

Latest FCP_FWB_AD-7.4 Examprep & Pdf

FCP_FWB_AD-7.4 Braindumps

P.S. Free & New FCP_FWB_AD-7.4 dumps are available on Google Drive shared by It-Tests: <https://drive.google.com/open?id=1W4uVYGKTUy74WbWPFFullOsEdjuT9nB8>

Useful FCP_FWB_AD-7.4 exam prep is subservient to your development. To add up your interests and simplify some difficult points, our experts try their best to design our FCP_FWB_AD-7.4 training material and help you understand the FCP_FWB_AD-7.4 study guide better. And our experts generalize the knowledge of the exam into our products showing in three versions: the PDF, the Software and the APP online. You can choose your most desirable way to practice our FCP_FWB_AD-7.4 Preparation engine on the daily basis.

Fortinet FCP_FWB_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	• Deployment and Configuration: This section of the exam measures the skills of Network Security Engineers and covers the ability to identify FortiWeb deployment requirements and configure essential system settings. Candidates are expected to set up server pools, security policies, and protected hostnames to ensure seamless deployment. To maintain operational efficiency, they must also configure FortiWeb high availability (HA) for fault tolerance and troubleshoot deployment or system-related issues.
Topic 2	• Web Application Security: This domain evaluates the ability of Cybersecurity Specialists to implement advanced threat mitigation strategies using FortiWeb. Candidates must configure the system to block known attacks, ensure comprehensive web application protection, and troubleshoot threat detection or mitigation-related issues. Additionally, they are expected to set up API protection mechanisms to secure web-based interactions from potential threats.
Topic 3	• Machine Learning (ML): This section tests the skills of Application Security Engineers in leveraging machine learning to enhance web application security. Candidates will configure machine learning algorithms to detect anomalies, mitigate bot-based threats, and secure APIs through AI-driven analysis. Understanding how to fine-tune these ML-based security measures is crucial for ensuring robust application protection against evolving cyber threats.
Topic 4	• Encryption, Authentication, and Compliance: This section of the exam assesses the expertise of Security Analysts in mitigating web application vulnerabilities through encryption and authentication mechanisms. Candidates must configure various access control methods, track user authentication, and prevent attacks targeting authentication systems. They must also implement SSL inspection and offloading techniques to enhance security and troubleshoot encryption or authentication-related issues effectively.

Three Formats of It-Tests's FCP_FWB_AD-7.4 Exam Study Material

The It-Tests offers three formats for applicants to practice and prepare for the FCP_FWB_AD-7.4 exam as per their needs. The pdf format of It-Tests is portable and can be used on laptops, tablets, and smartphones. Print real FCP - FortiWeb 7.4 Administrator (FCP_FWB_AD-7.4) exam questions in our PDF file. The pdf is user-friendly and accessible on any smart device, allowing applicants to study from anywhere at any time.

Fortinet FCP - FortiWeb 7.4 Administrator Sample Questions (Q131-Q136):

NEW QUESTION # 131

Which FortiWeb configuration element is used to define rules for allowing or blocking specific types of traffic?

- A. High Availability (HA)
- **B. Firewall policy**
- C. Protected hostname
- D. Security profile

Answer: B

NEW QUESTION # 132

Which encryption algorithm is commonly used to secure data transmission over HTTPS connections?
(Select all that apply)

- **A. AES (Advanced Encryption Standard)**
- **B. RSA (Rivest-Shamir-Adleman)**
- C. DES (Data Encryption Standard)
- D. SHA-1 (Secure Hash Algorithm 1)

Answer: A,B

NEW QUESTION # 133

Which two functions does the first layer of the FortiWeb anomaly machine learning (ML) analysis mechanism perform? (Choose two.)

- **A. Determines a probability model behind every parameter and HTTP method passing through FortiWeb**
- B. Determines if a detected threat is a false-positive or not
- C. Determines whether an anomaly is a real attack or just a harmless anomaly that should be ignored
- **D. Determines whether traffic is an anomaly, based on observable features overtime**

Answer: A,D

Explanation:

The first layer of the FortiWeb anomaly machine learning (ML) analysis mechanism focuses on analyzing traffic and creating a probability model for parameters and HTTP methods to detect potential anomalies. It also assesses traffic patterns over time to determine whether certain behavior is anomalous. These functions are key to understanding and classifying traffic before further analysis is done.

NEW QUESTION # 134

When enabling security fabric on the FortiGate interface to manage FortiAPs, which two types of communication channels are established between FortiGate and FortiAPs? (Choose two.)

- A. Security channels
- **B. Control channels**
- **C. Data channels**
- D. FortLink channels

Answer: B,C

NEW QUESTION # 135

What must you configure on FortiWeb to prevent cross-origin resource sharing (CORS) attacks?

- A. Blocklist client IP addresses.
- B. Configure an allowed origin domain.
- C. Disable CORS in the web protection profile.
- D. Configure a CORS parameter in DNS.

Answer: B

NEW QUESTION # 136

Our company attaches great importance on improving the FCP_FWB_AD-7.4 study prep. In addition, we clearly know that constant improvement is of great significance to the survival of a company. The fierce competition in the market among the same industry has long existed. As for our FCP_FWB_AD-7.4 exam braindump, our company masters the core technology, owns the independent intellectual property rights and strong market competitiveness. What is more, we have never satisfied our current accomplishments. The highest record is up to five seconds. There has no delay time of the grading process. Slow system response doesn't exist. In addition, the calculation system of the FCP_FWB_AD-7.4 Test Question is very powerful and stable. We promise that the results of your exercises are accurate.
