## WGU - D431 DIGITAL FORENSICS IN CYBERSECURITY EXAM 2024 WITH 100% CORRECT ANSWERS

Which law requires both parties to consent to the recording of a conversation?

- A. Electronic Communications Privacy (ECPA)
- B. Communications Assistance to Law Enforcement Act (CALEA)
- C. USA Patriot Act
- D. Health Insurance Portability and Accountability Act (HIPAA) Answer ✓✓ - A. Electronic Communication Privacy (ECPA)

Which law is related to the disclosure of personally identifiable protected health information (PHI)?

- A. Federal Privacy Act of 1974
- B. Electronic Communication Privacy Act
- C. Health Insurance Portability and Accountability Act (HIPAA)
- D. CAN-SPAM Act Answer ✓✓ - C. Health Insurance Portability and Accountability Act (HIPAA)

Which U.S. law criminalizes the act of knowingly using misleading domain name with the intent to deceive a minor into viewing harmful materials?

- A. 18 U.S.C. 2252B
- B. CAN-SPAM Act
- C. Children's Online Privacy Protection Act (COPPA)
- D. Communication Decency Act Answer ✓✓ - A. 18 U.S.C. 2252B

Which U.S. law protects journalists from turning over their work or sources to law enforcement before the information is shared with the public?

Most candidates who register for Digital Forensics in Cybersecurity (D431/C840) Course Exam (Digital-Forensics-in-Cybersecurity) certification lack the right resources to help them achieve it. As a result, they face failure, which causes them to waste time and money, and sometimes even lose motivation to repeat their WGU Digital-Forensics-in-Cybersecurity exam. BraindumpsPrep will solve such problems for you by providing you with Digital-Forensics-in-Cybersecurity Questions. The WGU Digital-Forensics-in-Cybersecurity certification exam is undoubtedly a challenging task, but it can be made much easier with the help of BraindumpsPrep's reliable preparation material.

Unfortunately, many candidates do not pass the Digital-Forensics-in-Cybersecurity exam because they rely on outdated WGU Digital-Forensics-in-Cybersecurity exam preparation material. Failure leads to anxiety and money loss. You can avoid this situation with BraindumpsPrep that provides you with the most reliable and actual WGU Digital-Forensics-in-Cybersecurity with their real answers for Digital-Forensics-in-Cybersecurity exam preparation.

**Latest Digital-Forensics-in-Cybersecurity Test Vce - Examcollection Digital-Forensics-in-Cybersecurity Questions Answers**

Our Digital-Forensics-in-Cybersecurity exam questions are authoritatively certified. Our goal is to help you successfully pass relevant exam in an efficient learning style. Due to the quality and reasonable prices of our Digital-Forensics-in-Cybersecurity training materials, our competitiveness has always been a leader in the world. Our Digital-Forensics-in-Cybersecurity Learning Materials have a higher pass rate than other Digital-Forensics-in-Cybersecurity training materials, so we are confident to allow you to gain full results.

## WGU Digital-Forensics-in-Cybersecurity Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Domain Evidence Analysis with Forensic Tools: This domain measures skills of Cybersecurity technicians and focuses on analyzing collected evidence using standard forensic tools. It includes reviewing disks, file systems, logs, and system data while following approved investigation processes that ensure accuracy and integrity.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Domain Digital Forensics in Cybersecurity: This domain measures the skills of Cybersecurity technicians and focuses on the core purpose of digital forensics in a security environment. It covers the techniques used to investigate cyber incidents, examine digital evidence, and understand how findings support legal and organizational actions.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Domain Incident Reporting and Communication: This domain measures the skills of Cybersecurity Analysts and focuses on writing incident reports that present findings from a forensic investigation. It includes documenting evidence, summarizing conclusions, and communicating outcomes to organizational stakeholders in a clear and structured way.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Domain Recovery of Deleted Files and Artifacts: This domain measures the skills of Digital Forensics Technicians and focuses on collecting evidence from deleted files, hidden data, and system artifacts. It includes identifying relevant remnants, restoring accessible information, and understanding where digital traces are stored within different systems.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Domain Legal and Procedural Requirements in Digital Forensics: This domain measures the skills of Digital Forensics Technicians and focuses on laws, rules, and standards that guide forensic work. It includes identifying regulatory requirements, organizational procedures, and accepted best practices that ensure an investigation is defensible and properly executed.</li> </ul>

## WGU Digital Forensics in Cybersecurity (D431/C840) Course Exam Sample Questions (Q31-Q36):

### NEW QUESTION # 31

A forensic investigator needs to know which file type to look for in order to find emails from a specific client. Which file extension is used by Eudora?

- A. .mbx
- B. .ost
- C. .dbx
- D. .pst

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Eudora email client uses the.mbxfile extension to store email messages. The.mbxformat stores emails in a mailbox file similar to the standard mbox format used by other email clients.

\* .dbxis used by Microsoft Outlook Express.

\* .ostand.pstare file types used by Microsoft Outlook.

\* Therefore,.mbxis specific to Eudora.

Reference:Digital forensics literature and software documentation clearly indicate Eudora's.mbxfile format as the repository for its

email storage.

### NEW QUESTION # 32

Which tool should be used with sound files, video files, and image files?

- A. Stealth Files 4
- B. Snow
- C. StegVideo
- D. MP3Stego

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

StegVideo is a steganographic tool designed to embed hidden messages within multimedia files such as sound, video, and image files, making it suitable for multi-media steganography.

\* Snow is mainly used for text-based steganography.

\* MP3Stego is specialized for MP3 audio files only.

\* Stealth Files 4 is a general steganography tool but less commonly referenced for multimedia.

Forensic and academic sources identify StegVideo as a tool for multimedia steganography, useful in complex digital investigations.

### NEW QUESTION # 33

Which policy is included in the CAN-SPAM Act?

- A. Email sender must verify the recipient's consent before sending
- B. Email sender must encrypt all outgoing emails
- C. Email sender must include recipient IP address in the email header
- D. Email sender must provide a method for recipients to opt out of future emails without charge

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The CAN-SPAM Act requires that commercial emails include a clear and conspicuous mechanism allowing recipients to opt out of receiving future emails. This opt-out method cannot require payment or additional steps that would discourage recipients.

\* The act aims to reduce unsolicited commercial emails and spam.

\* Compliance is critical for lawful email marketing and forensic investigations involving email misuse.

Reference:U.S. federal law and cybersecurity policies reference CAN-SPAM provisions for email communications.

### NEW QUESTION # 34

Where is the default location for 32-bit programs installed by a user on a 64-bit version of Windows 7?

- A. C:\Program files (x86)
- B. C:\Program files
- C. C:\ProgramData
- D. C:\Windows

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

On 64-bit versions of Windows operating systems (including Windows 7), 32-bit applications are installed by default into the folder C:\Program Files (x86). This separation allows the OS to distinguish between 64-bit and 32-bit applications and apply appropriate system calls and redirection.

\* C:\Program Files is reserved for native 64-bit applications.

\* C:\ProgramData contains application data shared across users.

\* C:\Windows contains system files, not program installations.

This structure is documented in Microsoft Windows Internals and Windows Forensics guides, including official NIST guidelines on

Windows forensic investigations.

### NEW QUESTION # 35

Susan was looking at her credit report and noticed that several new credit cards had been opened lately in her name. Susan has not opened any of the credit card accounts herself.

Which type of cybercrime has been perpetrated against Susan?

- A. SQL injection
- B. Malware
- C. Identity theft
- D. Cyberstalking

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Identity theft occurs when an attacker unlawfully obtains and uses another person's personal information to open accounts, access credit, or commit fraud. The opening of credit cards without the victim's consent is a classic example.

\* SQL injection is a web application attack method that does not directly relate to this case.

\* Cyberstalking involves harassment via digital means and is unrelated.

\* Malware is malicious software and may be used to facilitate identity theft but is not the crime itself.

Reference: According to the U.S. Federal Trade Commission (FTC) definitions and NIST Cybersecurity Framework, identity theft is defined as the unauthorized use of someone's personal information for fraudulent purposes, perfectly matching Susan's situation.

### NEW QUESTION # 36

.....

In order to pass the exam and fight for a brighter future, these people who want to change themselves need to put their ingenuity and can do spirit to work. More importantly, it is necessary for these people to choose the convenient and helpful Digital-Forensics-in-Cybersecurity test questions as their study tool in the next time. Because their time is not enough to prepare for the exam, and a lot of people have difficulty in preparing for the exam, so many people who want to pass the Digital-Forensics-in-Cybersecurity exam and get the related certification in a short time have to pay more attention to the study materials. In addition, best practice indicates that people who have passed the Digital-Forensics-in-Cybersecurity Exam would not pass the exam without the help of the Digital-Forensics-in-Cybersecurity reference guide. So the study materials will be very important for all people. If you also want to pass the exam and get the related certification in a short, the good study materials are the best choice for you. Now we are going to make an introduction about the Digital-Forensics-in-Cybersecurity exam prep from our company for you.
