

What is the Reason to Trust on Network Appliance NS0-005 Exam Questions?

[Pass Network Appliance NS0-005 Exam | Latest NS0-005 Dumps & Practice Exams - Cert007](#)

communication with the clients using NFS or SMB protocols. ONTAP software also provides features such as data protection, efficiency, security, and performance for NAS workloads.
References = NetApp ONTAP, Provision NAS storage for both Windows and Linux using both NFS and SMB

6. Which two NetApp products offer hardware encryption? (Choose two.)

- A. NetApp Storage Encryption (NSE)
- B. NVMe self-encrypting drives (SED)
- C. NetApp Aggregate Encryption (NAE)
- D. NetApp Volume Encryption (NVE)

Answer: A

Explanation:

NetApp Storage Encryption (NSE) and NVMe self-encrypting drives (SED) are two NetApp products that offer hardware encryption. Hardware encryption is a method of encrypting data at the disk level using a hardware-accelerated mechanism. NSE requires all drives in an HA pair to be purpose-built, self-encrypting drives. These drives perform the data encryption themselves through a hardware-accelerated mechanism. Because of the hardware acceleration, NSE systems usually outperform NVE systems when encrypting data¹. NVMe self-encrypting drives (SED) are a type of NSE drives that use the NVMe protocol to provide high performance and low latency. NVMe SEDs are supported on select NetApp AFF systems².

7. Which NetApp BlueXP product enables a customer to provide read and write access to remote Windows servers from a centralized datastore?

- A. BlueXP copy and sync
- B. BlueXP edge caching
- C. BlueXP tiering
- D. Cloud Volumes ONTAP

Answer: B

Explanation:

BlueXP edge caching is a NetApp BlueXP product that enables a customer to provide read and write access to remote Windows servers from a centralized datastore. BlueXP edge caching allows you to cache data from a BlueXP volume or a Cloud Volume ONTAP system on a local Windows server, which improves the performance and availability of your applications. You can also sync the cached data back to the source volume, ensuring data consistency and protection.

References = BlueXP edge caching overview, BlueXP edge caching documentation, BlueXP edge caching: Accelerate access to your data

8. A customer wants to use cloud storage as part of their data strategy. Their existing storage is a mixture of NFS and SMB workloads. The customer wants a managed service to help provision these resources. Which solution should the customer choose?

4 / 5

Our NS0-005 exam torrent is highly regarded in the market of this field and come with high recommendation. Choosing our NS0-005 exam guide will be a very promising start for you to begin your exam preparation because our NS0-005 practice materials with high repute. Our NS0-005 exam torrent is well reviewed in content made by the professional experts. They will instruct you on efficient points of knowledge to get familiar and remember high-effective. Besides, our NS0-005 study tools galvanize exam candidates into taking actions efficiently. We are sure you will be splendid and get your desirable outcomes by our NS0-005 exam guide. If your mind has made up then our NS0-005 study tools will not let you down.

When we are in some kind of learning web site, often feel dazzling, because web page design is not reasonable, put too much information all rush, it will appear desultory. Believe it or not, we face the more intense society, and we should prompt our competitiveness and get a NS0-005 certification to make our dreams come true. Although it is not an easy thing to achieve it, once you choose our NS0-005 prepare torrent, we will send the new updates for one year long, which is new enough to deal with the exam for you and guide you through difficulties in your exam preparation.

Pass Guaranteed Quiz Valid Network Appliance - NS0-005 - Dumps NetApp

Technology Solutions Professional Exam Guide

Now is not the time to be afraid to take any more difficult certification exams. Our NS0-005 learning quiz can relieve you of the issue within limited time. Our website provides excellent learning guidance, practical questions and answers, and questions for your choice which are your real strength. You can take the NS0-005 Training Materials and pass it without any difficulty. As long as you can practice NS0-005 study guide regularly and persistently your goals of making progress and getting certificates smoothly will be realized just like a piece of cake.

Network Appliance NS0-005 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Data Storage Software: This domain focuses on NetApp's core software platforms including SANtricity, ONTAP, and StorageGRID, along with the data management tools used to operate these systems.
Topic 2	<ul style="list-style-type: none">• Intelligent Data Infrastructure: This domain addresses advanced solutions including cyber resiliency, data mobility, hybrid cloud protection, storage architectures, and flexible consumption models for NetApp.
Topic 3	<ul style="list-style-type: none">• Infrastructure: This domain covers foundational concepts including basic infrastructure components, data management principles, virtualization technologies, and AI fundamentals relevant to storage environments.

Network Appliance NetApp Technology Solutions Professional Exam Sample Questions (Q83-Q88):

NEW QUESTION # 83

You have multiple on-premises applications writing to ONTAP LUNs and NFS exports. You want to build a disaster recovery solution from your on-premises ONTAP systems to your Microsoft Azure Resource Group while preserving the data efficiency and access properties for block and file. Which cloud storage destination would you use in Microsoft Azure to accomplish this task?

- A. NetApp Cloud Volumes ONTAP
- B. NetApp Cloud Volumes Service
- C. Azure NetApp Files
- D. Azure Blob Destination

Answer: A

NEW QUESTION # 84

What must be used for all backup and restore operations with Cloud Backup?

- A. SnapCenter software
- B. Cloud Sync
- C. SnapLock software
- D. Cloud Manager

Answer: A

NEW QUESTION # 85

Which two statements describe the benefits of using public clouds? (Choose two.)

- A. Public clouds support multi-regional applications without the expense of collocating data centers.
- B. Public clouds provide an environment for development, testing, and disaster-recovery applications.
- C. Public clouds are always used for hosting tier 1 and financial applications.
- D. Applications are always less expensive to run in the public cloud.

Answer: A,B

NEW QUESTION # 86

Your employer asks you to develop an off-site data replication strategy that maintains ONTAP storage efficiencies for home directory data.

Which two NetApp solutions would meet this requirement? (Choose two.)

- A. Cloud Volumes ONTAP
- B. Cloud Volumes Service
- C. BlueXP Replication
- D. MAX Data

Answer: A,C

NEW QUESTION # 87

A customer wants to use FabricPool technology to tier to object storage, using their on-premises NetApp FAS system. Which feature allows this solution?

- A. Azure Blob
- B. StorageGRID
- C. Amazon Simple Storage Service (Amazon S3)
- D. NetApp ONTAP Simple Storage Service (S3)

Answer: B

Explanation:

FabricPool is a NetApp storage technology that enables automated tiering of data from an all-flash appliance to low-cost object storage tiers either on or off premises¹. StorageGRID is a NetApp object storage solution that provides scalable, secure, and cost-efficient storage for unstructured data². FabricPool supports StorageGRID as one of the object storage services that can be used as a backup destination for cold data³.
