TestPassKing is a professional website to specially provide training tools for IT certification exams and a good choice to help you pass ZDTA exam, too. TestPassKing provide exam materials about ZDTA certification exam for you to consolidate learning opportunities. TestPassKing will provide all the latest and accurate exam practice questions and answers for the staff to participate in ZDTA Certification Exam.

## Zscaler ZDTA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Cyberthreat Protection Services: This domain targets Cybersecurity Analysts and covers broad cybersecurity fundamentals and advanced threat protection capabilities. Candidates must know about malware protection, intrusion prevention systems, command and control channel detection, deception technologies, identity threat detection and response, browser isolation, and incident detection and response. [Data Protection Services]</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Identity Services: This section of the exam measures skills of Identity and Access Management Engineers and covers foundational identity services including authentication and authorization protocols such as SAML, SCIM, and OIDC. Candidates should understand identity administration tasks and how to manage policies and audit logs within the Zscaler platform.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Connectivity Services: This domain evaluates Network Security Engineers on configuring and managing connectivity essentials like device posture assessment, trusted network definitions, browser access controls, and TLS</li> <li>SSL inspection deployment. It also includes applying policy frameworks focused on authentication and enforcement for internet access, private access, and digital experience.</li> </ul>

## Zscaler Digital Transformation Administrator Sample Questions (Q92-Q97):

### NEW QUESTION # 92

Which Advanced Threats policy can be configured to protect users against a credential attack?

- A. Block Suspected phishing sites.**
- B. Enable Watering Hole detection.
- C. Configure Advanced Cloud Sandbox policies.
- D. Block Windows executable files from uncategorized websites.

### Answer: A

Explanation:

By blocking suspected phishing sites in the Advanced Threats policy, you stop users from reaching malicious pages engineered to capture their credentials.

### NEW QUESTION # 93

Which are valid criteria for use in Access Policy Rules for ZPA?

- A. Department, SNI, Branch Connector Group, Machine Group
- B. Username, Trusted Network Status, Password, Location
- C. SCIM Group, Time of Day, Client Type, Country Code
- D. Group Membership, ZIA Risk Score, Domain Joined, Certificate Trust**

**Answer: D**

Explanation:

Valid criteria for Access Policy Rules in ZPA include Group Membership, ZIA Risk Score, Domain Joined, and Certificate Trust.

These attributes allow granular policy decisions based on user identity, device posture, and risk context.

Options including password are invalid as passwords are not used as policy criteria; similarly, SNI and Branch Connector Group are more relevant to other controls. The study guide lists these user and device attributes explicitly as policy criteria within ZPA access policies.

**NEW QUESTION # 94**

Assume that you have four data centers around the globe, each hosting multiple applications for your users.

What is the minimum number of App Connectors you should deploy?

Assume that you have four data centers around the globe, each hosting multiple applications for your users.

What is the minimum number of App Connectors you should deploy?

- A. Sixteen - to support a full mesh to the other data centers.
- B. Four - one per data center.
- C. Six - one per data center plus two for cold standby.
- D. Eight - two per data center.

**Answer: D**

Explanation:

You need at least two App Connectors per data center to ensure high availability and load distribution, so with four data centers the minimum total is eight.

**NEW QUESTION # 95**

Which Risk360 key focus area observes a broad range of event, security configurations, and traffic flow attributes?

- A. Prevent Compromise
- B. External Attack Surface
- C. Data Loss
- D. Lateral Propagation

**Answer: A**

Explanation:

Prevent Compromise analyzes device and network telemetry - including security configurations, event logs, and traffic flows - to gauge how well you're blocking initial intrusion attempts and misconfigurations.

**NEW QUESTION # 96**

What is the preferred method for authentication to access oneAPI?

- A. Security Assertion Markup Language (SAML)
- B. System for Cross-domain Identity Management (SCIM)
- C. Transport Layer Security (TLS)
- D. OpenID Connect (OIDC)

**Answer: D**

Explanation:

The preferred method for authentication to access Zscaler's oneAPI is OpenID Connect (OIDC). OIDC is an identity layer on top of the OAuth 2.0 protocol and provides a modern, secure, and scalable way to authenticate users and services interacting with the API.

The study guide notes that OIDC supports flexible and secure authentication, making it the recommended choice for API access management within Zscaler's platform.

## NEW QUESTION # 97

.....

So rest assured that with the TestPassKing Zscaler Digital Transformation Administrator (ZDTA) practice questions you will not only make the entire Zscaler ZDTA exam dumps preparation process and enable you to perform well in the final Zscaler Digital Transformation Administrator (ZDTA) certification exam with good scores.
