGAF Standard, and they may have different meanings or interpretations in different contexts. Reference: 1: TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 7: Applying Iteration to the ADM, Section 7.2.3 Document Categorization.

#### NEW QUESTION # 112

Complete the sentence When considering agile development Architecture to Support Project will identify what products the Enterprise needs the boundary of the products and what constraints a product owner has. this defines the Enterprise's \_\_\_\_\_.

- A. workflow management
- B. lifecycle economics
- **C. backlog**
- D. operations

**Answer: C**

Explanation:

When considering agile development, Architecture to Support Project will identify what products the enterprise needs, the boundary of the products, and what constraints a product owner has. This defines the enterprise's backlog. A backlog is a list of features or tasks that need to be done to deliver a product or service. It is prioritized by the product owner based on the value and urgency of each item. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.5 Architecture to Support Project.

## NEW QUESTION # 113

.....

If you still feel nervous for the exam, our OGEA-101 Soft test engine will help you to release your nerves. OGEA-101 Soft test engine can stimulate the real environment, and you can know the general process of exam by using the exam dumps. What's more, we provide you with free update for one year, and you can get the latest information for the OGEA-101 Learning Materials in the following year. We have online service stuff, if you have any questions about the OGEA-101 exam braindumps, just contact us.
