## 1Y0-205 Free Test Questions - 1Y0-205 Valid Test Cram

When preparing to take the Citrix 1Y0-205 exam dumps, knowing where to start can be a little frustrating, but with ActualtestPDF Citrix 1Y0-205 practice questions, you will feel fully prepared. Using our Citrix Virtual Apps and Desktops Administration (1Y0-205) practice test software, you can prepare for the increased difficulty on Citrix Virtual Apps and Desktops Administration (1Y0-205) exam day. Plus, we have various question types and difficulty levels so that you can tailor your Citrix Virtual Apps and Desktops Administration (1Y0-205) exam dumps preparation to your requirements.

## Citrix Virtual Apps and Desktops Administration Sample Questions (Q49-Q54):

### NEW QUESTION # 49

After creating a new machine catalog using the Machine Creation Services (MCS) wizard in Citrix Studio, a Citrix Administrator determines that Windows activation fails for all new machines in that catalog.

Which two conditions can cause this to happen? (Choose two.)

- A. The version of Windows installed uses Multiple Activation Key (MAK) licensing.
- B. The version of Windows installed is Windows Server 2012 R2.
- C. The Microsoft License Server is unreachable.
- D. The base image rearm count has been exceeded.

**Answer: A,D**

Explanation:

Rearm count exceeded: If the base image has been sysprepped too many times, the rearm count may be exhausted, preventing Windows activation on cloned machines.

MAK licensing: MCS-provisioned machines are treated as newly deployed instances. MAK licensing is not suitable for this scenario because each clone would require its own activation, leading to failures.

### NEW QUESTION # 50

Which Citrix Director view will allow a Citrix Administrator to view data on the current CPU, as well as memory and disk latency for a machine running the Virtual Delivery Agent (VDA)?

- A. Resource Utilization
- B. Capacity Management
- C. Load Evaluator Index
- D. Machine Utilization

**Answer: A**

Explanation:

The Resource Utilization view in Citrix Director provides real-time data on CPU, memory usage, and disk latency for VDA machines. This allows administrators to monitor system performance and identify resource bottlenecks affecting user sessions.

### NEW QUESTION # 51

A Citrix Administrator is creating a Pooled/Random catalog using Machine Creation Services (MCS). Which service on the Citrix Delivery Controller will enable the communication to the Hypervisor?

- A. Citrix Hypervisor Service
- B. Citrix Host Service
- C. Citrix Broker Service
- D. Citrix Environment Test Service

**Answer: B**

Explanation:

The Citrix Host Service on the Delivery Controller manages communication with the hypervisor. It enables Machine Creation Services (MCS) to provision, power manage, and update virtual machines in pooled or random catalogs.

### NEW QUESTION # 52

Scenario: A Citrix Administrator previously configured a Citrix Virtual Desktops Site to use evaluation licenses. The administrator then installed valid advanced licenses on the Citrix License Server and confirmed that licenses show correctly in the licensing console. However, a user reports an issue about logging on to the published desktop. The user receives an error message stating that the evaluation license is about to expire. What should the administrator do to fix this issue?

- A. Restart the License service.
- **B. Change the product edition in Citrix Studio.**
- C. Verify the host name entry in the license file.
- D. Remove the evaluation license.

**Answer: B**

Explanation:

After installing valid licenses on the License Server, the Site must be configured in Citrix Studio to use the correct product edition (for example, Advanced, Enterprise, or Premium). If it remains set to "evaluation," users will continue to see the expiration warning. Updating the product edition in Studio resolves the issue.

**NEW QUESTION # 53**

Scenario: A StoreFront store supports 150 users who have full access to all enterprise resources.

A Citrix Administrator needs to create a new StoreFront store for contractors who will work onsite for two months. The contractors need access to specific resources but will NOT be Active Directory users.

Which option should the administrator select while creating the store for contractors?

- A. Smart card
- B. HTTP Basic
- **C. Unauthenticated**
- D. Pass-through

**Answer: C**

**NEW QUESTION # 54**

.....

According to the statistic about candidates, we find that some of them take part in the Citrix exam for the first time. Considering the inexperience of most candidates, we provide some free trial for our customers to have a basic knowledge of the 1Y0-205 exam guide and get the hang of how to achieve the 1Y0-205 Exam Certification in their first attempt. You can download a small part of PDF demo, which is in a form of questions and answers relevant to your coming 1Y0-205 exam; and then you may have a decision about whether you are content with it. Our 1Y0-205 exam questions are worthy to buy.
