## Latest 212-89 Test Answers - Training 212-89 For Exam

If you are already determined to obtain an international certificate, you must immediately purchase our 212-89 exam practice. Our products have been certified as the highest quality products in the industry. If you know 212-89 training materials through acquaintance introduction, then you must also know the advantages of 212-89. Our content and design have laid a good reputation for us. Our users are willing to volunteer for us. You can imagine this is a great product! Next, I will introduce you to the most representative advantages of 212-89 real exam. You can think about whether these advantages are what you need!

## EC-COUNCIL EC Council Certified Incident Handler (ECIH v3) Sample

## Questions (Q88-Q93):

### NEW QUESTION # 88

Mr. Smith is a lead incident responder of a small financial enterprise, which has a few branches in Australia. Recently, the company suffered a massive attack losing \$5MM through an inter-banking system.

After an in-depth investigation, it was found that the incident occurred because 6 months ago the attackers penetrated the network through a minor vulnerability and maintained the access without any user being aware of it. They then tried to delete users' fingerprints and performed a lateral movement to the computer of a person with privileges in the inter-banking system. The attackers finally gained access and performed the fraudulent transactions.

Based on the above scenario, identify the most accurate kind of attack.

- A. Ransomware attack
- B. Denial-of-service attack
- C. Phishing
- D. APT attack

**Answer: D**

### NEW QUESTION # 89

Tom received a phishing email and accidentally opened its attachment. This resulted in the redirection of all traffic to a fraudulent website.

What type of phishing attack occurred in this scenario?

- A. Whaling
- B. Pharming
- C. Spimming
- D. Spear phishing

**Answer: D**

### NEW QUESTION # 90

Which of the following is an attack that occurs when a malicious program causes a user's browser to perform an unwanted action on a trusted site for which the user is currently authenticated?

- A. SQL injection
- B. Insecure direct object references
- C. Cross-site scripting
- D. Cross-site request forgery

**Answer: D**

### NEW QUESTION # 91

In which of the following phases of incident handling and response (IH&R) process the identified security incidents are analyzed, validated, categorized, and prioritized?

- A. Containment
- B. Notification
- C. Incident triage
- D. Incident recording and assignment

**Answer: C**

Explanation:

Incident triage is the phase in the incident handling and response process where identified security incidents are analyzed, validated, categorized, and prioritized. This step is critical for determining the severity of incidents and deciding on the allocation of resources for effective response. It involves initial analysis to understand the nature of the incident, its impact, and urgency, which guides the subsequent response actions.

References: The incident triage phase is a foundational concept in the ECIH v3 curriculum, emphasizing the importance of a structured approach to responding to security incidents, ensuring that resources are focused where they are needed most.

### NEW QUESTION # 92

Which of the following has been used to evade IDS and IPS?

- A. TNP
- **B. Fragmentation**
- C. SNMP
- D. HTTP

**Answer: B**

Explanation:

Fragmentation is a technique used by attackers to evade detection by Intrusion Detection Systems (IDS) and Intrusion Prevention Systems (IPS). By breaking down packets into smaller fragments, attackers can make it more difficult for these security systems to detect malicious payloads or signature-based patterns associated with known attacks. This method exploits the fact that some IDS/IPS solutions may not properly reassemble packet fragments for analysis, thereby allowing malicious fragments to pass through undetected.

References: In its coverage of network security mechanisms and evasion techniques, the ECIH v3 certification details how attackers exploit vulnerabilities in the implementation of IDS and IPS systems, including the use of packet fragmentation.

### NEW QUESTION # 93

.....

You have to change the way your study. Get the best EC Council Certified Incident Handler (ECIH v3) 212-89 exam questions for your text, check all the chapters, and carefully take note of the important points. You can even highlight the important ones to get a quick revision whenever you want. Cramming the EC Council Certified Incident Handler (ECIH v3) 212-89 books is not a good idea because it will not help you in understanding the concept. You just read the lines, try to remember them, and believe that you can keep those lines in your mind during the EC-COUNCIL Certification Exams.
