NEW QUESTION # 26

U+ Bank, a retail bank, has purchased Pega Customer Decision Hub. The bank currently uses an external tool to design email content and a third-party email service provider to send emails to its customers.

As a decisioning architect, how do you recommend the bank implements this requirement?

- A. Create an internal email treatment and import the email content HTML.
- B. Create an external email treatment and use an external tool to design the email.
- C. Create an internal email treatment and use Customer Decision Hub to design the email.
- D. Create an external email treatment and use Customer Decision Hub to design the email.

Answer: B

Explanation:

To implement this requirement, you need to create an external email treatment and use an external tool to design the email. An external email treatment is a type of treatment that allows you to use a third-party email service provider to send emails to your customers. You can configure the external email treatment with the name of the provider, the authentication details, and the template ID that corresponds to the email content that you design using an external tool. This way, you can leverage your existing tools and processes for sending emails, while still using Customer Decision Hub to select the best actions and treatments for your customers.
