The ECBA certification exam is a computer-based test that measures the candidate's knowledge and understanding of the BABOK Guide (Business Analysis Body of Knowledge). ECBA exam consists of 50 multiple-choice questions that must be completed within 1 hour. ECBA Exam is administered by IIBA-approved testing centers around the world, and candidates can register for the exam online through the IIBA website.

IIBA Entry Certificate in Business Analysis (ECBA) Sample Questions (Q182-Q187):

NEW QUESTION # 182

Which task is performed when the business analyst (BA) ensures that stakeholders have a shared understanding of the outcomes of elicitation?

- A. Manage stakeholder collaboration
- B. Communicate business analysis information
- C. Confirm elicitation results
- D. Conduct elicitation

Answer: C

Explanation:

The task of confirming elicitation results is crucial for ensuring that all stakeholders have a shared understanding of the outcomes of

elicitation activities. This involves reviewing the information gathered to check for accuracy and consistency with other information, and to ensure that it is free from errors, omissions, conflicts, or ambiguity. It's about validating the information to confirm that it aligns with the stakeholders' understanding and the business needs. References: This explanation is based on the guidelines provided in the BABOK Guide, which emphasizes the importance of confirming elicitation results to achieve a shared understanding among stakeholders¹.

NEW QUESTION # 183

Inputs to prepare for elicitation include:

- A. future state description and risk analysis results.
- **B. needs and stakeholder engagement approach.**
- C. requirements and designs.
- D. information management approach and solution scope.

Answer: B

NEW QUESTION # 184

What technique is used to elicit business analysis information, including contextual understanding and requirements, by examining available materials that describe either the business environment or existing organizational assets?

- A. Organizational modeling
- B. Functional decomposition
- **C. Document analysis**
- D. Data flow diagrams

Answer: C

Explanation:

Document analysis is used to elicit business analysis information, including contextual understanding and requirements, by examining available materials that describe either the business environment or existing organizational assets.

NEW QUESTION # 185

One element of the task plan business analysis information management is:

- A. decision making authority.
- B. complexity and risk.
- **C. level of abstraction.**
- D. change control process.

Answer: C

Explanation:

The level of abstraction is one of the key elements in the task of planning business analysis information management. It refers to the degree of detail or generality at which the business analysis information is captured and managed. Deciding on the appropriate level of abstraction is crucial as it affects how information is understood, communicated, and used by stakeholders.

NEW QUESTION # 186

What is the optimum group size for brainstorming?

- A. It doesn't matter how many individuals as long as the project manager is included
- **B. Six to eight individuals who represent a range of backgrounds**
- C. A maximum of three individuals with a deep knowledge of the subject
- D. The more individuals the better

Answer: B

Explanation:

Identify the facilitator and participants in the session (aim for six to eight participants who represent a range of backgrounds and experience with the topic).
