

頂尖的最新1z0-1075-25題庫資訊|高通過率的考試材料|免費下載1z0-1075-25考試內容

還在為不知道怎麼通過的1z0-1075-25認證考試而煩惱嗎？現在終於不用擔心這個問題啦。NewDumps多年致力於1z0-1075-25認證考試的研究，有著豐富的經驗，強大的考古題，幫助你高效率的通過考試。能否成功通過一項考試，並不在於你看了多少東西，而在於你是否找對了方法，NewDumps就是你通過1z0-1075-25認證考試的正確方法！

NewDumps的1z0-1075-25考古題是你準備1z0-1075-25認證考試時最不能缺少的資料。這個資料的價值等同於其他一切的與考試相關的參考書。這種說法並不誇張。只要你用了它你就會發現，這一切都是真的。

>> 最新1z0-1075-25題庫資訊 <<

1z0-1075-25考試內容 - 1z0-1075-25更新

當你進入NewDumps網站，你看到每天進入NewDumps網站的人那麼多，不禁感到意外。其實這很正常的，我們NewDumps網站每天給不同的考生提供培訓資料數不勝數，他們都是利用了我們的培訓資料才順利通過考試的，說明我們的Oracle的1z0-1075-25考試認證培訓資料真起到了作用，如果你也想購買，那就不要錯過我們NewDumps網站，你一定會非常滿意的。

最新的 Oracle Cloud 1z0-1075-25 免費考試真題 (Q25-Q30):

問題 #25

To help ensure compliance with the US Code of Federal Regulations (21 CFR Part 11), your client wants to enable audit trail for manufacturing work definitions and standard operations.

Which is NOT included in the audit trail for standard operations such as creation, update, and deletion?

- A. Attachments at any level
- B. Operation resources. Including alternate resources
- C. Descriptive flexfields (OFFs) at any level
- **D. Item structure component attributes referenced from Product Information Management(PIM)**
- E. Work definition header and version attributes

答案: D

解題說明:

When enabling audit trail functionality to ensure compliance with the US Code of Federal Regulations (21 CFR Part 11), certain actions related to work definitions and standard operations are audited for changes such as creation, update, and deletion. However, not all aspects are tracked in the audit trail.

* Item structure component attributes referenced from Product Information Management (PIM) are not included in the audit trail. PIM attributes are managed separately from manufacturing-specific data, and changes to these components are not captured in the standard operations audit trail.

Audited components typically include:

- * Work definition header and version attributes
- * Descriptive flexfields (DFFs) at any level
- * Attachments at any level
- * Operation resources, including alternate resources

Oracle Manufacturing Cloud ' s documentation on audit trails details the entities that can be tracked, and PIM attributes are not part of the work definitions audit scope.

問題 #26

Your customer has multiple distribution centers and a few manufacturing plants. The plants manufacture different items with some overlap between them. The distribution centers stock parts from all plants.

A Corporate Engineering team is responsible for centrally defining items and catalogs. This team defines the items and sets the attributes for most parameters. The respective distribution centers and manufacturing plants must be allowed to change some attributes locally.

What is the best way to achieve this?

- A. Set up plants and the Corporate Engineering organization as Inventory organizations, and distribution centers as item organizations.
- B. Set up plants and the Corporate Engineering organization as item organizations, and distribution centers as inventory organizations.
- C. Set up plants, distribution centers, and the Corporate Engineering organization as inventory organizations.
- D. Set up plants as inventory organizations, and distribution centers and the corporate Engineering organization as item organizations.
- E. Set up plants and distribution centers as inventory organizations, and the Corporate Engineering organization as an Item organization.

答案： E

解題說明：

In Oracle Cloud, managing items and their attributes across multiple organizations requires careful structuring of inventory and item organizations. The best way to configure this setup given the customer ' s requirements is as follows:

* Plants and Distribution Centers as Inventory Organizations : Inventory organizations are required to manage on-hand quantities, perform transactions, and handle the physical movement of materials.

Plants need to be inventory organizations to manage production, and distribution centers need to be inventory organizations to manage stocking and distribution.

* Corporate Engineering Organization as an Item Organization : An item organization is responsible for centrally defining item attributes. By setting the Corporate Engineering team as an item organization, you ensure that item definitions are controlled centrally. The team can define standard attributes while allowing inventory organizations (plants and distribution centers) to modify certain attributes at their level based on local needs.

This structure allows for centralized item management with localized flexibility for plants and distribution centers.

Oracle SCM Cloud guides for "Item and Inventory Organizations " explain how item organizations allow centralized management of item definitions while inventory organizations handle the physical inventory and can override certain attributes locally.

Incorrect Options:

A : Defining all entities as inventory organizations would not allow centralized control of item attributes.

C , D , E : These setups would either limit the ability to control item attributes centrally or misassign organizations that need to handle physical inventory as item-only organizations.

問題 #27

Which three statements are true about executing rework work orders with manual control?

- A. You cannot cancel the work order after releasing it or after performing any transactions.
- B. You can perform operation completion only after the assembly has been issued to the work order, and only up to the quantity that the assembly component item is issued to the work order.
- C. If the group has grouping attributes, only work orders that match the grouping attribute values can be assigned to the groups.
- D. You must manually issue the assembly item to rework a work order, either partial or full quantity.
- E. You can cancel the work order after releasing it and after performing any transactions.

答案： A,B,D

解題說明:

In Oracle Manufacturing Cloud, executing rework work orders with manual control requires certain steps and restrictions to ensure proper tracking of rework activities:

* Statement A : You can perform operation completion only after the assembly item has been issued to the work order. The quantity that can be completed is limited to the quantity of the assembly issued.

* Statement C : The assembly item must be manually issued to the work order, allowing for flexibility to issue either a partial or full quantity depending on the rework requirements.

* Statement D : Once a work order is released and transactions have been performed, it cannot be canceled. This ensures that work orders already in progress are tracked properly.

Incorrect options:

* Statement B : This is incorrect because you cannot cancel the work order after performing transactions.

* Statement E : This statement is irrelevant in the context of executing rework work orders with manual control.

Oracle Cloud SCM documentation explains the steps and restrictions for manually controlling and issuing rework work orders, including limits on cancellation and operation completion.

問題 #28

Which statement is NOT true about using a Quick Complete action for an operation transaction?

- A. You can use it for simultaneous reporting of one or more transactions.
- B. It is used on serial tracked operations and non-serial tracked operations with or without inspections.
- C. You can use It to transact one or more serial numbers.
- D. You can use it to collect Inspection results.
- E. You can use it to transact only one serial number at a time.

答案: E

解題說明:

The Quick Complete action allows for fast, simplified transaction processing for work orders and operations.

The statement that is not true is:

* Statement E is incorrect because Quick Complete can be used to transact multiple serial numbers at a time, not just one. This feature is designed to handle both serial-tracked and non-serial-tracked operations efficiently.

Correct statements:

* Statement A : Quick Complete supports simultaneous reporting of multiple transactions, allowing for streamlined processing.

* Statement B : It can be used for both serial-tracked and non-serial-tracked operations, whether or not inspections are involved.

* Statement C : Multiple serial numbers can be transacted at once using this feature.

* Statement D : While Quick Complete can handle inspection-related transactions, it is not specifically for collecting inspection results.

Oracle Cloud documentation on Quick Complete explains how this feature works for processing multiple transactions and handling serial-numbered items.

問題 #29

Which three types of item quantities are displayed on the Work Order History tab?

- A. Remaining
- B. Total
- C. In Process
- D. Completed
- E. Scrapped

答案: C,D,E

解題說明:

The Work Order History tab in Oracle Manufacturing Cloud provides a summary of different item quantities related to the lifecycle of a work order. The following quantities are displayed:

* In Process : This shows the quantity of items currently being processed in the production cycle.

* Scrapped : This quantity reflects the number of items that have been discarded due to defects or other issues during the production process.

* Completed : This quantity shows the number of items that have successfully been completed in the work order.

Incorrect options:

* Remaining : The system does not specifically display a "Remaining" quantity on the Work Order History tab.

* Total : The total quantity is not shown as a standalone metric in the Work Order History tab but is implied by other metrics.

Oracle Manufacturing Cloud documentation on work order management outlines the key item quantities that are tracked during the production process.

問題 #30

.....

我們NewDumps Oracle的1z0-1075-25考試培訓資料使你在購買得時候無風險，在購買之前，你可以進入NewDumps網站下載免費的部分考題及答案作為試用，你可以看到考題的品質以及我們NewDumps網站介面的友好，我們還提供一年的免費更新，如果沒有通過，我們將退還全部購買費用，我們絕對保障消費者的權益，我們NewDumps提供的培訓資料實用性很強，絕對適合你，並且能達到不一樣的效果，讓你有意外的收穫。

1z0-1075-25考試內容: <https://www.newdumpsdf.com/1z0-1075-25-exam-new-dumps.html>

請盡快發題，謝謝，要想一次性通過Oracle 1z0-1075-25 認證考試您必須得有一個好的準備和一個完整的知識結構，如果您不知道如何更有效的通過 Oracle 1z0-1075-25 考試，我給您一個建議是選擇一個良好的培訓網站，這樣可以起到事半功倍的效果，NewDumps為Oracle 1z0-1075-25 認證考試準備的培訓包括Oracle 1z0-1075-25認證考試的模擬測試題和當前考試題，將更多的時間節省下來去練習自己容易做錯的考題或者題型比較典型的1z0-1075-25問題，這樣我們的做題過程才能實現高效，Oracle 最新1z0-1075-25題庫資訊 這是在很多人身上都出現過的一個現象，NewDumps的培訓資料包含Oracle 1z0-1075-25考試的練習題和答案，能100%確保你通過Oracle 1z0-1075-25考試。

銀角卻是有些底氣不足的道，夜羽沈默少頃，覺得唯有如此所有人才不會有異議，請盡快發題，謝謝，要想一次性通過Oracle 1z0-1075-25 認證考試您必須得有一個好的準備和一個完整的知識結構，如果您不知道如何更有效的通過 Oracle 1z0-1075-25 考試，我給您一個建議是選擇一個良好的培訓網站，這樣可以起到事半功倍的效果。

熱門的最新1z0-1075-25題庫資訊通過Oracle Manufacturing Cloud 2025 Implementation Professional - 專業人士推薦

NewDumps為Oracle 1z0-1075-25 認證考試準備的培訓包括Oracle 1z0-1075-25認證考試的模擬測試題和當前考試題，將更多的時間節省下來去練習自己容易做錯的考題或者題型比較典型的1z0-1075-25問題，這樣我們的做題過程才能實現高效。
