Hottest DevOps-Foundation Certification & DevOps-Foundation Reliable Exam Cost

The Peoplecert DevOps-Foundation desktop exam simulation software works only on Windows but the web-based DevOps-

Foundation practice test is compatible with all operating systems and browsers. This is also an effective format for DevOps-Foundation Test Preparation. The DevOps-Foundation PDF dumps is an easily downloadable and printable file that carries the most probable Peoplecert DevOps-Foundation actual questions.

Peoplecert PeopleCert DevOps Foundation v3.6 Exam Sample Questions (Q10-Q15):

NEW QUESTION # 10

Successful DevOps relies on the adoption and integration of multiple frameworks including:

- A. A shared vision, goals, and incentives
- **B. Agile, ITSM, and Lean**
- C. Agile Service Management, Change Management, and Release Management
- D. Value Stream Management, Lean, Agile

Answer: B

Explanation:

DevOps is not a standalone framework-it draws from several methodologies and frameworks to achieve its goals. PeopleCert emphasizes the integration of:

* Agile for iterative delivery, customer collaboration, and responsiveness

* ITSM for effective service delivery and operational stability

* Lean for waste elimination, flow optimization, and continuous improvement While A lists relevant processes, they are subsets rather than foundational frameworks. C describes cultural alignment but is not a set of frameworks. D includes valuable concepts but does not match the official trio highlighted in PeopleCert's materials.

Thus, B is correct.

References:

PeopleCert DevOps Foundation v3.6 - Integration of Frameworks

The DevOps Handbook- Cross-Framework Integration

NEW QUESTION # 11

The Deming Cycle (Plan-Do-Check-Act) plays a key role in which Lean practice?

- A. DOWNTIME
- **B. Improvement Kata**
- C. Value Stream Mapping
- D. Andon cord

Answer: B

Explanation:

The Deming Cycle (Plan-Do-Check-Act) is foundational to continuous improvement in Lean, and is specifically applied in the Improvement Kata practice:

* Improvement Kata: A structured routine for continuous, incremental improvement based on scientific thinking (PDCA).

* Value Stream Mapping and Andon cord are Lean practices, but they don't directly reference PDCA as the core mechanism.

Extract-style reference:

"The Improvement Kata incorporates the Deming cycle (Plan-Do-Check-Act) to drive small, rapid cycles of change, helping teams to experiment, learn, and adjust."

-Toyota Kata, Mike Rother

PeopleCert DevOps Foundation v3.6: Cites PDCA as integral to continuous improvement and Lean /DevOps adoption.

NEW QUESTION # 12

The last release of a critical application contained an error that significantly impacted the business. While the error was detected immediately after release, the situation was not resolved in a timely manner. During the retrospective, it was identified that many of the delays were the result of poor communication and collaboration between development and operational teams.

What steps could the IT organization take to improve its response and resolution in the future?

- A. Use social media to communicate between teams
- B. Introduce self-help tools to empower users to solve their own problems
- **C. Implement chat platforms for faster access and collaboration**
- D. Increase the number of people that are alerted when an error occurs

Answer: C

Explanation:

Poor communication and collaboration slow incident resolution. DevOps emphasizes fast, transparent communication channels between Dev, Ops, and other stakeholders. Implementing chat platforms (e.g., Slack, Microsoft Teams) that integrate with monitoring, alerting, and deployment tools enables:

- * Real-time collaboration across geographically distributed teams
- * Immediate sharing of incident context and system data
- * Faster decision-making and coordinated action

A (alerting more people) risks causing noise without improving targeted response. B (social media) is not secure or appropriate for enterprise incident management. C (self-help tools) benefits end-users but does not address Dev-Ops collaboration.

Thus, D provides the most direct and effective improvement in communication for faster incident resolution.

NEW QUESTION # 13

Which of the following is NOT a characteristic of DevOps?

- A. Working towards a common goal
- B. World-class stability, reliability, availability and security
- C. Ensuring overall organizational success
- **D. Fast flow of unplanned work into production**

Answer: D

Explanation:

A fast flow of unplanned work into production is not a characteristic of DevOps. In fact, DevOps practices strive to minimize unplanned work (like emergency changes or outages) through automation, testing, collaboration, and rigorous change control. The other options—ensuring organizational success, working toward a common goal, and world-class stability/reliability—are all key DevOps characteristics.

Reference: DevOps Foundation v3.6 syllabus section 1.4; State of DevOps Report.

NEW QUESTION # 14

An organization is struggling to reduce delays when launching new projects.

Which of the following automation practices could help reduce these delays?

- A. Treating infrastructure as code
- B. Test-driven development
- **C. All of the Above**
- D. Automated continuous integration and builds

Answer: C

Explanation:

Reducing delays in launching projects requires eliminating manual, time-consuming tasks in the delivery process:

- * A: Continuous Integration (CI) with automated builds speeds up integration and reduces defects.
- * B: Test-Driven Development (TDD) ensures quality from the start, reducing rework and post-development bug fixing.
- * C: Infrastructure as Code (IaC) enables rapid, repeatable provisioning of environments, avoiding manual setup delays.

All three practices contribute to faster, more reliable project starts. As PeopleCert notes, combining these practices creates a strong automation foundation, enabling organizations to move from idea to delivery quickly.

Therefore, D-All of the above-is correct.

NEW QUESTION # 15

.....

Our DevOps-Foundation exam guide has high quality of service. We provide 24-hour online service. If you have any questions in the course of using the DevOps-Foundation exam questions, you can contact us by email. We will provide you with excellent after-sales service with the utmost patience and attitude. And we will give you detailed solutions to any problems that arise during the course of using the DevOps-Foundation practice torrent. And our DevOps-Foundation study materials welcome your supervision and criticism. With the company of our DevOps-Foundation study materials, you will find the direction of success.

Hottest DevOps-Foundation Certification: https://www.real4test.com/DevOps-Foundation_real-exam.html

Thirdly, perfect DevOps-Foundation practice materials like us even provide you the opportunities to own goal, ideal struggle, better work, and create a bright future, Peoplecert DevOps-Foundation Exam Dumps With passing rate up to 98 to 100 every year, which is an amazing record hard to challenge for other competitors, we are on our way to being better, Peoplecert DevOps-Foundation Exam Dumps According to customers' needs, our product was revised by a lot of experts;

Moreover, it has done so in a way that has never been done before, at least in living memory, So far our passing rate for DevOps-Foundation test preparation is high to 99.12%.

Thirdly, perfect DevOps-Foundation practice materials like us even provide you the opportunities to own goal, ideal struggle, better work, and create a bright future, With passing rate up to 98 to 100 every year, Hottest DevOps-Foundation Certification which is an amazing record hard to challenge for other competitors, we are on our way to being better.

2026 Updated DevOps-Foundation Exam Dumps | PeopleCert DevOps Foundationv3.6Exam 100% Free Hottest Certification

According to customers' needs, our product was revised by a lot of experts, By choosing our DevOps-Foundation Study Guide, you only need to spend a total of 20-30 hours to deal with exam, because our DevOps-Foundation study guide is highly targeted and compiled according to the syllabus to meet the requirements of the exam.

We all would like to receive DevOps-Foundation our goods as soon as possible after we pay for something.
