Salesforce Certified Experience Cloud Consultant Sample Questions (Q179-Q184):

NEW QUESTION # 179

In which two ways can Opportunities with a Community User be shared?

Choose 2 answers Calculator

- A. Create a criteria-based sharing rule with a Partner Community role.
- B. Create an owner-based sharing rule with a Customer Community User.
- C. Add a Partner Community profile to a Sharing Set and add Opportunities as an object in the Sharing Set.
- D. Add a Customer Community Plus profile to a Sharing Set and add Opportunities as an object in the Sharing Set.

Answer: A,C

Explanation:

Sharing sets allow you to grant access to records that have a lookup relationship to the same account or contact that the community user has. You can use sharing sets to share opportunities with partner community users who belong to the same account as the opportunity owner.

Criteria-based sharing rules allow you to share records based on field values. You can use criteria-based sharing rules to share opportunities with partner community users who meet certain criteria, such as region, industry, or status.

NEW QUESTION # 180

Northern Trail Outfitters has configured chat so customers can quickly get answers to their questions by chatting with an agent while browsing the Experience site.

How should an administrator embed the chat window in an Experience site?

- A. Add the Embedded Service component to Builder pages.
- B. Create a custom component using the Embedded Service API.
- C. Create an Embedded Service quick action.
- D. Configure the Embedded Service connector.

Answer: A

Explanation:

The Embedded Service component allows you to embed a chat window in your Experience Cloud site, so customers can chat with agents while browsing the site. You can add the Embedded Service component to any Builder page and configure its properties, such as the chat button label, pre-chat fields, and offline support.

NEW QUESTION # 181

Universal Containers has recently launched a site for its retailers. Retailers able to collaborate with other retailers around topic; however, retail managers aren't able to see records owned by their peers and subordinates.

What should be done to resolve the issue?

- A. A Sharing Set needs to be created.
- B. Retail managers need to be given super User access.
- C. Retail managers need to be put in the execute role in the Role Hierarchy
- D. A sharing Rule needs to be created.

Answer: B

Explanation:

Super User access is a feature that allows you to grant access to records owned by other users who have the same role or a role below them in the role hierarchy. You can use Super User access to give retail managers access to records owned by their peers and subordinates.

NEW QUESTION # 182

Universal Containers' (UC) Salesforce org uses SAML 550 with a third-party identity provider for internal user authentication. UC now wants to extend this capability for Experience Cloud site users as well.

What should the UC administrator ensure in order to successfully implement SAML 550 for the Experience Cloud site?

- A. Create a Visualforce page that receives and validates the SAML assertion.

- B. Register the Experience Cloud site as an Identity Provider in SAML settings.
- C. Create a Connected App with custom attributes before configuring SAML settings.
- D. Use the site login URL as an endpoint where SAML assertion is made.

Answer: D

NEW QUESTION # 183

Universal Containers (UC) works with regional partners to sell localized products. UC is actively accepting new partner applications in certain regions. Partners can only apply using UC's referral program, and the application form in certain regions can potentially contain a varying degree of sensitive information. The list of existing partners must not be shared with the general public. What should the Experience Cloud consultant recommend?

- A. Create a public site for prospect partners, show them a nondisclosure agreement, and allow them to fill out an application form on the site.
- B. Create an authenticated digital experience for partners and allow them to refer other partners in their region.
- C. Create an app for the Internal business development team and allow them to generate token-based referral links for existing partners in their region.
- D. Create a public site for existing partners and allow them to generate token-based referral links for prospect partners.

Answer: B
