Free PDF Quiz 2026 2V0-16.25: VMware vSphere Foundation 9.0 Administrator–Valid Test Quiz

BONUS!!! Download part of DumpsKing 2V0-16.25 dumps for free: https://drive.google.com/open?id=1PwrbHcoJ-CA3lBHQHg4zzH1W_-puG5JV

For one thing, the most advanced operation system in our company which can assure you the fastest delivery speed on our 2V0-16.25 exam questions, and your personal information will be encrypted automatically by our operation system. For another thing, with our 2V0-16.25 actual exam, you can just feel free to practice the questions in our training materials on all kinds of electronic devices. In addition, under the help of our 2V0-16.25 Exam Questions, the pass rate among our customers has reached as high as 98% to 100%. We are look forward to become your learning partner in the near future.

VMware 2V0-16.25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Troubleshoot and Optimize the VMware Solution: This section of the exam measures the ability of Systems Engineers to troubleshoot and optimize VMware-based environments. While no explicit testable objectives are listed, candidates are expected to apply their problem-solving skills to diagnose, resolve, and enhance VMware solutions for improved reliability and performance.
Topic 2	• Plan and Design the VMware by Broadcom Solution: This section of the exam measures the ability of VMware Solution Architects to plan and design solutions. While there are no specific testable objectives included, the focus is on preparing professionals to design VMware-based solutions that align with organizational goals and best practices.
Topic 3	• IT Architectures, Technologies, Standards: This section of the exam measures the understanding of IT Infrastructure Architects and covers foundational concepts of architectures, emerging technologies, and industry standards. Although no testable objectives are listed here, it establishes the baseline knowledge needed to interpret and design VMware-related environments effectively.
Topic 4	• VMware vSphere Foundation Fundamentals: This section of the exam measures the skills of Virtualization Engineers and focuses on the essentials of virtualization technology. It introduces the principles of virtualization, explores use cases, and highlights the value it brings to businesses. Candidates are expected to demonstrate knowledge of VMware compute components such as vCenter and ESX, cluster configuration, and lifecycle management of virtual machines. It also covers secure workload operations, encryption, and managing resources with content libraries. In addition, storage fundamentals are examined through configuring vSphere storage, deploying VMware vSAN clusters, defining storage policies, and ensuring data availability. Networking fundamentals are also introduced, requiring the ability to differentiate between VMware vSphere networking components.

Topic 5	• Deploy, Configure, and Operate VMware vSphere Foundation (VVF): This section of the exam measures the expertise of Data Center Administrators and emphasizes hands-on skills in deploying and configuring VMware vSphere Foundation environments. Candidates must understand the components of a VVF deployment, configure Supervisors within clusters, and manage identity, access control, licensing, and certificate management. The objectives also extend to lifecycle management within the vSphere Foundation. Furthermore, it explores operational tasks including monitoring and analyzing logs, configuring alerting, managing dashboards, and integrating with VMware Cloud Foundation (VCF) Operations. Candidates will also be tested on cost and pricing configuration, compliance monitoring, and security hardening practices. Finally, automation skills are validated through deploying services with Supervisors, running Kubernetes workloads, using VM services, and integrating VCF Operations Orchestrator to support enterprise automation.

Pass Guaranteed Quiz 2026 VMware Accurate Test 2V0-16.25 Quiz

By keeping customer satisfaction in mind, DumpsKing offers you a free demo of the VMware vSphere Foundation 9.0 Administrator (2V0-16.25) exam questions. As a result, it helps you to evaluate the VMware vSphere Foundation 9.0 Administrator (2V0-16.25) exam dumps before making a purchase. DumpsKing is steadfast in its commitment to helping you pass the VMware in 2V0-16.25 Exam. A full refund guarantee (terms and conditions apply) offered by DumpsKing will save you from fear of money loss.

VMware vSphere Foundation 9.0 Administrator Sample Questions (Q40-Q45):

NEW QUESTION # 40
An administrator has been tasked to share resources in the cluster between the Quality Assurance (QA) Department and Marketing Department. The following information has been provided:
* In the case of contention, the QA Department must not lose any performance.
* When the QA Department is not using all of its allocated resources, the Marketing Department requires the ability to consume them.
* The administrator has set up resource pools for the QA Department (RP-QA) and Marketing Department (RP-MKT).
How should the resource shares be configured for each pool?

- A. Set both Resource Pools to Fixed.
- B. Set RP-QA to Scalable and RP-MKT to Fixed.
- C. Set RP-QA to Fixed and RP-MKT to Scalable.
- D. It is not possible to satisfy the requirements of both departments.

Answer: C

Explanation:
The requirements:
* QA must not lose performance during contention# QA must haveguaranteed resources, soFixedis correct.
* Marketing can use leftover resources when QA is idle# Marketing must beScalable, so it can borrow resources from QA's allocation when available.
Other options:
* A. Both Fixed# Marketing would not be able to use QA's unused resources.
* C. QA Scalable, MKT Fixed# QA would lose guaranteed resources, violating requirements.
* D. Not possible# Incorrect; VMware supports this configuration.
References:
VMware vSphere 9.0 -Resource Pool Allocation (Fixed vs. Scalable)
VMware Docs: Using Resource Pools

NEW QUESTION # 41
Which of the following statements describes hardware abstraction in VMware server virtualization?

- A. Encrypting all data processed by a virtual machine on the operating system level.
- B. Isolating memory access from the operating system and applications running in a virtual machine.
- C. Allowing virtual machines to be live migrated between physical servers with Intel and AMD processors.
- D. Allowing virtual machines (VMs) to use hardware resources without being tied to specific physical devices.

Answer: D

Explanation:
Hardware abstraction in VMware virtualization:
* Thehypervisor abstracts physical resources(CPU, memory, storage, networking) and presents them to VMs asstandardized virtual hardware.
* This allows VMs to run independently of underlying physical devices, enabling features likevMotion and hardware independence.
Other options:
* A. Encrypting data# Security feature, not abstraction.
* B. Isolating memory access# Memory protection, not full abstraction.
* C. Live migration between Intel and AMD# Possible with compatibility modes, but not a direct definition of abstraction.
References:
VMware vSphere 9.0 -Virtualization Fundamentals: Hardware Abstraction
VMware Docs: How VMware Virtualization Works

NEW QUESTION # 42
An administrator is tasked to configure Service Discovery in VMware Cloud Foundation (VCF) Operations for Linux Guest Operating Systems. For security reasons a non-root user needs to be used and all required steps for the Guest OS have already been completed.
What are the two steps the administrator needs to take? (Choose two.)

- A. Activate Service Discovery in the required VCF Operations vCenter instance.
- B. Activate Use Sudo in the vCenter instance.
- C. Activate Use Sudo in the Service Discovery instance.
- D. Deactivate Use Sudo in the Service Discovery instance.
- E. Activate Service Discovery in the required VCF Operations NSX instance.

Answer: A,C

Explanation:
To configureService Discovery for Linux Guest OSin VCF Operations using anon-root user:
* Activate Service Discoveryin thevCenter instanceto start discovery operations. (B)
* Enable Use Sudoin the Service Discovery instance so the non-root account can run necessary privileged commands. (E) Other options:
* A. Activate Use Sudo in vCenter instance# Wrong, this is configured in Service Discovery.
* C. Activate in NSX instance# Not applicable; Service Discovery integrates with vCenter.
* D. Deactivate Use Sudo# Opposite of required security setting.
References:
VMware Cloud Foundation 9.0 -Service Discovery Setup
VMware Docs: Service Discovery for VMs in vRealize Operations

NEW QUESTION # 43
Which scenario demonstrates the benefit of server consolidation using VMware server virtualization?

- A. Running multiple independent machines on a single physical host.
- B. Performing load balancing between web servers.
- C. Providing protection against ransomware attacks.
- D. Automating the deployment of application clusters.

Answer: A

Explanation:
Thecore benefit of server consolidation using VMware server virtualizationis the ability to runmultiple independent virtual machines (VMs)on asingle physical host.

* This increases hardware utilization, reduces physical server sprawl, and cuts operational costs.
* A. Load balancing# Achieved through features like DRS, not basic server consolidation.
* C. Ransomware protection# Achieved through security features and backups, not consolidation.
* D. Automating application clusters# A benefit of orchestration tools, not consolidation.
References:
VMware vSphere 9.0 -Server Consolidation Benefits
VMware Docs: VMware Virtualization Fundamentals

NEW QUESTION # 44
What is the primary purpose of using VMware vSphere Foundation (VVF) Lifecycle Manager for ESX hosts?

- A. To update and maintain the ESX host lifecycle
- B. To create and manage virtual machines
- C. To monitor the performance of ESX hosts
- D. To configure network settings for ESX hosts

Answer: A

Explanation:
Theprimary purpose of vSphere Lifecycle Manager (vLCM)is to:
* Update, patch, and upgrade ESXi hosts, firmware, and drivers.
* Manage host consistency across clusters withimage-based lifecycle management.
Other options are unrelated:
* A. Configure network settings# Done through vCenter or host client, not vLCM.
* B. Monitor performance# Done in vCenter/VCF Operations, not vLCM.
* C. Create/manage VMs# Managed through vCenter, not vLCM.

NEW QUESTION # 45
.....

Our VMware 2V0-16.25 Online test engine is convenient and easy to learn, it supports all web browsers. If you want, you can have offline practice. One of the most outstanding features of VMware vSphere Foundation 9.0 Administrator 2V0-16.25 Online test engine is it has testing history and performance review. You can have general review of what you have learnt. Besides, 2V0-16.25 Exam Braindumps offer you free demo to have a try before buying.
