Team of PDFDumps is dedicated to giving Fortinet FCP_FMG_AD-7.6 exam takers the updated FCP_FMG_AD-7.6 practice exam material to enable them to clear the exam in one go. Our customers may be sure they are getting the Fortinet FCP_FMG_AD-7.6 Real Exam Questions PDF from PDFDumps for speedy preparation. You can also carry the FCP_FMG_AD-7.6 PDF exam questions in hard copy as they are printable as well.

Fortinet FCP_FMG_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	This section of the exam measures the skills of System Administrators and focuses on resolving problems at different levels of FortiManager. Candidates must troubleshoot deployment scenarios, imports, installations, and both device-level and ADOM-level issues, as well as identify and resolve system problems effectively.
Topic 3	Administration: This section of the exam measures the skills of System Administrators and covers the essential features of FortiManager. It includes the initial configuration process and the setup of administrative domains (ADOMs), ensuring smooth system management.

Topic 5	Policy and Objects: This section of the exam measures the skills of System Administrators and evaluates their ability to manage policies and objects within FortiManager. It involves ADOM revisions, workspace mode, and policy imports and installations, emphasizing consistent policy control across networks.
Topic 6	Device Manager: This section of the exam measures the skills of Network Security Engineers and focuses on registering devices within ADOMs and handling device configurations. Candidates also learn how to install changes through scripts and diagnose issues using the revision history.

Free PDF Quiz 2026 Fortinet Authoritative Exam FCP_FMG_AD-7.6 Dumps

PDFDumps also offers simple and easy-to-use FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) Dumps PDF files of real Fortinet FCP_FMG_AD-7.6 exam questions. It is easy to download and use on smart devices. Since it is a portable format, it can be used on a smartphone, tablet, or any other smart device. This FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) PDF file contains the most probable actual FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) exam questions.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q46-Q51):

NEW QUESTION # 46

Refer to the exhibit. Which two statements about the output are true? (Choose two.)

<pre>FortiManager # diagnose dvm device list --- There are currently 6 devices/vdoms managed --- --- There are currently 6 devices/vdoms count for license ---</pre>										
TYPE	OID	SN	HA	IP	NAME	ADOM	IPS	FIRMWARE	HW_GenX	
fmgfaz-managed	188	FGVM02TM24013504	-	100.65.1.111	BR1-FGT-1	My_ADOM	7.0 MR6 (3401)	N/A		
<pre> - STATUS: dev-db: not modified; conf: in sync; cond: pending; dm: installed; conn: up; template:[modified]default - vdom:[3]root flags:0 adom:My_ADOM pkg:[imported]BR1-FGT-1</pre>										

- A. Configuration changes have been installed on FortiGate, updating policy and device-level database.
- B. The latest revision history for the managed FortiGate does match the FortiManager policy database.
- C. The system template default will override device-level database configurations.
- D. The latest revision history for the managed FortiGate does not match the device-level database.

Answer: C,D

Explanation:

The status "pending" indicates the latest revision history does not match the device-level database, meaning there are unapplied changes.

The template is marked as [modified], so the system template default will override device-level database configurations when installed.

NEW QUESTION # 47

What is the purpose of ADOM revisions?

- A. ADOM revisions compare previous snapshots of the Policy Package and ADOM-level objects with the device-level database.
- B. ADOM revisions find unused, duplicate, and unnecessary firewall policies and objects.
- C. ADOM revisions save the current state of all policy packages and objects for an ADOM.
- D. ADOM revisions show specific changes in a policy package when it is installed.

Answer: C

Explanation:

ADOM revisions save the current state of all policy packages and objects within an ADOM, allowing administrators to track changes over time and revert to previous configurations if needed.

NEW QUESTION # 48

What is the best explanation of how FortiManager helps with mass provisioning?

- A. It provides local FortiGuard Distribution Server (FDS) services to the network.
- B. It upgrades the OS of each FortiGate device.
- C. It sends email alerts when new devices connect.
- D. It uses templates to configure the same settings on many devices simultaneously.

Answer: D

Explanation:

FortiManager helps with mass provisioning by using templates that allow administrators to configure the same settings on multiple FortiGate devices simultaneously, streamlining deployment and management.

NEW QUESTION # 49

An administrator must create a policy and install it on a FortiGate device within an ADOM in backup mode. How can the administrator perform this task?

- A. Make sure the ADOM and FortiGate firmware versions match and use the ADOM policy package.
- B. Use a FortiManager script to apply the configuration changes.
- C. Use the Install Wizard located on the device manager.
- D. Enable workflow mode to allow policy creation and approval.

Answer: B

Explanation:

In backup mode, FortiManager does not directly manage policy installation via the usual ADOM policy packages; instead, administrators use FortiManager scripts to push configuration changes, including policies, to FortiGate devices.

NEW QUESTION # 50

Refer to the exhibits. An administrator added BR1-FGT-1 to FortiManager and started importing the policy package. During the process, they saw that they need to choose values from FortiGate or FortiManager.

Which conclusion is most clearly supported by the exhibits?

Import device window

Import Device - BR1-FGT-1 - Object Conflicts (3/5)

The following objects were found having conflicts. Please confirm your settings, then continue.

Conflicts (3)

Download Conflict File

Category	Name	Use Value From	
		FortiGate FortiManager	
Webfilter Profile (1)	default	FortiGate FortiManager	View Conflict
Firewall Profile-Protocol-Options (1)	default	FortiGate FortiManager	View Conflict
Firewall SSL-SSH-Profile (1)	no-inspection	FortiGate FortiManager	View Conflict

3 Selected 3

Next > Cancel

View conflict windows

Webfilter Profile (1)		Firewall Profile-Protocol-Options (1)		Firewall SSL-SSH-Profile (1)	
default		default		no-inspection	
FortiGate	FortiManager	FortiGate	FortiManager	FortiGate	FortiManager
webfilter_prof_ftgd_wf		comment	All default services. All services.	fw_ssl_ssh_profile_https	
webfilter_prof_ftgd_wf_filters				ports	443
28				fw_ssl_ssh_prof_dot	
action	block			unsupported-ssl-version	block
35	monitor			quic	inspect
webfilter_prof_url_extraction					bypass

- A. The default Firewall Profile-Protocol-Options object is the only profile that does not significantly affect any configuration changes on either FortiManager or FortiGate.
- B. FortiManager has a different FortiGuard database compared to FortiGate BR1-FGT-1 for the QUIC protocol.
- C. BR1-FGT-1 does not support the SSL/SSH profile with HTTPS on port 443.
- D. The administrator must match the FortiOS firmware version with the FortiManager ADOM firmware version to resolve the conflict status.

Answer: A

Explanation:

The conflict is only the comment. It doesn't affect any important configuration.

NEW QUESTION # 51

.....

With the intense competition in labor market, it has become a trend that a lot of people, including many students, workers and so on, are trying their best to get a FCP_FMG_AD-7.6 certification in a short time. The FCP_FMG_AD-7.6 exam prep is produced by our expert, is very useful to help customers pass their exams and get the certificates in a short time. We are going to show our FCP_FMG_AD-7.6 Guide braindumps to you. We can sure that our product will help you get the certificate easily. If you are willing to believe us and try to learn our FCP_FMG_AD-7.6 exam torrent, you will get an unexpected result.
