

# New Latest OGEA-101 Test Objectives | Latest OGEA-101: TOGAF Enterprise Architecture Part 1 Exam 100% Pass

What's more, part of that ExamBoosts OGEA-101 dumps now are free: [https://drive.google.com/open?id=15rU\\_8uN54iTTfD6F13ObYdocTj4OZA8y](https://drive.google.com/open?id=15rU_8uN54iTTfD6F13ObYdocTj4OZA8y)

The ExamBoosts guarantees their customers that if they have prepared with The Open Group OGEA-101 practice test, they can pass the The Open Group OGEA-101 certification easily. If the applicants fail to do it, they can claim their payment back according to the terms and conditions. Many candidates have prepared from the actual The Open Group OGEA-101 Practice Questions and rated them as the best to study for the examination and pass it in a single try with the best score.

There are free demos giving you basic framework of OGEA-101 practice materials. All are orderly arranged in our practice materials. After all high-quality demos rest with high quality OGEA-101 practice materials, you can feel relieved with help from then. We offer free demos as your experimental tryout before downloading our real OGEA-101 practice materials. For more textual content about practicing exam questions, you can download our OGEA-101 practice materials with reasonable prices and get your practice begin within 5 minutes.

## Pass Guaranteed Quiz 2026 The Open Group OGEA-101: TOGAF Enterprise Architecture Part 1 Exam Authoritative Latest Test Objectives

Our OGEA-101 Practice Materials are compiled by first-rank experts and OGEA-101 Study Guide offer whole package of considerate services and accessible content. Furthermore, OGEA-101 Actual Test improves our efficiency in different aspects. Having a good command of professional knowledge will do a great help to your life. With the advent of knowledge times, we all need some professional certificates such as OGEA-101 to prove ourselves in different working or learning condition.

### The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
-------	---------

Topic 1	<ul style="list-style-type: none"> <li>• Business Architecture: This topic of The Open Group OGEA-101 exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 exam.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• Architecture Vision: Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 Exam and implementing enterprise architecture.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.</li> </ul>

## The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q91-Q96):

### NEW QUESTION # 91

Complete the sentence Business Transformation Readiness Assessment is \_\_\_\_\_.

- A. to ensure the active support of powerful stakeholders
- B. a way to put building blocks into context thereby supporting re-usable solutions
- C. widely used to validate an architecture that is being developed
- D. a joint effort between corporate staff lines of business and IT planners

**Answer: D**

### NEW QUESTION # 92

What does the TOGAF ADM recommend for use in developing an Architecture Vision document?

- A. Requirements Management
- B. Business Scenarios
- C. Architecture Principles
- D. Gap Analysis

**Answer: B**

Explanation:

Business scenarios are a technique recommended by the TOGAF ADM for use in developing an Architecture Vision document<sup>12</sup>. Business scenarios are a means of capturing the business requirements and drivers, the processes and actors involved, and the desired outcomes and measures of success<sup>34</sup>. Business scenarios help to create a common vision and understanding among the stakeholders, and to identify and validate the architecture requirements . Business scenarios also provide a basis for analyzing the impact and value of the proposed architecture. Reference:

\* The TOGAF Standard, Version 9.2 - Phase A: Architecture Vision - The Open Group

- \* TOGAF Standard - Introduction - Phase A: Architecture Vision

- \* Business Scenarios - The Open Group
- \* [The TOGAF Standard, Version 9.2 - Architecture Requirements Specification - The Open Group]
- \* [The TOGAF Standard, Version 9.2 - Architecture Vision - The Open Group]
- \* [The TOGAF Standard, Version 9.2 - Business Transformation Readiness Assessment - The Open Group]

#### NEW QUESTION # 93

Which of the following best describes the class of information known as the Reference Library within the Architecture Repository?

- A. A record of the governance activity across the enterprise
- B. Processes to support governance of the Architecture Repository
- C. Specifications to which architectures must conform
- D. Guidelines and templates used to create new architectures

**Answer: D**

Explanation:

The class of information known as the Reference Library within the Architecture Repository contains guidelines and templates used to create new architectures. The Reference Library provides a set of resources that can be leveraged or customized for specific architecture development purposes. It includes generic building blocks, patterns, models, standards, frameworks, methods, techniques, best practices, etc. Reference: The TOGAF Standard | The Open Group Website, Section 2.4 Architecture Repository.

#### NEW QUESTION # 94

Which one of the following classes of information within the Architecture Repository would typically contain a list of the applications in use within the enterprise?

- A. Architecture Metamodel
- B. Governance Log
- C. Architecture Landscape
- D. Reference Library

**Answer: C**

Explanation:

The Architecture Landscape is a class of information within the Architecture Repository that shows an architectural view of the building blocks that are in use within the organization today (the Baseline Architecture), as well as those that are planned for the future (the Target Architecture). The Architecture Landscape typically contains a list of the applications in use within the enterprise, along with their relationships and dependencies, as well as other relevant architectural information. The Architecture Landscape helps to identify opportunities for re-use, consolidation, or retirement of existing applications, as well as gaps or overlaps in the current or future architecture.

The TOGAF Standard, Version 9.2, Part IV: Architecture Content Framework, Chapter 34: Architecture Landscape : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 47: Architecture Repository

#### NEW QUESTION # 95

Consider the following ADM phases objectives.

Objective

- 1- Determine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous business value
- 2- Generate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D
- 3- Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan
- 4- Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders Which phase does each objective match?

- A. 1E-2F-3E-4F

- B. 1G-2E-3F-4F
- C. 1F-2E-3F-4G
- D. 1E-2E-3F-4F

**Answer: B**

Explanation:

According to the TOGAF standard, the objectives of each ADM phase are as follows:

\* Phase E: Opportunities and Solutions

o Determine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous business value  
 o Identify and group major work packages within the Architecture Roadmap  
 o Identify and group major implementation projects to realize the Architecture Roadmap  
 o Identify dependencies between increments and projects  
 o Estimate cost, benefit, and risk at a high level for each increment and project  
 o Conduct initial prioritization and sequencing of the Architecture Roadmap and projects

\* Phase F: Migration Planning

o Generate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D  
 o Confirm the Transition Architectures with relevant stakeholders  
 o Create the Implementation and Migration Plan, including Transition Architectures, work packages, projects, and other activities  
 o Confirm and agree the Architecture Roadmap and Implementation and Migration Plan with relevant stakeholders

\* Phase G: Implementation Governance

o Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan  
 o Ensure conformance with the Target Architecture by implementation projects  
 o Perform appropriate Architecture Governance functions for the solution and any implementation-driven architecture Change Requests  
 o Ensure that the architecture lifecycle is maintained  
 o Ensure that the Architecture Governance Framework is executed

\* Phase H: Architecture Change Management

o Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders  
 o Manage risks and issues related to the Architecture Roadmap and Implementation and Migration Plan  
 o Monitor the implementation projects and Transition Architectures  
 o Manage changes to the architecture baseline  
 o Manage changes to the Architecture Capability  
 Therefore, the correct matching of the objectives and the phases is:

\* 1G: Determine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous business value

\* 2E: Generate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D

\* 3F: Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan

\* 4F: Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders

## NEW QUESTION # 96

.....

Our company has spent more than 10 years on compiling OGEA-101 study materials for the exam in this field, and now we are delighted to be here to share our OGEA-101 learnign guide with all of the candidates for the exam in this field. There are so many striking points of our OGEA-101 Preparation exam. If you want to have a better understanding of our OGEA-101 exam braindumps, just come and have a try!
